Roman Corinth An Alternative Model For The Classical City:

Roman Corinth Donald W. Engels, 1990-05-29 In the second century A D Corinth was the largest city in Roman Greece A center of learning culture and commerce it served as the capital of the senatorial province of Achaëa and was the focus of apostle Paul s missionary activity Donald Engels s important revisionist study of this ancient urban area is at once a detailed history of the Roman colony and a provocative socioeconomic analysis With Corinth as an exemplar Engels challenges the widely held view that large classical cities were consumer cities innocent of the market forces that shape modern economies Instead he presents an alternative model the service city Examining a wealth of archaeological and literary evidence in light of central place theory and using sound statistical techniques Engels reconstructs the human geography of the Corinthia including an estimate of the population He shows that given the amount of cultivatable land rents and taxes levied on the countryside could not have supported a highly populated city like Corinth Neither could its inhabitants have supported themselves directly by farming Rather the city constituted a thriving market for domestic regional and overseas raw materials agricultural products and manufactured goods at the same time satisfying the needs of those who plied the various land and sea routes that converged there Corinth provided key governmental and judicial services to the province of Achaëa and its religious festivals temples and monuments attracted numerous visitors from all corners of the Roman world In accounting for the large portion of residents who participated in these various areas outside of the traditional consumer model Engels reveals the depth and sophistication of the economics of ancient cities Roman Corinth is a much needed critique of the currently dominant approach of ancient urbanism It will be of crucial interest to scholars and students in classics ancient history and urban studies

Pauline Baptism among the Mysteries Donghyun Jeong, 2023-07-04 This monograph provides an alternative model for looking at the old question about Paul and the mysteries in a new light Specifically this study compares rituals baptism in the Pauline communities and the initiation rituals of the mysteries through the lens of cultural anthropology and the sociology of religion Three research questions lead the project What benefits does each initiation ritual promise its participants What are the underlying messages or structures that guarantee the efficacy of those rituals How and to what extent is the initiation ritual connected to the participants cognition and ethics beyond initiation itself Taking those questions as the analytical framework this study substantiates two points first in terms of ritual messages baptism in the Pauline communities is a ritual analogous to mystery initiation and second Paul is an innovative interpreter of ritual who recalibrates the messages of preexisting rituals for his theological and ethical program seeking to radically extend the implications of initiation to the embodied life of every Christ believer Students and scholars of New Testament early Christianity classics and ritual studies will benefit from engaging this volume

network between and within the sub regions of that part of the Roman Empire It examines the role of the town in Roman provincial society and the prerequisites for their emergence and prosperity **Contesting Languages** Ekaputra Tupamahu,2022-11-04 How did the Apostle Paul navigate the language differences in Corinth In this book Ekaputra Tupamahu investigates Corinthian tongue speech as a site of political struggle Tupamahu demonstrates that conceptualizing speaking in tongues as ecstatic unintelligible expressions is an interpretive invention of German romantic nationalist scholarship Instead drawing on Mikhail Bakhtin s theories of language Tupamahu finds two forces of language at work in the New Testament a centripetalizing force of monolingualism which attempts to force heterogeneous languages into a singular linguistic form and a countervailing centrifugal force that diverse languages unleash *Secular and Christian Leadership in Corinth* Clarke,2018-12-10 This volume traces the influences of first century Corinthian secular leadership on local church leadership as reflected in 1 Corinthians 1 6 It then shows how Paul modifies the Corinthian understanding of church leadership By comparing secular leadership in first century Corinthian society with leadership in the Corinthian church it has been argued that one of Paul s major concerns with the church in Corinth is the extent to which significant members in the church were employing secular categories and perceptions of leadership in the Christian community This volume has adopted the method of assessing the New Testament evidence in the light of its social and historical background Both literary and non literary sources rather than modern sociological models were employed in making the comparison Secular and Christian Leadership in Corinth Andrew D. Clarke,2006-10-18 This volume traces the secular influences of first century Roman Corinth on the local church leadership It then shows how Paul modifies the Corinthian understanding of church leadership Using 1 Corinthians 1 6 together with other first century literary and non literary sources it is argued that one of Paul s major concerns with the church in Corinth is the extent to which significant members in the church were employing secular categories and perceptions of leadership in the Christian community this updated edition also seeks to reflect on recent developments in 1 Corinthians scholarship Politics and Rhetoric in the Corinthian Epistles L. L. Welborn,1997

