Real Clothes:

Clothes John Harvey, 2014-12-05 Clothes protect our vulnerable skin and they keep us warm or cool They help us show that we are young or old rich or poor at work or play and whether we may be good to know But though they are basic much as food and shelter are and also may be beautiful they have long had a bad press in serious moral and philosophical writing The main reason for this is that they are external to us a cover we may hide behind and one on which some people spend too much money perfecting a pompous plumage of vanity also they and the fashions for them may not last long Nonetheless when we choose our own clothes we know the choice is a sensitive matter and far from being merely superficial John Harvey considers the overlapping values that clothes have for us Clothes both cover and advertise the bodies within them They help make us the men and women we are and help us to attract each other They enroll us in groups from our own circle to our generation worldwide and they show just how as individuals we want to be noticed Clothes like their wearers may compete in claiming power They may also on and off the catwalk compete to claim the spotlight In sum they show how we think we matter and they can matter themselves in ways that may be intimate and even crucial to us At all times clothes have demanded attention even when they have been castigated for their vanity and contemporary opinion is still divided Are clothes the most frivolous of consumer disposables or are they however extravagant art Though we wear and see them every day the value that they have for us is multiple and fugitive and hard to catch exactly Clothes attempts to sort the many coloured wardrobe which marks off mankind from other creatures

When Clothes Become Fashion Ingrid Loschek, 2009-08-01 When how and why do clothes become fashion Fashion is more than mere clothing It is a moment of invention a distillation of desire a reflection of a zeitgeist It is also a business relying on an intricate network of manufacture marketing and retail Fashion is both medium and message but it does not explain itself It requires language and images for its global mediation It develops from the prescience of the designer and is dependent on acceptance by observers and wearers alike *When Clothes Become Fashion* explores the structures and strategies which underlie fashion innovation how fashion is perceived and the point at which clothing is accepted or rejected as fashion The book provides a clear theoretical framework for understanding the world of fashion its aesthetic premises plurality of styles performative impulses social qualities and economic conditions
