Romantic Genius and the Literary Magazine David Minden Higgins, 2005 Romantic Genius and the Literary Magazine David Higgins, 2007-05-07 In early nineteenth century Britain there was unprecedented interest in the subject of genius as well as in the personalities and private lives of creative artists. This was also a period in which literary magazines were powerful arbiters of taste helping to shape the ideological consciousness of their middle class readers Romantic Genius and the Literary Magazine considers how these magazines debated the nature of genius and how and why they constructed particular creative artists as geniuses Romantic writers often imagined genius to be a force that transcended the realms of politics and economics David Higgins however shows in this text that representations of genius played an important role in ideological and commercial conflicts within early nineteenth century literary culture Furthermore Romantic Genius and the Literary Magazine bridges the gap between Romantic and Victorian literary history by considering the ways in which Romanticism was understood and sometimes challenged by writers in the 1830s It not only discusses a wide range of canonical and non canonical authors but also examines the various structures in which these authors had to operate making it an interesting and important book for anyone working on Romantic literature Romanticism and Celebrity Culture, 1750-1850 Tom Mole, 2009-05-14 An interdisciplinary collection of essays exploring how our modern idea of celebrity was The British Aristocracy in Popular Culture Stefania Michelucci, Ian Duncan, Luisa created in the 18th and 19th centuries Villa, 2020-04-29 As traditional social hierarchies fall away ever steeper levels of economic inequality and the entrenchment of new class distinctions lend a new glamor to the idea of aristocracy witness the worldwide popularity of Downton Abbey or the seemingly insatiable public fascination with the private lives of the British royal family This collection of new essays investigates the enduring attraction to the icon of the aristocrat and the spectacle of aristocratic society It traces the ambivalent reactions the aristocracy provokes and the needs political ideological psychological and otherwise it caters to in modern times when the economic power of the landed classes have been eroded and their political role curtailed In this interdisciplinary collection aristocracy is considered from multiple viewpoints including British and American literature European history and politics cultural studies linguistics visual arts music and media studies Colonialism, Race, and the French Romantic Imagination Pratima Prasad, 2009-05-07 This book investigates how French Romanticism was shaped by and contributed to colonial discourses of race It studies the ways in which metropolitan Romantic novels that is novels by French authors such as Victor Hugo George Sand Bernardin de Saint Pierre Fran ois Ren de Chateaubriand Claire de Duras and Prosper M rim e comprehend and construct colonized peoples fashion French identity in the context of colonialism and record the encounter between Europeans and non Europeans While the primary texts that come under investigation in the book are novels close attention is paid to Romantic fiction s interdependence with naturalist treatises travel writing abolitionist texts and ethnographies Colonialism Race and the French Romantic Imagination is one of the first

books to carry out a sustained and comprehensive analysis of the French Romantic novel s racial imagination that encompasses several sites of colonial contact the Indian Ocean North America the Caribbean West Africa and France Its archival research and interdisciplinary approach shed new light on canonical texts and expose the reader to non canonical ones The book will be useful to students and academics involved with Romanticism colonial historians students and scholars of transatlantic studies and postcolonial studies as well as those interested in questions of race and colonialism in British Romanticism Peter Heymans, 2012-10-02 The scientific political and industrial revolutions of the Romantic period transformed the status of humans and redefined the concept of species This book examines literary representations of human and non human animality in British Romanticism The book's novel approach focuses on the role of aesthetic taste in the Romantic understanding of the animal Concentrating on the discourses of the sublime the beautiful and the ugly Heymans argues that the Romantics aesthetic views of animality influenced and were influenced by their moral scientific political and theological judgment The study reveals how feelings of environmental alienation and disgust played a positive moral role in animal rights poetry why ugliness presented such a major problem for Romantic period scientists and theologians and how in political writings the violent yet awe inspiring power of exotic species came to symbolize the beauty and terror of the French Revolution Linking the works of Wordsworth Blake Coleridge Byron the Shelleys Erasmus Darwin and William Paley to the theories of Immanuel Kant and Edmund Burke this book brings an original perspective to the fields of ecocriticism animal studies and literature and science studies The Oxford Handbook of Robert Burns Gerard Carruthers, 2024 Robert Burns 1759 96 was a producer of lyrical verse satirical poetry in English and Scots a song writer and song collector a writer of bawdry journals commonplace books and correspondence Sculpting his own image his untutored rusticity was a sincere persona as much as it was not entirely accurate Burns was an antiquarian national patriot pioneer of what today we would call folk culture and a man of the Enlightenment and Romanticism This handbook considers Burns s reception in his own time German Romanticism and Science Jocelyn and beyond extending to his iconic status as a world writer Holland, 2009-04-30 Situated at the intersection of literature and science Holland's study draws upon a diverse corpus of literary and scientific texts which testify to a cultural fascination with procreation around 1800 Through readings which range from Goethe's writing on metamorphosis to Novalis's aphorisms and novels and Ritter's Fragments from the Estate of a Young Physicist Holland proposes that each author contributes to a scientifically informed poetics of procreation Rather than subscribing to a single biological theory such as epigenesis or preformation these authors take their inspiration from a wide inventory of procreative motifs and imagery <u>Evolution and Victorian Musical Culture</u> Bennett Zon, 2017-10-12 Explores the musical background to Darwinism and the development of the relationship between science and the arts in Victorian Britain New Approaches to William Godwin Eliza O'Brien, Helen Stark, Beatrice Turner, 2021-03-29 This collection showcases work on William Godwin 1756 1836 foregrounding new critical approaches and uncovering new texts

