Kelley, 1895 Cruising Modernism Michael Trask, 2003 Modern Thompson, 1877 society Michael Trask argues in this incisive and original book chose to couch class difference in terms of illicit sexuality Trask demonstrates how sexual science s concept of erotic perversion mediated the writing of both literary figures and social theorists when it came to the innovative and unsettling social arrangements of the early twentieth century Trask focuses on the James brothers in a critique of pragmatism and anti immigrant sentiment shows the influence of behavioral psychology on Gertrude Stein's work uncovers a sustained reflection on casual labor in Hart Crane's lyric poetry and traces the

identification of working class Catholics with deviant passions in Willa Cather's fiction Finally Trask examines how literary leftists borrowed the antiprostitution rhetoric of Progressive era reformers to protest the ascendance of consumerism in the 1920s Viewing class as a restless and unstable category Trask contends American modernist writers appropriated sexology s concept of evasive unmoored desire to account for the seismic shift in social relations during the Progressive era and beyond Looking closely at the fraught ideological space between real and perceived class differences Cruising Modernism discloses there a pervasive representation of sexuality as well The Holy Roman Republic Giorgio Falco, 2025-05-08 Originally published in English in 1964 this book threw new light on the positive value and significance of the Middle Ages It discusses Constantine and the triumph of Christianity the clash between the German tribes and Roman civilization at the time of Stilicho and Alaric the confrontation between Germanic Arianism and Roman Catholicism St Benedict and the foundation of Western monasticism Charlemagne and the foundation of Europe Otto II and the feudal empire the expansion of the Christian world and the first Crusade the final bids for power and the final crisis of the medieval world The Institution of **Property** Charles Reinold Noyes, 2007 Reprint of the sole edition This is an important erudite and difficult book The author who is of the school of institutional economists has undertaken to analyze the structure only of that particular social organization and institution which is called property not merely in its legal aspects but also with respect to the underlying economic facts of the institution today Those who will make the effort requisite to an understanding of this book will be well repaid Sidney Post Simpson Harvard Law Review 49 1935 36 1211 16
