Roma El Mito Político:

Roma Florencio F. Hubeňák,1997-01-01 Los mitos políticos Manuel García-Pelayo,1981 Los mitos políticos no ofrecen solo un interés histórico o erudito sino que continúan ejerciendo una poderosa influencia movilizadora en las sociedades contemporáneas En efecto la mentalidad mítica constituye una forma de percepción y de instalación ante el mundo que sigue manifestando en formas simples o complejas y de manera soterrada o patente en los comportamientos políticos de nuestro tiempo Por lo demás no solo la razón y el mito fenomenológicamente contrapuestos se encuentran a veces amalgamados en unas actitudes sino que también la razón instrumental es puesta en ocasiones al servicio de una imagen o de un substratum mítico Manuel García Pelayo peresidente del Tribunal Constitucional y estudioso interesado por los mismos diversos aspectos de la historia del poder de sus estructuras jurídicas y de sus justificaciones teóricas reúne en el presente volumen un conjunto de trabajos publicados durante las dos últimas décadas en torno a estos temas Mitos y actitud mítica en el campo político sirve de introducción a los aspectos más generales del problema La transfiguración del poder se ocupa del encubrimiento neutralización o sublimación ideológicos de las relaciones de dominación interhumana El reino feliz de los tiempos finales describe las líneas básicas de la idea del milenio ilustradas con algunos ejemplos de distintas épocas y lugares La lucha por Roma analiza las razones de un mito que presidió en buena medida la pugna política ideológica de la Edad Media El Reino de Dios arquetipo político publicado anteriormente por Revista de Occidente como libro independiente es un estudio de las ideas y creencias que animaron las formas políticas de la Alta Edad Media Finalmente Las Culturas del Libro muestra la estructuración de ciertas culturas en torno a un libro mitificado **Curso de Teoría Política , Historia mínima de la España contemporánea (1808-1940)** José Cantón Rodríguez,2023-02-22 La Constitución de 1812 vendrá a incorporar dos de los rasgos característicos del Antiguo Régimen La naturaleza sagrada e inviolable del rey en un sistema político de soberanía y la definición del catolicismo como la única religión verdadera Lo que vendrá a conformar una alianza entre el Trono y el Altar durante el siglo XIX que se remontaba a la formación del Estado Moderno del XVI Lo que dará lugar a una confusión sobre el relato de la historia que llegará hasta nuestros días de un pasado que dramáticos acontecimientos nos indican no haber concluido que es lo que dejamos en los libros en los museos o en los sentimientos de injusticia insatisfechos quebrados por los exilios interiores exteriores o por la muerte y que otros personajes ideas o acontecimientos traemos a la actualidad con alguna finalidad nacionalista ideológica ejemplarizante o pedagógica como en este caso viene a establecer el Proyecto de ley de Memoria Democrática con relación a la dictadura Retomar aquellas cuestiones que parecen haber quedado rezagadas en el pasado pero que se resisten el haber alcanzado el fin de la historia son algunas de las cuestiones tratadas en esta obra *CONVIVIA FILTH* Vera Bühlmann ,Riccardo M. Villa,Cris Argüelles ,2024-09-05 Convivia is a journal that is interested in thinking what architectonics is or could be in the twenty first century Pre specific to architecture architectonics deals with the real in an abstract yet edifying manner Under architectonics the indeterminacy

brought by contemporary science is assumed as a liberation from ontological and epistemological principles and welcomed as a fortunate occasion to understand and embrace the stating of any principle as an art in itself autonomous yet not automatic or autarkic Architectonic deals with the real in terms of a communicational physics through articulations that are concrete yet reasoned in abstractive and projective manners The journal aims to set the table for a series of banquets of convivium in which courses do not respond to mere needs or inconsequential delights of consumption We focus on architectonic alloys of necessities and contingencies necessities are bounded by contingencies and contingencies are engendered through figuring out what is necessary Convivium's interest is to make cases

H H₂ using adiabatic and non adiabatic methods it was found that at low collision energies the reaction preferentially occurs adiabatically but at higher collision energies non adiabatic effects should be taken into account For H H₂ and its isotopologues we can see that at low collision energies the reaction probabilities and reaction cross section using SM PES and AY PES are very similar but different from PS PES The reaction cross sections investigated with quasi classical trajectories are higher than those calculated with quantum wavepackets For the collision H and D with HD the main reaction path ways are different with the different collision energies

Pensamiento social y político en la literatura española
Loreto Busquets, 2014-07-28 Los ensayos aquí reunidos afrontan críticamente una variedad de textos que pertenecen a las literaturas castellana y catalana contempladas unitariamente y a pocas que van del Renacimiento hasta el siglo XX con especial detenimiento en los siglos XVII XVIII y XIX A pesar de la unidad temática que los informa la autora se ha aproximado a ellos con diversos criterios metodológicos utilizando instrumentos que provienen indistintamente del estructuralismo de la historia de las ideas así como de la tradición histórica filológica y estilística En todos los casos preside el acercamiento a las obras estudiadas la interacción de forma y fondo y la neta distinción entre tema y asunto que a menudo han permitido interpretaciones discrepantes con respecto a estudios críticos que las han precedido El análisis de los textos examinados ha conducido asimismo a la revisión crítica de algunas cuestiones estilísticas literarias y conceptuales fuertemente arraigadas en la historiografía literaria española proponiendo indirectamente formas alternativas de interpretación

Morte e elezione del papa
Maria Antonietta Visceglia, 2014-07-09T00:00:00+02:00 Il Medioevo trasmette alla Et moderna le norme i riti e i simboli che scandivano gli eventi spesso drammatici della morte del papa e dell'elezione del successore Questo volume propone una lettura degli interregni papali dal XV al XIX secolo evidenziando oltre ai molti elementi di continuità con la fase storica precedente gli apporti specifici dell'Et moderna La compresenza fino al 1870 nella figura fisica del papa del principe territoriale dello Stato Ecclesiastico e del Vicario di Cristo e anche le trasformazioni della residenzialità del papa dal Vaticano al Quirinale spiegano molte delle innovazioni rituali che qui individuiamo Il lettore scoprirà anche quanto forte fosse in Et moderna la dimensione politica della elezione papale e come i rapporti di forza internazionali condizionassero le fazioni cardinalizie Anche se ciascun conclave aveva una sua storia nel volume si rintracciano dinamiche ricorrenti e una tensione permanente tra l'aspirazione all'autonomia ecclesiastica e l'irruzione dei conflitti esterni nello spazio chiuso dei conclavi

Vae victis Luis E. Íñigo, 2023-02-15 Corría el año 390 a. C. La ciudad de Roma estaba en manos de los senones un pueblo galo que había invadido el Lacio desde el norte. Había sido arrasada sin piedad y sus habitantes presas del pánico la habían abandonado o habían perecido defendiéndola. Solo unos pocos resistían atrincherados en la colina del Capitolio pero vencidos por el hambre se avinieron a pagar su libertad con un rescate de mil libras en oro. Reunida con esfuerzo tan enorme cantidad mientras se pesaba el precioso metal en una gran balanza los romanos observaron que los pesos estaban trucados y furiosos por el engaño protestaron ante los galos.
