Christianity, Empire, and the Making of Religion in Late Antiquity Jeremy M. Schott,2013-04-23 In *Christianity Empire and the Making of Religion in Late Antiquity* Jeremy M Schott examines the ways in which conflicts between Christian and pagan intellectuals over religious ethnic and cultural identity contributed to the transformation of Roman imperial rhetoric and ideology in the early fourth century C E During this turbulent period which began with Diocletian s persecution of the Christians and ended with Constantine s assumption of sole rule and the consolidation of a new Christian empire Christian apologists and anti Christian polemicists launched a number of literary salvos in a battle for the minds and souls of the empire Schott focuses on the works of the Platonist philosopher and anti Christian polemicist Porphyry of Tyre and his Christian respondents the Latin rhetorician Lactantius Eusebius bishop of Caesarea and the emperor Constantine Previous scholarship has tended to narrate the Christianization of the empire in terms of a new religion s penetration and conquest of classical culture and society The present work in contrast seeks to suspend the static essentializing conceptualizations of religious identity that lie behind many studies of social and political change in late antiquity in order to investigate the processes through which Christian and pagan identities were constructed Drawing on the insights of postcolonial discourse analysis Schott argues that the production of Christian identity and in turn the construction of a Christian imperial discourse were intimately and inseparably linked to the broader politics of Roman imperialism *The Oxford Handbook of Postcolonial Biblical Criticism* R. S. Sugirtharajah,2023 *The Oxford Handbook of Postcolonial Biblical Criticism* is a comprehensive treatment of a relatively new form of scholarship Generally speaking postcolonialism aims to critique and dismantle hegemonic worldviews and power structures while giving voice to previously marginalized peoples and systems of thought This approach has inevitably engaged with the text and reception of the Bible a scripture that Western colonizers introduced to and often imposed upon their colonial subjects With a globally diverse list of contributors the Handbook aims to cover the perspective and context of the authors of the Bible as well as the modern experiences of imperialism resistance decolonization and nationalism Imperialism and the Anti-Imperialist Mind Lewis Samuel Feuer,1989-01-01 In this major work Lewis S Feuer examines critical distinctions between progressive and regressive imperialism He explores causes of anti imperial ideologies noting that unlike the spoliation that took place under regressive tartar Spanish and Nazi colonizations civilization flourished during the progressive imperialism of Hellenic Macedonian Roman and modern British eras of empire building Feuer holds that it is erroneous to blame the relative backwardness of colonial peoples on the imperialism of Western democratic nations In case after case the character of colonial rulers determined economic development and democratic reform alike Pursuing the theme of progress versus regression Feuer compares the imperialism of the United

States with that of the Soviet Union to the detriment of the latter in nearly every instance His effort constitutes nothing short of a fundamentally new perspective on the lessons of modern history and the mistakes of modern analysts of international affairs Feuer opens as well a new chapter in political psychology with his study of such anti imperialist intellectuals as Hobson Morel and Leonard Woolf his portrait of Emin Pasha the heroic Jewish governor of Equatorial Sudan suggests a living model for Conrad s Lord Jim

Reading, Writing, and Bookish Circles in the Ancient Mediterranean Jonathan D.H. Norton, Garrick Allen, Lindsey A. Askin, 2022-06-30 By integrating conversations across disciplines especially focusing on classical studies and Jewish and Christian studies this volume addresses several imbalances in scholarship on reading and textual activity in the ancient Mediterranean Contributors intentionally place Jewish Christian Roman Greek and other reading circles back into their encompassing historical context avoiding subdivisions along modern subject lines divisions still bearing marks of cultural and ideological interests In their examination contributors avoid dwelling upon traditional methodological debates over orality vs literacy and social classifications of literacy instead turning their attention to the social historical groups of people circles and networks strata and class scribal culture material culture epigraphic and papyrological evidence functions and types of literacy and the social relationships that all of these entail Overall the volume contributes to an emerging and important interdisciplinary collaboration between specialists in ancient literacy encouraging future discussion between two currently divided fields

Ambrose of Milan and Community Formation in Late Antiquity Ethan Gannaway, Robert L. Grant, 2021-03-08 Ambrose the first patrician bishop and a prolific writer of a broad range of works presents numerous opportunities for interdisciplinary research His participation in many social groups sometimes at odds with each other and sometimes overlapping demanded flexibility The result is a protean figure whose motives are not always clear His own works and those of the scholars who contribute to this volume are accordingly multidisciplinary Fields such as theology especially historical theology history classics philosophy linguistics and aesthetics among others and the recent international research that belongs to them nuance the volume s investigation of Ambrose s actions and motivations The reader will find that Ambrose s efforts to create and to strengthen social cohesion included building relationships and erecting social structures set on the foundations of Nicaean Christianity against heresy and paganism A fusion of Graeco Roman and Judeo Christian intellectual traditions reinforced the solidarity Ambrose promoted These endeavors met with success then and continue to do so now as indicated by the modern community of scholars found within this book

Ambrose Mong, 2022-01-27 The influence of religion on culture is as strong as ever but the shape of that influence is unique in today's pluralistic society In Christianity in the Modern World Ambrose Mong examines critically themes of religious commitment and tolerance attitudes towards other religions and the sociological aspects of religion and inter religious dialogue He provides an overview of factors that challenge traditional religion from the relationship between monotheistic and polytheistic beliefs to the history of tolerance and intolerance in the church and the future of secularism Following the global ethics formulated by the late Hans Kung Mong also engages with the dialogue between Jurgen Habermas and Joseph Ratzinger to provide an extensive defence of the importance of inter religious dialogue with particular relevance to multiple religious belonging in the Asian context Scholars of world religions will find Mong's analysis compelling while students will
