Rome Constantinople Moscow Historical And Theological Studies:

Rome, Constantinople, Moscow John Meyendorff, 1996 In a time when relations between East and West have suffered numerous setbacks in the former Soviet Union in the former Yugoslavia and elsewhere Meyendorff calls upon theologians to remain ecumenical in their theology What is really at stake he affirms is not the preservation of cultural categories shaped in the distant past but the true catholicity of the Christian message for the world today

The Encyclopedia of Christianity Erwin Fahlbusch, Geoffrey William Bromiley, 1999 The Encyclopedia of Christianity is the first of a five volume English translation of the third revised edition of Evangelisches Kirchenlexikon Its German articles have been tailored to suit an English readership and articles of special interest to English readers have been added The encyclopedia describes Christianity through its 2000 year history within a global context taking into account other religions and philosophies A special feature is the statistical information dispersed throughout the articles on the continents and over 170 countries Social and cultural coverage is given to such issues as racism genocide and armaments while historical content shows the development of biblical and apostolic traditions This comprehensive work while scholarly is intended for a wide audience and will set the standard for reference works on Christianity Outstanding reference sources 2000 American Libraries May 2000 Comp by the Reference Sources Committee RUSA ALA

The Old Believers in Imperial Russia Peter T. De Simone, 2018-06-14 Two Romes have fallen The third stands And there will be no fourth So spoke Russian monk Hegumen Filofei of Pskov in 1510 proclaiming Muscovite Russia as heirs to the legacy of the Roman Empire following the collapse of the Byzantine Empire The so called Third Rome Doctrine spurred the creation of the Russian Orthodox Church although just a century later a further schism occurred with the Old Believers or Old Ritualists challenging Patriarch Nikon's liturgical and ritualistic reforms and laying their own claim to the mantle of Roman legacy While scholars have commonly painted the subsequent history of the Old Believers as one of survival in the face of persistent persecution at the hands of both tsarist and church authorities Peter De Simone here offers a more nuanced picture Based on research into extensive yet mostly unknown archival materials in Moscow he shows the Old Believers as versatile and opportunistic and demonstrates that they actively engaged with and even challenged the very notion of the spiritual and ideological place of Moscow in Imperial Russia Ranging in scope from Peter the Great to Lenin this book will be of use to all scholars of Russian and Orthodox Church history

principle of divine human unity Sophia manifest in both uncreated and created forms and constituting the very foundation of all that is Sophiology is a complex phenomenon with multiple sources and inspirations very much including the Church Fathers Indeed fidelity to patristic tradition was to become an ever increasing feature of its self understanding and self articulation above all in the work of its greatest exponent Fr Sergius Bulgakov 1871 1944 This unmodern turn as it is here christened to patristic sources has however long been fiercely contested This book is the first to evaluate thoroughly the nature and substance of Sophiology s claim to patristic continuity The final chapter offers a radical re thinking of Sophiology in line with patristic tradition This constructive proposal maintains Sophiology s most distinctive insights and most pertinent applications while divesting it of some its more problematic elements

Russian Orthodoxy and Secularism Kristina Stoeckl, 2020-07-20 Russian Orthodoxy and Secularism surveys the ways in which the Russian Orthodox Church has negotiated its relationship with the secular state with other religions and with Western modernity from its beginnings until the present It applies multiple theoretical perspectives and draws on different disciplinary approaches to explain the varied and at times contradictory facets of Russian Orthodoxy as a state church or as a critic of the state as a lived religion or as a civil religion controlled by the state as a source of dissidence during Communism or as a reservoir of anti Western anti modernist ideas that celebrate the uniqueness and superiority of the Russian nation Kristina Stoeckl argues that three decades after the fall of Communism the period of post Soviet transition is over for Russian Orthodoxy and that the Moscow Patriarchate has settled on its role as national church and provider of a new civil religion of traditional values

