Rome And Byzantium The Making Of The Past:

Rome and Byzantium Clive Foss, Paul Magdalino, 1977 *The Making of the West, Combined Volume* Lynn Hunt, 2012-01-04 Students of Western civilization need more than facts They need to understand the cross cultural global exchanges that shaped Western history to be able to draw connections between the social cultural political economic and intellectual happenings in a given era and to see the West not as a fixed region but a living evolving construct These needs have long been central to *The Making of the West* The book's chronological narrative emphasizes the wide variety of peoples and cultures that created Western civilization and places them together in a common context enabling students to witness the unfolding of Western history understand change over time and recognize fundamental relationships Read the preface

Roman Identity from the Arab Conquests to the Triumph of Orthodoxy Douglas Whalin, 2021-01-22 This book asks how the inhabitants and neighbours of the Eastern Roman Empire understand their identity as Romans in the centuries following the emergence of Islam as a world religion Its answers lie in exploring the nature of change and continuity of social structures self representation and boundaries as markers of belonging to the Roman group in the period from circa AD 650 to 850 Early medieval Romanness was integral to the Roman imperial project its local utility as an identifier was shaped by a given community's relationship with Constantinople the capital of the Roman state This volume argues that there was fundamental continuity of Roman identity from Late Antiquity through these centuries into later periods Many transformations which are ascribed to the Romans of this era have been subjectively assigned by outsiders separated by time or space and are not born out by the sources This finding dovetails with other recent historical works re evaluating the early medieval Eastern Roman polity and its ideology *The Making of Marx's Capital Volume 1* Roman Rosdolsky, 1992-01-01 A major work of interpretation and criticism written over fifteen years by one of the foremost representatives of the European Marxist tradition Rosdolsky investigates the relationship between various versions of Capital and explains the reasons for Marx's successive reworkings he provides a textual exegesis of Marx's Grundrisse now widely available and reveals its methodological riches He presents a critique of later work in the Marxist tradition on the basis of Marx's fundamental distinction between capital in general and capital in concrete reality *The Making of Marx's Capital* was first published in 1968 as *Zur Entstehungsgeschichte des Marx'schen Kapital* **The Making of the New Testament** Arthur G.

Patzia, 2025-11-04 The story of the making of the New Testament is one in which scrolls bumped across cobbled Roman roads and pitched through rolling Mediterranean seas finally finding their destinations in stuffy dimly lit Christian house churches in Corinth or Colossae There they were read aloud and reread handled and copied forwarded and collected studied and treasured And eventually they were brought together to make up our New Testament This revised and expanded edition of *The Making of the New Testament* is a textbook introduction to the origin collection copying and canonizing of the New Testament documents Like shrewd detectives reading subtle whispers of evidence biblical scholars have studied the trail of

clues and pieced together the story of these books Arthur Patzia tells the story answering our many questions How were books and documents produced in the first century What motivated the early Christians to commit teaching and narrative and vision to papyrus How were the stories and sayings of Jesus circulated handed down and shaped into Gospels What do we know about ancient letter writing secretaries and copy shops Why were four Gospels included instead of just one How were Paul's letters sent here and there gathered into a single collection Who decided and by what criteria which documents would be included in the New Testament Explore these questions and more about these Scriptures whose everyday gritty story rings true to their extraordinary message the palpable mystery of the Word made flesh

Judaism and Imperial Ideology in Late Antiquity Alexei Sivertsev, 2011-06-20 This book explores the influence of Roman imperialism on the development of messianic themes in Judaism in the fifth through the eighth centuries CE It pays special attention to the ways in which Roman imperial ideology and imperial eschatology influenced Jewish representations of the Messiah and messianic age Topics addressed in the book include representations of the Messianic kingdom of Israel as a successor to the Roman Empire the theme of imperial renewal in Jewish eschatology and its Roman parallels representations of the emperor in late antique literature and art and their influence on the representations of the Messiah the mother of the Messiah in late antique and Byzantine cultural contexts and the figure of the last Roman Emperor in Christian and Jewish tradition

The Last Trojan Hero Philip Hardie, 2014-03-30 The resonant opening lines of Virgil's Aeneid rank among the most famous and consistently recited verses to have been passed down to later ages by antiquity And after The Odyssey and the Iliad Virgil's masterpiece is arguably the greatest classical text in the whole of Western literature This sinuous and richly characterised epic vitally influenced the poetry of Dante Petrarch and Milton The doomed love of Dido and Aeneas inspired Purcell while for T S Eliot Virgil's poem was the classic of all Europe The poet's stirring tale of a refugee Trojan prince torn from Libyan waves to found a new homeland in Italy has provided much fertile material for writings on colonialism and for discourses of ethnic and national identity The Aeneid has even been viewed as a template and source of justification for British and European imperialisms and for American nation building In his major and much anticipated new book Philip Hardie explores the many remarkable afterlives ancient medieval and modern of the Aeneid in literature music politics the visual arts and film The Last Trojan Hero by one of Virgil's leading interpreters put continually fresh and surprising perspectives on one of the outstanding works of civilization Placing the Aeneid on a broad artistic and historical canvas it shows with elegance originality and creative insight how and in what ways this remarkably durable text continues so powerfully to capture the cultural imagination and why it still speaks to us over a gulf of centuries
