Jucha,2019-11-22 Cleverly marketed by their original manager as the bad boys of rock the Rolling Stones have survived dalliances with the devil drug busts and the death of founding member Brian Jones to become the world s longest running rock and roll band Led by partners in crime Mick Jagger and Keith Richards the Rolling Stones have had No 1 hits released classic albums broken box office records and literally changed the world All too often however books on the Rolling Stones glimmer with gossip instead of shimmering with facts about the band s music The Rolling Stones FAQ presents these

musical facts in a fast moving fan friendly read The five incarnations of the Rolling Stones are highlighted with in depth explorations of the band s hit records albums films and tours The band s story is told not only through the biographies of the eight men to each be called a Rolling Stone but also through the stories of session men producers managers artists girlfriends and wives who have contributed to the enduring yet controversial success of the Rolling Stones

**Beggars Banquet and the Rolling Stones' Rock and Roll Revolution** Russell Reising,2019-12-06 The Rolling Stones Beggars Banquet is one of the seminal albums in rock history Arguably it not only marks the advent of the mature sound of the Rolling Stones but lays out a new blueprint for an approach to blues based rock music that would endure for several decades From its title to the dark themes that pervade some of its songs Beggars Banquet reflected and helped define a moment marked by violence decay and upheaval It marked a move away from the artistic sonic flourishes of psychedelic rock towards an embrace of foundational streams of American music blues country that had always underpinned the music of the Stones but assumed new primacy in their music after 1968 This move coincided with and anticipated the roots moves that many leading popular music artists made as the 1960s turned toward a new decade but unlike many of their peers whose music grew more soft and subdued as they embraced traditional styles the music and attitude of the Stones only grew harder and more menacing and their status as representatives of the dark underside of the 60s rock counterculture assumed new solidity For the Rolling Stones the 1960s ended and the 1970s began with the release of this album in 1968
