The book utilises archaeological, epigraphic, and literary evidence for Roman communications, drawing on recent approaches to the human landscape developed by geographers. Among the topics considered are the relationship between the road and the human landscape, the administration and maintenance of the road system, the role of roads as imperial monuments, the economics of road construction, and urban development.      *Encyclopedia of the History of Classical Archaeology* Nancy Thomson de Grummond, 2015-05-11 With 1,125 entries and 170 contributors, this is the first encyclopedia on the history of classical archaeology. It focuses on Greek and Roman material but also covers the prehistoric and semi-historical cultures of the Bronze Age, Aegean, the Etruscans, and manifestations of Greek and Roman culture in Europe and Asia Minor. The Encyclopedia of the History of Classical Archaeology includes entries on individuals whose activities influenced the knowledge of sites and monuments in their own time, articles on famous monuments and sites as seen, changed, and interpreted through time, and entries on major works of art excavated from the Renaissance to the present day, as well as works known in the Middle Ages. As the definitive source on a comparatively new discipline, the history of archaeology, these finely illustrated volumes will be useful to students and scholars in archaeology, the classics, history, topography, and art and architectural history.      **List of Books for a College Art Library** College Art Association of America. Committee on Books for the College Art Library, 1929      **The Art Bulletin**, 1929 Includes section Notes and reviews      *Environmental Problems of the Greeks and Romans* Johnson Donald Hughes, 2014-02-15 How did ancient societies change the environment and how do their actions continue to affect us today? In this dramatically revised and expanded second edition of the work entitled *Pan's Travail*, J. Donald Hughes examines the environmental history of the classical period and argues that the decline of ancient civilizations resulted in part from their

exploitation of the natural world Focusing on Greece and Rome as well as areas subject to their influences Hughes offers a detailed look at the impact of humans and their technologies on the ecology of the Mediterranean basin Evidence of deforestation in ancient Greece the remains of Roman aqueducts and mines and paintings on centuries old pottery that depict agricultural activities document ancient actions that resulted in detrimental consequences to the environment Hughes compares the ancient world s environmental problems to other persistent social problems and discusses attitudes toward nature expressed in Greek and Latin literature In addition to extensive revisions based on the latest research this new edition includes photographs from Hughes s worldwide excursions a new chapter on warfare and the environment and an updated bibliography

**Power and Place in Etruria: Volume 1** Simon Stoddart,2020-10-08 This volume fills a gap in the study of an important yet neglected case of state formation by taking a landscape perspective to Etruria Simon Stoddart examines the infrastructure hierarchy heterarchy and spatial patterns of the Etruscans over time to investigate their political development from a new perspective The analysis both crosses the divide

from prehistory to history and applies a scaled analysis to the whole region between the Tyrrhenian Sea and the Arno and Tiber rivers with special focus on the neglected region between Populonia on the coast and Perugia and the north Umbrian region adjoining the Apennines Stoddart uncovers the powerful places that were in dynamic tension not only between themselves but also with the internal structure constituted by the descent groups that peopled them He unravels the dynamically changing landscape of changing boundaries and buffer zones which contained robust urbanism as well as less centralized polyfocal nucleations      *Power and Place in Etruria* Simon Stoddart,2020-10-08 This book reconstructs political history from the spatial organization of ancient society challenging the approach favored by classicists      *The Greek and Roman Trophy* Lauren Kinnee,2018-03-12 In *The Greek and Roman Trophy From Battlefield Marker to Icon of Power* Kinnee presents the first monographic treatment of ancient trophies in sixty years The study spans Archaic Greece through the Augustan Principate Kinnee aims to create a holistic view of this complex monument type by breaking down boundaries between the study of art history philology the history of warfare and the anthropology of religion and magic Ultimately the kaleidoscopic picture that emerges is of an ad hoc anthropomorphic Greek talisman that gradually developed into a sophisticated Augustan sculptural or architectural statement of power The former a product of the hoplite phalanx disappeared from battlefields as the Macedonian cavalry grew in importance shifting instead onto coins and into rhetoric where it became a statement of military might For their part the Romans seem to have encountered the trophy as an icon on Syracusan coinage Recognizing its value as a statement of territorial ownership the Romans spent two centuries honing the trophy concept into an empire building tool planted at key locations around the Mediterranean to assert Roman presence and dominance This volume covers a ubiquitous but poorly understood phenomenon and will therefore be instructive to upper level undergraduates graduate students and scholars in all fields of Classical Studies      **Atlas of Classical History** Richard J.A. Talbert,2002-09-11 From the Bronze Age to the reign of Constantine the *Atlas of Classical History* provides a comprehensive series of maps diagrams and commentary designed to meet the needs of classical scholars as well as general readers Over 135 maps of the Greek and Roman worlds clearly mark the political affiliations of the cities and states major military events trade routes artistic cultural and industrial centers and colonization and exploration
