Christianity and the Roman Empire Ralph Martin Novak, 2001-02-01 The rise of Christianity during the first four centuries of the common era was the pivotal development in Western history and profoundly influenced the later direction of all world history Yet for all that has been written on early Christian history the primary sources for this history are widely scattered difficult to find and generally unknown to lay persons and to historians not specially trained in the field In Christianity and the Roman Empire Ralph Novak interweaves these primary sources with a narrative text and constructs a single continuous account of these crucial centuries The primary sources are selected to emphasize the manner in which the government and the people of the Roman Empire perceived Christians socially and politically the ways in which these perceptions influenced the treatment of Christians within the Roman Empire and the manner in which Christians established their political and religious dominance of the Roman Empire after Constantine the Great came to power in the early fourth century CE Ralph Martin Novak holds a Masters Degree in Roman History from the University of Chicago For

Humanism recovers a Christian humanist ethos for our time The volume offers a chronological overview from patristic humanism to the Reformation and beyond and individual examples Jewell Calvin of past Christian humanisms The chapters are connected through the theme of Christian paideia as the foundation for liberal arts education *Ancient, Medieval, and Modern Christianity* Charles Guignebert, 1961 Christian scholar Charles Guignebert 1867 1939 lectured extensively on Christian history at the Sorbonne and conducted a 23 year long seminar on the New Testament In this extensive work Guignebert illuminates the evolution of Christianity over nineteen centuries Faith or Gullibility? David Rex Holt, 2016-06-07 Faith or Gullibility was originally written in answer to the author's many friends who asked why he was no longer attending church but as time passed and his studies revealed more and more anomalies in religious beliefs around the world it became very obvious that religious deception was rampant in all doctrines This was nowhere more obvious than in the political environments in which those doctrines were originally conceived where necessity demanded some sort of unified stance by different groups of people Much more than today where technology can provide answers in past centuries naturally gifted leaders needed convincing stories to persuade the masses to act in harmony to achieve the best outcomes and so those people were in that environment lauded as prophets and even credited with what became known as divine inspiration although in actual fact their leading was nothing more than intelligent use of their own intellects Nowhere was this more evident than in cases where their prophecies directly contradicted the laws of physics under the name of miracles A principal problem with this was that when those so called prophets expounded their ideas scientific knowledge was almost non-existent so that rank and file people readily accepted them and passed them down from generation to generation often by word of mouth because illiteracy was far more prevalent than it is in modern developed countries However with increased knowledge human wisdom the sagacious application of knowledge has increased exponentially beyond all reckoning amongst open minded people of all religions to the point where it is no longer possible to justify those outdated beliefs when they are rationalised against the immutable laws of physics This is particularly so when one considers that the entire universe and in fact many universes were all made without a single physical law being broken As studies become more and more logical it becomes more and more apparent that the main reason for religious beliefs whatever they may be is insecurity where human nature cannot accept that life is a finite thing People cling tenaciously to any doctrine that promises any sort of immortality whether it makes any sense or not and so the purpose of this book increasingly became changed from a mere answer to personal questions to an in depth study of religious mythology and deception Learning and Discerning Christian History A. Iconoclast, 2022-09-24 Christian history in this present age is not taught in schools or even churches It has been twisted by pagans and priests alike This book was born out of darkness to shine forth as a light History is a vast subject that teaches us the ways of man and his depravity toward his fellow men It shows us the ways in which man has been led astray and lied to It instructs us in the way the Father works throughout time He reveals the common enemy of man in His story It teaches us

that there is hope and love in the remnant of mankind We war daily against unseen and evil forces His word is for battle Arm yourselves Learning and Discerning Christian History is a light in the darkness and a textbook for the last days Combined with the Holy Bible this book is a weapon of war in the hands of the children of the most high God Prepare study be vigilant be watchful be bold and hold on to his words while learning and discerning Christian history The LORD is a man of war the LORD is his name Exodus 15 3 Seek ye the LORD while he may be found call ye upon him while he is near Isaiah 55 6
