Roman Aromas Mary J. Dobson, 1997 Get a real sense of the past with these pungent and hilarious tours through our history Scratch and sniff your way through time to savour the awful and the aromatic mostly the awful and pick up some fascinating facts on just how smelly life must have been **The Smells and Senses of Antiquity in the Modern**

Imagination Adeline Grand-Clément, Charlotte Ribeyrol, 2021-12-16 This volume tackles the role of smell under explored in relation to the other senses in the modern rejection reappraisal and idealisation of antiquity Among the senses olfaction in particular has often been overlooked in classical reception studies due to its evanescent nature which makes this sense difficult to apprehend in its past instantiations And yet the smells associated with a given figure or social group convey a rich imagery which in turn connotes specific values perfumes scents and foul odours both reflect and mould the ways in which a society thinks or acts Smells also help to distinguish between male and female citizens and strangers and play an important role during rituals The Smells and Senses of Antiquity in the Modern Imagination focuses on the representation of ancient smells both enticing and repugnant in the visual and performative arts from the late 18th century up to the 21st century The individual contributions explore painting sculpture literature and film but also theatrical performance museum exhibitions advertising television series historical reenactment and graphic novels which have all played a part in reshaping modern audiences perceptions and experiences of the antique **Roman Passions** Ray Laurence, 2010-09-30 In what may be the

most in depth study yet published of a film star's body of work Susan Hayward charts the career of Simone Signoret one of the great French actresses of the 20th Century Signoret who won an Oscar in 1960 for her performance in Room at the Top was a key figure in French cinema for 40 years But it is not so much her longevity that impresses as it is the quality of work she produced as her career progressed She started out as a stunningly beautiful woman winning major international awards five times for her roles and yet was only moderately in demand during those years From the 1960s onwards when her looks began to decline significantly Signoret was in greater demand and produced most of her output She insisted on playing roles consonant with her real age and often chose to play roles that portrayed her as even more ugly than she had become Simone Signoret The Star as Cultural Sign is a remarkable achievement a labor of love from one of the world's leading scholars of French cinema Aroma Constance Classen, David Howes, Anthony Synnott, 2002-11-01 Smell is a social

phenomenon given particular meanings and values by different cultures Odours form the building blocks of cosmologies class hierarchies and political odours They can enforce social structures or transgress them unite people or divide them empower or disempower The authors argue that the sociology of smell is repressed in the modern West and its social history ignored This book breaks the olfactory silence of modernity It offers the first comprehensive exploration of the cultural role of odours in Western history from antiquity to the present It also covers a wide variety of non Western societies Its topics range from the medieval concept of the odour of sanctity to the aromatherapies of South America and from olfactory stereotypes of

