Real Inner Secrets Of Psychology 1924:

Mysteries and Secrets Revealed Loren Pankratz, 2021-04-01 *Mysteries and Secrets Revealed* uncovers the reality behind mysteries of nature and secrets of frauds that eluded common understanding. The journey begins in the ancient Greek city of Delphi where priests claimed the gift of a priceless gold lion was an acknowledgement of their clairvoyant powers. But their concocted story concealed an embarrassing blunder. Those sufficiently savvy to catch the lie became aware of even deeper problems. Author Loren Pankratz then guides us through the conflicts of Renaissance scholars including Galileo who explained things in ways that enraged philosophers and infuriated priests. Galileo's methods of investigation were perpetuated by the meticulous work of the Academy of Experiment and Bernard Fontenelle's enthralling dialogue enabled common people to accept life in the rearranged sun centered universe. Clairvoyants in a mesmeric trance claimed they could visit distant planets and endure brutal surgical procedures. If any of this was real, how was it possible? One nineteenth century mesmeric savant Alexis Didier was so convincing that someone claimed no case of clairvoyance could be made for anyone if his accomplishments were not real. This unchallenged declaration is now unraveled here for the first time through information gleaned from uncommon documents and rare antiquarian pamphlets. The surprising manifestations of modern spiritualism quickly escalated into a psychic arms race that included mysterious tipping and turning of tables. Scientist Michael Faraday devised ingenious experiments to show how subtle muscle reactions outside of awareness created these manifestations. On the other hand, explanations for table levitations and mysterious writing on slates could only be solved by individuals with acute observational skills and acquainted with the methods of trickery. Each story in *Mysteries and Secrets Revealed* captures the tension of conflict, the thrill of discovery, and the strategies of science that unmasked frauds, fakes, false belief, and the enigmas of our natural world.

Real Inner Secrets of Psychology C. Alexander, 2013-10 This is a new release of the original 1924 edition. [The Kybalion](#) William Walker Atkinson, *Three Initiates*, Philip Deslippe, 2011-04-28 Here is the flagship edition of the most popular occult work of the past century now published with a groundbreaking historical introduction that establishes its authentic authorship and a lost bonus work by the original author. It is one of the most mysterious and hotly debated occult works ever written and without question the most popular and widely influential book of arcane philosophy of the twentieth century. *The Kybalion* has been credited only to the cryptic *Three Initiates* since its first appearance in 1908. Debate rages over the identity of the *Three Initiates*, the origin of the book's mysterious title and insights, and the nature of the Hermetic teachings on which it is thought to be based. Now the veil is parted. *The Kybalion: The Definitive Edition* presents the first full scale analysis of this work of practical occult wisdom. It features the complete text of *The Kybalion* and the first ever publication of Atkinson's previously unknown post *Kybalion* work *The Seven Cosmic Laws*. In an engaging introduction to this unique volume, religious scholar Philip Deslippe surveys the work's context, history, and impact, including its role as a source of spiritual insight to communities ranging from New Thought to

Black Nationalism and provides a biographical sketch of its elusive author the New Thought pioneer William Walker Atkinson As valuable to new fans as it is to longtime readers who crave more knowledge about Atkinson and his work *The Kybalion* The Definitive Edition illuminates the remarkable history of this long cherished text **The Real Inner Secrets of Psychology** C.
