Matkin,1986 A basic guide for individuals responsible for developing and or operating comprehensive or specialized human service programs Drawing on more than a decade of classroom experience and development and incorporating standards from the Commission on Accreditation of Rehabilitation Facilities 1985 Edition Riggart and Matkin have created a management tool that is as practical for human service providers as it is for students Here is the fundamental management knowledge required to establish or manage all types of human service programs and facilities The text is organized into 23 sections that describe tasks ranging from constructing mission statements and admission criteria to developing start up budgets and allocating space for both direct and indirect services Each section provides definitions and guidelines practical examples exercises and selected references While the focus is on the practices of the private not for profit sector those working in a profit oriented setting will find many of the sections and exercises to be valuable aids for developing operating and maintaining successful programs *Current Catalog* National Library of Medicine (U.S.),1980 First multi year cumulation covers six years 1965 70
