Communications & Social Order Ppr Hugh Dalziel Duncan, In this highly influential study of art forms as models for a theory of communications Hugh Dalziel Duncan demonstrates that without understanding of the role of symbols in society social scientists cannot hope to develop adequate models for social analysis He reviews critically major contributions to communication theory during the past century Freud's analysis of dream symbolism Simmel's concept of sociability James' insights into religious experience and Dewey's relating of art to experience George Santayana (Ppr) , From the late nineteenth century to the middle of the twentieth George Santayana was a highly esteemed and widely read writer of philosophy poetry essays memoirs and even a best selling novel The Last Puritan After a period of relative neglect interest in his work has revived A complete edited edition of his works is in progress and he has become the object of renewed scholarly activity Contributing significantly to the renewal was John McCormick's 1987 biography the first full scale volume to treat an elusive figure's life and thought in the detail they deserve Santayana's life was rich in its interior and outer associations There was his birth and early childhood in Spain followed by a move to Boston where he came under the influence of William James at Harvard This led to his career at Harvard as a professor where Wallace Stevens Robert Frost Conrad Aiken Franklin D Roosevelt and Walter Lippmann were among his devoted students We see Santayana in correspondence and conversation with Bertrand Russell G E Moore Ezra Pound and Robert Lowell Predominant in Santayana's life was his philosophical work Hostile to the dominant empiricism of Anglo American philosophy he left the academy and remained detached from both the political and ideological movements of early decades of the twentieth century McCormick relates his skepticism and materialism to a form of idealism deriving from his classical education in Plato and Aristotle together with his readings in Descartes and Spinoza He presents Santayana as a supreme stylist in English who lived a long life always consistent with his stoic epicureanism John McCormick is professor emeritus of comparative literature at Rutgers University and an honorary fellow of English and other literatures at the University of York England He is the author of Seagoing Memoirs Bullfighting Art Technique and Spanish Society Fiction as Knowledge American and European Literary Imagination and Catastrophe and Imagination English and American Writings from 1870 to 1950 all published by Transaction Philosophy Science & Higher Education (Ppr) Mason Welch Gross, Mason W Gross the sixteenth president of Rutgers University was a unique man who left his imprint on the university During his presidency Rutgers expanded from a student body of 18 000 to 30 000 the budget grew from 18 million to 68 million an enormous construction program enhanced and enlarged the campuses at Newark New Brunswick and Camden and new professional schools were founded In effect Gross presided over the transformation of Rutgers from a private university rooted in the colonial past to one of the largest state universities in the post industrial present Yet Gross was a relaxed and much admired leader whose tenure spawned excellence in research coupled with civility in relations among students faculty and administrators The speeches of Mason W Gross are of more than ordinary interest

and merit for two reasons One is that he wrote them all himself Woodrow Wilson was the last president of the United States who had no speechwriter While this is less frequently characteristic of college presidents it is a growing phenomenon The second reason for the unique quality of his speeches is that Gross was essentially a teacher and student of philosophy He was only incidentally an administrator a title he disliked as being akin to bureaucrat The addresses selected for this volume were culled from some three hundred that were delivered between 1949 and 1971 The speeches were chosen to reflect diverse themes and occasions Their subjects range from ideas on education to thoughts about urban planning and the occasions from commencement addresses to appearances before national organizations Effortlessly urbane and civilized always gracious and courteous Mason W Gross was a teacher and philosopher a democrat and an aristocrat In his new introduction Irving Louis Horowitz traces the philosophical sources of Mason Gross thought as well as his practical implementation of those influences Richard P McCormick was professor of history at Rutgers University from 1948 to 1982 He is the author of *The Presidential Game The Origins of American Presidential Politics* and *The Second American Party System Party Formation in the Jacksonian Era* Richard Schlatter now deceased was professor of history at Rutgers University and served as provost of the university under Mason Gross Irving Louis Horowitz is Hannah Arendt Distinguished Professor Emeritus of Sociology and Political Science at Rutgers The State University of New Jersey and chairman and editorial director of Transaction Publishers His books include *Radicalism and the Revolt Against Reason* and *Taking Lives Genocide and State Power* **A**
