Humphrey, *Synagogues in the Hellenistic and Roman Periods* Lutz Doering, Andrew R. Krause, Hermut

Löhr,2020-12-14 The study of ancient Judaism has enjoyed a steep rise in interest and publications in recent decades although the focus has often been on the ideas and beliefs represented in ancient Jewish texts rather than on the daily lives and the material culture of Jews Judaeans and their communities The nascent institution of the synagogue formed an increasingly important venue for communal gathering and daily or weekly practice This collection of essays brings together a broad spectrum of new archaeological and textual data with various emergent theories and interpretative methods in order to address the need to understand the place of the synagogue in the daily and weekly procedures community frameworks and theological structures in which Judaeans Galileans and Jewish people in the Diaspora lived and gathered The interdisciplinary studies will be of great significance for anyone studying ancient Jewish belief practice and community formation The Socio-Economic History and Material Culture of the Roman and Byzantine Near East Walter D. Ward,2017-11-09 A collection of essays written in honour of S Thomas Parker by his former students and colleagues The essays focus on surveys material and written culture the economy and the Roman military in the Near East *The Mediterranean World in Late Antiquity* Averil Cameron,2015-04-29 This book provides both a detailed introduction to the vivid and exciting period of late antiquity and a direct challenge to conventional views of the end of the Empire **The Balkan Peninsula and the Near East** Ferdinand Schevill,1922 **Rome in the East** Warwick Ball,2016-06-10 This new edition of Rome in the East expands on the seminal work of the first edition and examines the lasting impact of the near Eastern influence on Rome on our understanding of the development of European culture Warwick Ball explores modern issues as well as ancient and overturns conventional ideas about the spread of European culture to the East This volume includes analysis of Roman archaeological and architectural remains in the East as well as links to the Roman Empire as far afield as Iran Central Asia India and China The Near Eastern client kingdoms under Roman rule are examined in turn and each are shown to have affected Roman and ultimately European history in different but very fundamental ways The highly visible presence of Rome in the East mainly the architectural remains some among the greatest monumental buildings in the Roman world are examined from a Near Eastern perspective and demonstrated to be as much if not more a product of the Near East than of Rome Warwick Ball presents the story of Rome in the light of Rome's fascination with the Near East generating new insights into the nature and character of Roman civilisation and European identity from Rome to the present Near Eastern influence can be seen to have transformed Roman Europe with perhaps the most significant change being the spread of Christianity This new edition is updated with the latest research and findings from a range of sources including field work in the region and new studies and views that have emerged since the first edition Over 200 images most of them taken by the author demonstrate the grandeur of Rome in the East This volume is an invaluable resource to students of the history of Rome and Europe as well as those studying the Ancient Near East **Ancient West and East** Gocha Tsetskhladze,2004 Annotation Ancient West East is a peer reviewed journal devoted to the study of the history and archaeology of the periphery of the Graeco Roman world

concentrating on local societies and cultures and their interaction with the Graeco Roman Near Eastern and early Byzantine worlds **Roman Architecture and Urbanism** Fikret K. Yegül, Diane G. Favro, 2019 With 835 illustrations including numerous new plans and drawings as well as digital renderings *Recent Research on the Late Antique Countryside* William Bowden, Luke Lavan, Carlos Machado, 2004 A complex picture of differing regional trajectories emerges whilst cultural change is everywhere apparent in phenomena such as Christianisation settlement nucleation and fortification BOOK JACKET The Question of the Near East Albert Howe Lybyer, 1921 *The Archaeology of Ancient Judea and Palestine* Ariel Lewin, 2005 The regions that compose the current state of Israel and the emerging state of Palestine have yielded a wealth of fascinating archaeological evidence from the Dead Sea Scrolls found in a cave in 1947 by a Bedouin searching for a lost sheep to the remains of Roman camps and King Herod's luxurious palaces at the besieged city of Masada The authors begin with introductions to the complicated and turbulent history of the region in which a series of invaders including Babylonians Assyrians Persians and Macedonians conquered and ruled over its people The long reign of the Romans in the area is given particular attention a reign that produced the infamous client rulers Herod the Great and Pontius Pilate as well as two Jewish revolts against their Roman overlords both of which met with brutal suppression Lewin also analyzes eighteen ancient city sites including the familiar such as Jerusalem and Bethlehem and the less well known such as Herodion with its extravagant palace fortress and Scythopolis with its Roman temples and baths This book provides an enlightening overview of a region that continues to capture the attention of the world **The Roman and Byzantine Near East** Research Group on Urbanism in the Roman-Byzantine Period, 1995
