Eugenio Coseriu counts among the most important linguistic scholars of the second half of the 20th century He is known mainly as a structuralist and a Romance linguist but his work is in fact far more expansive in scope including a comprehensive linguistic theory as well as writings on a wide range of issues from semantics syntax typology variational linguistics language change pragmatics and text linguistics to Vulgar Latin the history of the philosophy of language and the history of Romance linguistics Coseriu s thought is founded on solid philosophical principles and his life brought him into

contact with a number of different academic traditions and cultures However for a variety of reasons among which the languages in which he tended to publish Spanish Italian French and German knowledge of his thought is rather marginal in the Anglo American world This book aims to go some way to addressing this situation by offering an overview in English of Coseriu s main contributions to linguistics and indeed to other disciplines It is of general interest for the study of linguistics the history of linguistics and the philosophy of language as well as for a broader reading public *French prosodics and phonotactics* Jürgen Klausenburger,2012-01-02 The book series Beihefte zur Zeitschrift für romanische Philologie founded by Gustav Gröber in 1905 is among the most renowned publications in Romance Studies It covers the entire field of Romance linguistics including the national languages as well as the lesser studied Romance languages The editors welcome submissions of high quality monographs and collected volumes on all areas of linguistic research on medieval literature and on textual criticism The publication languages of the series are French Spanish Portuguese Italian and Romanian as well as German and English Each collected volume should be as uniform as possible in its contents and in the choice of languages

Artful Immorality – Variants of Cynicism Daniel Scott Mayfield,2015-09-14 When a term is overused it tends to fall out of fashion Cynicism seems to be an exception Its polytropic versatility apparently prevents any discontinuation of its application Everyone knows that cynicism denotes that which is deemed deleterious at a given time and every time will specify its toxicities the apparent result being the term s non specificity This study describes the cynical stance and statement so as to render the term s use scholarly expedient Close readings of textual sources commonly deemed cynical provide a legible starting point A rhetorical analysis of aphorisms ascribed to the arch Cynic Diogenes facilitates describing the design of cynical statements as well as the characteristic features of the cynical stance These patterns are identifiable in later texts generally labeled cynical above all in Machiavelli s Principe With recourse to the Diogenical archetype cynicism is likewise rendered describable in Gracian s Oráculo manual Diderot s Le neveu de Rameau and Nietzsche s Posthumous Fragments This study s description of cynicism provides a phenomenon otherwise considered amorphous with distinct contours renders transparent its workings and tenders a dependable basis for further analyses **Manual of Galician Linguistics** Xulio

Eugenio Coseriu Klaas Willems, Cristinel Munteanu, 2021-09-07 The volume is published on the occasion of the birth centennial of Eugenio Coseriu 1921 2002 It is the first collective volume to appear in English in which various scholars present a variety of perspectives on Coseriu's scholarly work and discuss its continuing relevance for the language sciences Coseriu's international reputation has suffered from his commitment to publish in languages such as Spanish German French Italian Romanian and Portuguese to the detriment of English As a consequence his work is less well known outside Romance and German linguistics The volume aims to raise the general awareness of Coseriu's work among linguists around the world in accordance with Coseriu's own adage that it takes a constructive mindset acknowledging accomplishments and limitations to do justice to all scholarly work in the humanities The articles are organized into three major thematic clusters 1 philosophy of language 2 history of the language sciences and 3 theory and practice of Integral Linguistics The volume is essential reading for anyone working in these fields and for those seeking to gain deeper understanding of Coseriu's goal to develop a unitary approach to language which takes as its point of departure the activity of speaking

*The autos sacramentales of Sor Juana Inés de la Cruz* Alice Brooke, 2018-03-30 Sor Juana Inés de la Cruz 1651-1695 was the most significant literary figure of the colonial period in Spanish America The autos sacramentales or Eucharistic plays are some of her least studied and most perplexing works While one of them *El divino Narciso* has received substantial scholarly attention the other two *El cetro de Jos* and *El misterio del Sacramento San Hermenegildo* have been critically neglected in Sor Juana studies This study presents a full length analysis of all three plays along with their prologues or the introductory pieces alongside which they were intended to be performed Furthermore the study seeks to place these works in their philosophical and cultural context by exploring their engagement both with orthodox Catholic sacramental theology and the emergence of empiricism and the New Philosophy across the Hispanic world The three sections of this book each present significant new readings of the three plays The study of *El divino Narciso* employs a previously little known source to illuminate its Christological readings as well as Sor Juana s engagement with notions of wit and conceptism The analysis of *El cetro de Jos* explores her presentation of different approaches to perception to emphasise the importance of both the material and the transcendent to a holistic understanding of the Sacraments The final section on *San Hermenegildo* explores the influence on the play of the Christianised Stoicism of Justus Lipsius and demonstrates how Sor Juana used the work to attempt her most ambitious reconciliation of an empirical approach to natural philosophy and the material world with a Neostoic approach to Christian morality and orthodox Catholic sacramental theology
