Roman Elegies and the Diary Johann Wolfgang von Goethe, 1988 Translation of two of Goethe s erotic works which are rarely included in German editions The introduction examines Goethe s

erotic poetry in his overall development and in relation to other European poetry of the genre Wisdom for the Soul Larry Chang, 2006 Five Millennia of Prescriptions for Spiritual Healing *Affective Connections* Dorota Golanska, 2017-12-20 Inspired by the philosophical framework of Deleuze and Guattari in relation to affect *Affective Connections* disavows the dominant oppositional discourse around representation to offer an affirmative approach to perception cognition and experience It advances a new materialist concept of synaesthetic perception where synaesthesia is understood as a union of senses This idea offers a new figuration for thinking about our cognition exploring the role of embodied experience and the agency of matter in the production of knowledge Looking at a number of memorials memory sites and artworks relating to the Holocaust the book uses this idea of synaesthetic perception to explore trauma memory and the production of art in relation to painful memories In doing so it demonstrates that modes of interacting with the past and encountering the lived experience of trauma can trigger a deeper understanding of these events and produce more complex forms of affective connections It proposes a shift away from empathy towards sympathy understood in new materialist terms not just as a sentimental response to trauma but as an affective notion that allows for a more comprehensive grasp of experiences of discrimination exclusion suffering or pain **On Multiple Selves** David Lester, 2017-09-08 *On Multiple Selves* refutes the idea that a human being has a single unified self Instead David Lester argues the mind is made up of multiple selves and this is a normal psychological phenomenon Lester expands on his earlier work on the phenomenon illuminating how a multiple self theory of the mind is critically necessary to understanding human behavior Most of us are aware that we have multiple selves We adopt different facade selves depending on whom we are with Lester argues that contrary to the popular psychological term false self these presentations of self are all part of us not false they simply cover layers of identity He asserts that at any given moment in time one or another of our subselves is in control and determines how we think and act Lester covers situations that may encourage the development of multiple selves ranging from post traumatic stress resulting from combat to bilinguals who speak two or more languages fluently Lester's views of multiple selves will resonate with readers individual subjective experience *On Multiple Selves* is an essential read for psychologists philosophers and social scientists and will fascinate general readers as well Goethe: Life as a Work of Art Rüdiger Safranski, 2017-05-16 A New York Times Book Review Editors Choice Selection Named one of the Best Books of the Year by the Economist and Kirkus Reviews This splendid biography Wall Street Journal of Goethe presents his life and work as an essential touchstone for the modern age A masterful intellectual portrait Goethe *Life as a Work of Art* is celebrated as the seminal twenty first century biography of the writer considered to be the Shakespeare of German literature Johann Wolfgang von Goethe 1749 1832 a remarkably prolific poet playwright novelist and as Rüdiger Safranski emphasizes a statesman and naturalist first awakened not only a burgeoning German nation but the European continent with his electrifying novel *The Sorrows of Young Werther* Safranski has scoured Goethe's entire oeuvre relying exclusively on primary sources including his correspondence with

contemporaries to produce a fresh and authentic Economist portrait of the avatar of the Romantic era Skillfully blending artistic analysis with swift sharp renderings of the great political and intellectual figures Goethe encountered Safranski s portrait of the prolific genius leaves the reader with lasting awe even envy of a monumental legacy The New Yorker As Safranski ultimately shows Goethe s greatest creation even in comparison to his masterpiece Faust was his own life