gender and ethnicity in the modern West to the role of smell in postmodernity Its subject matter will fascinate anyone who likes to nose around in the inner workings of culture **Fragrance and Wellbeing** Jennifer Peace Rhind,2013-10-21 For thousands of years fragrance has been used for altering emotional states and as part of spiritual practice This book explores the impact of fragrance on the psyche from anthropological perfumery and aromatherapy viewpoints and introduces a range of fragrance families woody resinous spicy herbaceous agrestic floral citrus and attars **Roman Glass** Stuart J. Fleming,1997-01-29 This lavishly illustrated book places glass in its social setting within the Roman household The volume was written to accompany the traveling exhibition Roman Glass Reflections on Cultural Change Through a series of vignettes the author tells the story of the development of the glass industry in the Roman Empire and the role of glass in the daily routines of the ancient Romans During the reign of Rome s first emperor Augustus 27 B C A D 14 as several well established industries such as pottery and textile making were being expanded the craft of glassmaking was adopted from the East turned into an industry and adapted to Roman taste By the mid first century A D glass rivaled pottery in the domestic marketplace It was used for tableware and storage containers to hold everything from preserved fish to fine perfumes Glass featured strongly in the Roman daily routine from the early morning when maids would apply perfumed lotions to their mistress in preparation for her social rounds to the late afternoon when slaves would bring platters of food bowls of fruit and jugs of wine all of glass to the supper table And there was a place for glass even in Roman funerary ritual because it was custom to include all manner of domestic items among the grave furnishings to add comfort to the afterlife *Chedworth: Life in a Roman Villa* Simon Cleary,Tony Robinson,2013-04-01 Chedworth is one of the few Roman villas in Britain whose remains are open to the public and this book seeks to explain what these remains mean The fourth century in Britain was a golden age and at the time the Cotswolds were the richest area of Roman Britain The wealthy owners of a villa such as Chedworth felt themselves part of an imperial Roman aristocracy This is expressed at the villa in the layout of the buildings rooms for receiving guests and for grand dining the provision of baths and the use of mosaics The villa would also have housed the wife family and household of the owner and been the centre of an agricultural estate In the nineteenth century Chedworth was rediscovered and part of the villa s tale is the way in which it was viewed by a nineteenth century Cotswold landowner Lord Eldon and then its current owners the National Trust Now in this remarkable and beautifully illustrated volume Chedworth s story is told in full *Sacred Scents in Early Christianity and Islam* Mary Thurlkill,2016-07-26 Medieval scholars and cultural historians have recently turned their attention to the question of smells and what olfactory sensations reveal about society in general and holiness in particular Sacred Scents in Early Christianity and Islam contributes to that conversation explaining how early Christians and Muslims linked the sweet smell of sanctity with ideals of the body and sexuality created boundaries and sacred space and imagined their emerging communal identity Most importantly scent itself transgressive and difficult to control signaled transition and transformation between categories of meaning Christian and

Islamic authors distinguished their own fragrant ethical and theological ideals against the stench of oppositional heresy and moral depravity Orthodox Christians ridiculed their stinking Arian neighbors and Muslims denounced the reeking corruption of Umayyad and Abbasid decadence Through the mouths of saints and prophets patriarchal authors labeled perfumed women as existential threats to vulnerable men and consigned them to enclosed private space for their protection as well as society's At the same time theologians praised both men and women who purified and transformed their bodies into aromatic offerings to God Both Christian and Muslim pilgrims venerated sainted men and women with perfumed offerings at tombstones indeed Christians and Muslims often worshipped together honoring common heroes such as Abraham Moses and Jonah Sacred Scents begins by surveying aroma's quotidian functions in Roman and pre-Islamic cultural milieus within homes temples poetry kitchens and medicines Existing scholarship tends to frame scent as something available only to the wealthy or elite however perfumes spices and incense wafted through the lives of most early Christians and Muslims It ends by examining both traditions' views of Paradise identified as the archetypal Garden and source of all perfumes and sweet smells Both Christian and Islamic texts explain Adam and Eve's profound grief at losing access to these heavenly aromas and celebrate God's mercy in allowing earthly remembrances Sacred scent thus prompts humanity's grief for what was lost and the yearning for paradisiacal transformation still to come

A Sensory History Manifesto Mark M. Smith, 2021-08-04 A Sensory History Manifesto is a brief and timely meditation on the state of the field It invites historians who are unfamiliar with sensory history to adopt some of its insights and practices and it urges current practitioners to think in new ways about writing histories of the senses Starting from the premise that the sensorium is a historical formation Mark M Smith traces the origins of historical work on the senses long before the emergence of the field now called sensory history interrogating exploring and in some cases recovering pioneering work on the topic Smith argues that we are at an important moment in the writing of the history of the senses and he explains the potential that this field holds for the study of history generally In addition to highlighting the strengths of current work in sensory history Smith also identifies some of its shortcomings If sensory history provides historians of all persuasions times and places a useful and incisive way to write about the past it also challenges current practitioners to think more carefully about the historicity of the senses and the desirability even the urgency of engaged and sustained debate among themselves In this way A Sensory History Manifesto invites scholars to think about how their field needs to evolve if the real interpretive dividends of sensory history are to be realized Concise and convincing A Sensory History Manifesto is a must read for historians of all specializations
