Runes and Roman Letters in Anglo-Saxon Manuscripts Victoria Symons, 2016-10-24 This book presents the first comprehensive study of Anglo Saxon manuscript texts containing runic letters To date there has been no comprehensive study of these works in a single volume although the need for such an examination has long been recognized This is in spite of a growing academic interest in the mise en page of early medieval manuscripts The texts discussed in this study include Old English riddles and elegies the Cynewulfian poems charms Solomon and Saturn I and the Old English Rune Poem The focus of the discussion is on the literary analysis of these texts in their palaeographic and runological contexts Anglo Saxon authors and scribes did not of course operate within a vacuum and so these primary texts are considered alongside relevant epigraphic inscriptions physical objects and historical documents Victoria Symons argues that all of these runic works are in various ways thematically focused on acts of writing visual communication and the nature of the written word The conclusion that emerges over the course of the book is that when encountered in the context of Anglo Saxon manuscripts runic letters consistently represent the written word in a way that Roman letters do not

The Print Origin and Evolution , Colonialism and Knowledge in Grierson's Linguistic Survey of India Javed Majeed,2018-08-31 This book is the first detailed examination of George Abraham Grierson s Linguistic Survey of India one of the most complete sources on South Asian languages It shows that the Survey was characterised by a composite and collaborative mode of producing knowledge which undermines any clear distinctions between European orientalist and colonised Indians in British India Its authority lay more in its stress on the provisional

nature of its findings an emphasis on the approximate nature of its results and a strong sense of its own shortcomings and inadequacies rather than in any expression of mastery over India's languages. The book argues that the Survey brings to light a different kind of colonial knowledge whose relationship to power was much more ambiguous than has hitherto been assumed for colonial projects in modern India. It also highlights the contribution of Indians to the creation of colonial knowledge about South Asia as a linguistic region. Indians were important collaborators and participants in the Survey and they helped to create the monumental knowledge of India as a linguistic region which is embodied in the Survey. This volume like its companion volume *Nation and Region in Grierson's Linguistic Survey of India* will be a great resource for scholars and researchers of linguistics, language and literature, history, political studies, cultural studies and South Asian studies.

is devoted to Christianity in India where it has had a long presence going back to the time of the apostles of Jesus Christ. It focuses on the history, origin, organizations, and local engagements, belief system, worship practices, Rites, Rituals, Christian life, Contributions, Spirituality, and a few of the main doctrinal and theological items. It further examines the earlier phase of the history of Christianity starting with the traditional belief of the arrival of St Thomas in AD 52, moving to the periods of its association with the Chaldean church, the Portuguese, the Dutch, English, and so on. This volume highlights the missionary activities of persons like St Francis Xavier, the creative contributions made to the inter religious dialogue by such people as Roberto de Nobili 1577-1656 and Swami Abhishiktananda 1910-1973, the linguistic and educational contributions of some of the pioneers like the German Jesuit Johanne Ernst Hanxleden known as Arnos Padiri 1681-1732, Herman Gundert 1814-1893, St Elias Kuriakos Chavara 1805-1871, and a fortiori the enormous contributions in the healthcare area throughout the country. Caring for and serving the socio economically marginalized ones, the peripheralized people, formed an integral part of the Christian activity in India as it is done even today. This is highlighted very much in the volume. It further explores the contact India had with European Christianity, showing that European Christianity proved to have wider influence in the Northern part of India, unlike India's early episodic encounters with Palestinian and Persian forms of Christianity, which had deep influence in the Southern part of India. The volume also highlights the inner struggle among the followers, resulting even in its division, originating at the Synod of Diamper in 1599, manifesting by and large the Church-state love and hate relationships. In fine, in spite of the drawbacks of putting the Herculean task of two thousand years of history in eight hundred pages or so, this volume gives a rather comprehensive view of Christianity in India, especially to those who are unfamiliar with its life and dynamics in the Indian context. The wide range of photographs, 325 of them, especially of the churches, revealing the architectural beauty and multiplicity, along with the ensemble of art and paintings and pilgrimage centers, adds to the enrichment of the volume.