Inventing Modernity in Medieval European Thought, ca. 1100-ca. 1550 Cary J. Nedermann, Bettina Koch, 2019-01-14 One of the most challenging problems in the history of Western ideas stems from the emergence of Modernity out of the preceding period of the Latin Middle Ages This volume develops and extends the insights of the noted scholar Thomas M Izbicki into the so called medieval modern divide The contributors include a wide array of eminent international scholars from the fields of History Theology Philosophy and Political Science all of whom explore how medieval ideas framed and shaped the thought of later centuries This sometimes involved the evolution of intellectual principles associated with the definition and imposition of religious orthodoxy Also addressed is the Great Schism in the Roman Church that set into question the foundations of ecclesiology In the same era philosophical and theoretical innovations reexamined conventional beliefs about metaphysics epistemology and political life perhaps best encapsulated by the fifteenth century philosopher theologian and political theorist Nicholas of Cusa

The Orthodox Icon and Postmodern Art C.A. Tsakiridou, 2024-08-29 This study examines the theories of postmodern visuality and representation and identifies concepts that resonate with Orthodox theology and iconography C A Tsakiridou frees the Orthodox icon from iconological precepts that limit its aesthetic and expressive range The book s key argument is that poststructuralist thought is not alien to Orthodox theology and iconography Dissonance liminality and ambiguity are essential for conveying the paradoxes of Christian faith and recognizing the hagiopneumatic

vitality and openness of the Orthodox tradition Perichoresis or coinherence a concept in patristic theology that defines the relationship between the three persons of the Holy Trinity and the two natures of Christ acquires a feminine dimension in the person of the Theotokos Like the ascetical concept of nepsis it has aesthetic implications Intermedial qualities present in iconography photography and cinema help explain how icons become hosts to transcendent realities and how their experience in Orthodox liturgy and devotion has anticipated and resolved the postmodern disorientation of visuality and representation The book will be of interest to scholars working in art history postmodernism philosophy theology religion and gender studies *For Him Who Has Eyes to See* Edmund J. Rybarczyk, 2016-09-30 Too many Christians are afraid of beauty

This fear disconnects these Christians from their larger culture a culture that is increasingly visual increasingly aware of the presence and power of images and more commonly fascinated by the power of beauty and form This historical theological overview presents the thought of ten theologians and one philosopher in an attempt to give Christians helpful vocabulary concerning beauty and aesthetics It is time to use beauty and aesthetics for the mission of Christ And yet rather than simply parrot the larger post Christian culture Christians and churches need to employ beauty and aesthetics in a manner that echoes God's own revelation creation and redemption through Jesus Christ We need to develop a sensitivity that can perceive beauties ignored We need theological framing that both respects the glory of God's handiwork and keeps it from becoming idolatrous We need to live with wonder for the bounty that routinely surrounds us In short we need eyes to see **The**

Cambridge Companion to Orthodox Christian Theology Elizabeth Theokritoff, 2008-12-18 Orthodox Christian theology is often presented as the direct inheritor of the doctrine and tradition of the early Church But continuity with the past is only part of the truth it would be false to conclude that the eastern section of the Christian Church is in any way static Orthodoxy building on its patristic foundations has blossomed in the modern period This volume focuses on the way Orthodox theological tradition is understood and lived today It explores the Orthodox understanding of what theology is an expression of the Church's life of prayer both corporate and personal from which it can never be separated Besides discussing aspects of doctrine the book portrays the main figures themes and developments that have shaped Orthodox thought There is particular focus on the Russian and Greek traditions as well as the dynamic but less well known Antiochian tradition and the Orthodox presence in the West The Papacy and the Orthodox Anthony Edward Siecienski, 2017 The Papacy and the Orthodox

examines the centuries long debate over the primacy and authority of the Bishop of Rome especially in relation to the Christian East and offers a comprehensive history of the debate and its underlying theological issues Siecienski masterfully brings together all of the biblical patristic and historical material necessary to understand this longstanding debate This book is an invaluable resource as both Catholics and Orthodox continue to reexamine the sources and history of the debate