Epicureans Acts 17 18 the probability of their contacts was high given the popularity of Epicureanism in the Roman Empire in the first century CE As a vital component of Hellenistic Roman culture Epicureanism should be taken into account in research on the New Testament becoming a point of reference and part of the content of comparative analyses 1-2

Corinthians Craig S. Keener, 2005-06-13 This commentary explains 1 and 2 Corinthians passage by passage following Paul's argument It uses a variety of ancient sources to show how Paul's argument would have made sense to first century readers drawing from ancient letter writing speaking and social conventions The commentary will be of interest to pastors teachers and others who read Paul's letters because of its readability firm grasp of the background and scholarship on the Corinthian correspondence and its sensitivity to the sorts of questions asked by those wishing to apply Paul's letters today It will also be of interest to scholars because of its exploration of ancient sources often providing sources not previously cited in commentaries

Conversion at Corinth Stephen J. Chester, 2005-11-17 Paul's conversion and its impact on his theology has been studied extensively Yet little has been done to relate this to Paul's attitude towards the conversion of others or to perspectives on conversion held by converts in the churches Paul founded Soteriology is often considered in isolation from the practical issues of how conversion was expected to take place and the nature of its expected consequences This book addresses these issues taking account of recent developments in conversion studies in the social sciences and

other disciplines Stephen Chester first reviews these developments and assesses the potential value of sociologist Anthony Giddens general social theory of structuration He then utilizes this to explore Paul s perspectives on conversion in relation to both Gentile and Jewish converts He also explores the Corinthians perspectives on conversion in the context of Graeco Roman religious and social life Here emerges a fascinating account of perspectives on conversion in the crucial formative years of early Christianity The Social Ethos of the Corinthian Correspondence David G. Horrell,1996-01-01 An exemplary study focussing on the Corinthian correspondence of the social ethos of early Christian teaching and its development

Republics Ancient and Modern Paul Anthony Rahe,1994 Republics Ancient and Modern Volume I The Ancien Regime in Classical Greece *Christ's Associations* John S. Kloppenborg,2019-11-26 A groundbreaking investigation of early Christ groups in the ancient Mediterranean As an urban movement the early groups of Christ followers came into contact with the many small groups in Greek and Roman antiquity Organized around the workplace a deity a diasporic identity or a neighborhood these associations gathered in small face to face meetings and provided the principal context for cultic and social interactions for their members Unlike most other groups however about which we have data on their rules of membership financial management and organizational hierarchy we have very little information about early Christ groups Drawing on data about associative practices throughout the ancient world this innovative study offers new insight into the structure and mission of the early Christ groups John S Kloppenborg situates the Christ associations within the broader historical context of the ancient Mediterranean and reveals that they were probably smaller than previously believed and did not have a uniform system of governance and that the attraction of Christ groups was based more on practice than theological belief **Terracotta Lamps II** Birgitta Lindros Wohl,2017-07-01 This volume discusses more than 400 lamps and lamp fragments dating from the Late Archaic to the Byzantine period found over several decades at the Sanctuary of Poseidon at Isthmia These come from excavations undertaken by UCLA from 1967 to 1987 under the direction of Paul Clement and since then by OSU under the direction of Timothy Gregory In addition to a detailed catalogue the volume presents a commentary on the types of lamps used at the sanctuary that enriches our knowledge of their manufacture use and artistic evolution over time The lamps also contribute to a better understanding of the site as they reflect the various historical political and religious vicissitudes at Isthmia and in the Corinthia in general over the centuries A Student
