Comfort, 2011-06-13 Locating a shared interest in the philosophy of art for art's sake in aestheticism and modernismo this study examines the changing role of art and artist during the turn of the century period offering a consideration of the multiple dichotomies of art and life aesthetics and economics production and consumption and center and periphery      José Carlos Mariátegui's Unfinished Revolution Melisa Moore, 2013-12-18 The years 1909 1930 the eleven year presidency of the businessman turned politician Augusto B Legu a mark a formative period of Peruvian modernity witnessing the continuity of a process of reconstruction and the development of an intellectual and cultural tradition after a humbling defeat during the War of the Pacific 1879 1883 But these years were also fraught with conflict generated by long standing divisions and new rivalries A postwar generation of intellectuals and artists led by Jos Carlos Mari tegui and galvanized by left wing thinking and an avant garde aesthetic sought representation in the fields of politics and the arts to realize the modernizing potentialities opened up by a Positivist oligarchy New political and artistic conceptions raised their awareness of the fractured sense of nationhood in Peru and the need for a new project of nation formation based on a common political and cultural consciousness Crucially this gave rise to divergent political and artistic positions and practices Mari tegui's Indigenist Marxist politics and Modernist inspired poetics through his influential journal *Amauta* were pivotal in revitalizing conciliating and channeling those of his cohorts and challengers Comprising six full length chapters a comprehensive introduction and conclusion this monograph is ambitious in scope and depth It provides fresh readings of key writings of Mari tegui one of Latin America's most important and revolutionary political cultural and aesthetic theorists through the lens of his poetics emphasizing the value of this approach for a fuller understanding of his

work's political meaning and impact. It does so through detailed analysis of the poetic expressive language employed in seminal political essays aimed at forging a new Marxist position in 1920s Peru. Furthermore, it offers powerful and original critiques of under-studied intellectuals of this time, especially Apristas, Futurists, Socialists, and Indigenists, including female writers and artists such as Magda Portal, ngela Ramos, and Julia Codesido, whose work he championed. These readings are fully contextualized in terms of detailed critical study of complex sociopolitical conditions and positions and biographical intellectual backgrounds of Mari tegui and his contemporaries. This monograph underscores the fundamental importance of Mari tegui in the development of political and artistic practices and projects that shaped a national shared yet also heterogeneous political culture and cultural tradition in Peru during and after his lifetime.

Dictionary of Mexican Literature Eladio Cortés, 1992-11-24. This volume features approximately 600 entries that represent the major writers, literary schools, and cultural movements in the history of Mexican literature. A collaborative effort by American, Mexican, and Hispanic scholars, the text contains bibliographical, biographical, and critical material, placing each work cited within its cultural and historical framework. Intended to enrich the English-speaking public's appreciation of the rich diversity of Mexican literature, works are selected on the basis of their contribution toward an understanding of this unique artistry. The dictionary contains entries keyed by author, and the length of each entry is determined by the relative significance of the writer or movement being discussed. Each biographical entry identifies the author's literary contribution by including facts about his or her life and works, a chronological list of works, a supplementary bibliography, and when appropriate, critical notes. Authors are listed alphabetically and cross-referenced both within the text and the index to facilitate easy access to information. Selected bibliographical entries are also listed alphabetically by author and include both the original title and English translation, publisher, date, and place of publication, and number of pages.

Post-Petrarchism Roland Greene, 2014-07-14. Post-Petrarchism offers a theoretical study of lyric poetry through one of its most long-lived and widely practiced models: the lyric sequence originated by Francis Petrarch in his *Canzoniere* of the late fourteenth century. A framework in which poems are suspended according to some organizing or unifying principle, the lyric sequence emerges from European humanist culture as a poetic discourse that represents personal experience and operates as a kind of fiction. Here Roland Greene proposes that since Petrarch, the lyric sequence has survived in European and American literatures, from Shakespeare's *Sonnets* to *The Waste Land* to Trilce, as a complex in which formal, generic, and cultural designs intersect and as an embodiment of lyric discourse at its most extensive, inclusive, and ambitious. Enabled by a theoretical introduction to the genre, at large, the book treats the founding and elaboration of the vernacular sequence in six major texts by Petrarch, Philip Sidney, Edward Taylor, Walt Whitman, W. B. Yeats, Pablo Neruda, and Martín Adán. Throughout, Greene shows how Petrarchism has evolved as lyric discourse through its exposure to such events as the Reformation and Puritanism, the settlement of the New World, and the various modernisms of Europe and the Americas.
