Waliszewski,1894 *Thinking Medieval Romance* Katherine C. Little,Nicola McDonald,2018-11-10 Medieval romances with their magic fountains brave knights and beautiful maidens have come to stand for the Middle Ages more generally This close connection between the medieval and the romance has had consequences for popular conceptions of the Middle Ages an idealized fantasy of chivalry and hierarchy and also for our understanding of romances as always already archaic part of a half forgotten past And yet romances were one of the most influential and long lasting innovations of the medieval period To emphasize their novelty is to see the resources medieval people had for thinking about their contemporary concern and controversies whether social order Jewish Christian relations the Crusades the connectivity of the Mediterranean women s roles as mothers and how to write a national past This volume takes up the challenge to think romance investigating the various ways that romances imagine reflect and describe the challenges of the medieval world **ROMANCE OF AN EMPRESS** K. *of an Empress* Kazimierz Waliszewski,1894 **Women of the Conquest Dynasties** Linda C. Johnson,2011-07-31 China s historical women warriors hailed from the northeast Manchuria during the Liao 907 1125 and Jin 1115 1234 dynasties Celebrated in the Liao History they were unprecedented They rode horseback astride were good at hunting and shooting and took part in military battles Several empresses and one famous bandit chief led armies against the enemy Song state *Women of the Conquest Dynasties* represents a groundbreaking effort to survey the customs and lives of these women from the Kitan and Jurchen tribes who maintained their native traditions of horsemanship militancy and sexual independence while excelling in writing poetry and prose and earning praise for their Buddhist piety and Confucian ethics Although much work has been devoted in the last few years to Chinese women of various periods this is the first volume to incorporate recent archaeological discoveries and information drawn from Liao and Jin paintings as well as literary sources and standard historical accounts *Conquest women* combined agency and assertiveness drawn from steppe traditions with selected aspects of Chinese culture such as ethics and literacy Empress Chengtian led Liao armies to victory against the Song successfully ran

the state for thirty years during her son's reign and enjoyed a lengthy and public liaison with her prime minister Empress Yingtian the wife of the Liao founder and his assistant in military affairs famously refused to comply with the steppe custom of following one's husband in death instead she cut off her right hand and placed it in the late emperor's coffin as a promise to join him later These confident and talented women were rarely submissive in matters of sexuality and spouse selection but they were subject to the restrictions of marriage and the levirate if widowed The women of the northeast stand in vivid contrast to their counterparts in the south where female identity was molded by a millennia of Confucian ethics and women were increasingly sequestered in the home and constrained by concepts of virtue Women of the Conquest Dynasties provides new insights into the history of steppe patterns of feminine behavior and will reveal new areas of comparative study     **A**

*Renaissance Utopias and the Problem of History* Marina Leslie, 1998 Marina Leslie draws on three important early modern utopian texts Thomas More's Utopia Francis Bacon's New Atlantis and Margaret Cavendish's Description of a New World Called the Blazing World as a means of exploring models for historical transformation and of addressing the relationship of literature and history in contemporary critical practice While the genre of utopian texts is a fertile terrain for historicist readings Leslie demonstrates that utopia provides unstable ground for charting out the relation of literary text to historical context In particular she examines the ways that both Marxist and new historicist critics have taken the literary utopia not simply as one form among many available for reading historically but as a privileged form or methodological paradigm Rather than approach utopia by mapping out a fixed set of formal features or by tracing the development of the

genre Leslie elaborates a history of utopia as critical practice Moreover by taking every reading of utopia to be as historically symptomatic as the literary production it assesses her book integrates readings of these three English Renaissance utopias with an analysis of the history and politics of reading utopia Throughout Leslie considers utopia as a fictional enactment of historical process and method In her view these early modern utopian constructions of history relate very closely to and impinge upon the narrative structures of history assumed by critical theory today