promoting the popular reputations of authors Romantic Education in Nineteenth-Century American Literature Monika Elbert, Lesley Ginsberg, 2014-12-05 American publishing in the long nineteenth century was flooded with readers primers teaching training manuals children's literature and popular periodicals aimed at families These publications attest to an abiding faith in the power of pedagogy that has its roots in transatlantic Romantic conceptions of pedagogy and literacy The essays in this collection examine the on going influence of Romanticism in the long nineteenth century on American thinking about education as depicted in literary texts in historical accounts of classroom dynamics or in pedagogical treatises They also point out that though this influence was generally progressive the benefits of this social change did not reach many parts of American society This book is therefore an important reference for scholars of Romantic studies American studies historical pedagogy and education Romanticism and Visuality Sophie Thomas, 2007-12-12 This book investigates the productive crosscurrents between visual culture and literary texts in the Romantic period focusing on the construction and manipulation of the visual the impact of new visual media on the literary and historical imagination and on fragments and ruins as occupying the shifting border between the visible and the invisible It examines a broad selection of instances that reflect debates over how seeing should itself be viewed instances from Daguerre's Diorama to the staging of Coleridge's play Remorse to the figure of the Medusa in Shelley's poetry and at the Phantasmagoria in which the very act of seeing is represented or dramatized In reconsidering literary engagements with the expanding visual field this study argues that the popular culture of Regency Britain reflected not just emergent and highly capitalized forms of mass entertainment but also a lively interest in the aesthetic and conceptual dimensions of looking What is commonly thought to be the Romantic resistance to the visible gives way to a generative fascination with the visual and its imaginative even spectacular possibilities

Sympathy and the State in the Romantic Era Robert Mitchell,2013-10-31 Sympathy and the State in the Romantic Era explores a fascinating connection between two seemingly unrelated Romantic era discourses outlining the extent to which eighteenth and early nineteenth century theories of sympathy were generated by crises of state finance Through readings of authors such as David Hume Adam Smith William Wordsworth and P B Shelley this volume establishes the ways in which crises of state finance encouraged the development of theories of sympathy capable of accounting for both the fact of social systems as well as the modes of emotional communication by means of which such systems bound citizens to one another Employing a methodology that draws on the systems theory of Niklas Luhmann Michel Serres and Giovanni Arrighi as well as Gilles Deleuze's theories of time and affect this book argues that eighteenth and early nineteenth century philosophies of sympathy emerged as responses to financial crises Individual chapters focus on specific texts by David Hume Adam Smith Jean Jacques Rousseau Ann Yearsley William Wordsworth and P B Shelley but Mitchell also draws on periodicals pamphlets and parliamentary hearings to make the argument that Romantic era theories of sympathy developed new discourses about social systems intended both to explain as well as contain the often disruptive effects of state finance and

enmeshed in lively feuds with the major periodicals of the day the Edinburgh Review and the Quarterly Review Kim Wheatley focuses on feuds from the second and third decades of the nineteenth century suggesting that by this time the vituperative rhetoric of the Edinburgh and the Quarterly had developed into what Coleridge called a habit of malignity Attending to the formal strategies of the reviewers surprisingly creative prose she traces how her chosen feuds take on lives of their own branching off into other print media including the weekly press and monthly magazines Ultimately Wheatley shows these hostile exchanges incorporated literary genres and Romantic themes such as the idealized poetic self the power of the supernatural and the quest for the sublime By turning episodes of print warfare into stories of transfiguration the feuds thus unexpectedly contributed to the emergence of Romanticism
