The Conquest of Ruins Julia Hell, 2019-03-19 The Roman Empire has been a source of inspiration and a model for imitation for Western empires practically since the moment Rome fell Yet as Julia Hell shows in *The Conquest of Ruins* what has had the strongest grip on aspiring imperial imaginations isn't that empire's glory but its fall and the haunting monuments left in its wake Hell examines centuries of European empire building from Charles V in the sixteenth century and Napoleon's campaigns of the late seventeenth and early eighteenth centuries to the atrocities of Mussolini and the Third Reich in the 1930s and 40s and sees a similar fascination with recreating the Roman past in the contemporary image In every case particularly that of the Nazi regime the ruins of Rome seem to represent a mystery to be solved how could an empire so powerful be brought so low Hell argues that this fascination with the ruins of greatness expresses a need on the part of would be conquerors to find something to ward off a similar demise for their particular empire

Erasing Historical Invisibility Hector G. Balcazar, 2025-08-05 Hector G Balcazar's first book No Wonder The Art of

Creating a New World started a new dialogue for building a more hopeful future in which humanity cares for one another's wellbeing using the Community Health Worker model. In that first book which took the form of a memoir, the author uses his work in public health to present his vision to build communities utilizing a bridge of human connection. Utilizing a storytelling approach, *Erasing Historical Invisibility: Creating a Compassionate World* further elevates the concept of humanity caring for one another and building a more hopeful future. With themes such as erasing historical invisibility and creating a compassionate world, the author examines the story of our past and presents a positive framework for the future. With *Erasing Historical Invisibility*, the author takes a historical perspective as to why humanity has not yet advanced to increase the human spirit. He suggests humanity has utilized an old recipe which distracts the collective maturity from evolving. The reader is invited to learn about the old recipe, the role of human invisibility, and what new recipes are needed. In *Erasing Historical Invisibility*, the author describes humanity as a conqueror species and how humanity evolved to create human invisibility. Using the Roman Empire, Mexico, and the United States as examples, the author presents the need for dismantling the old recipe. Showcasing themes such as re-examining our human collective experience moving towards regional and community life and the concept of antidotes to build new model frameworks for creating a collective maturity and a safe world.

A distinguished ancient historian's elegant study of the extraordinary women who helped lay the foundations of the early Christian church. Kirkus Reviews: According to most recorded history, women in the ancient world lived invisibly. In *Band of Angels*, historian Kate Cooper has pieced together their story from the few contemporary accounts that have survived. Through painstaking detective work, she renders both the past and the present in a new light. *Band of Angels* tells the remarkable story of how a new understanding of relationships took root in the ancient world. Women from all walks of life played an invaluable role in Christianity's rapid expansion. Their story is a testament to what unseen people can achieve and how the power of ideas can change the world on a household level at a time.
