imaginative essays addresses interdisciplinary topics that range widely from Shakespeare to psychoanalysis to the practice of higher education today With the ease born of deep knowledge Marjorie Garber moves from comical journalistic quirks Fig Leaves to the curious return of myth and ritual in the theories of evolutionary psychologists Ovid Now and Then Two themes emerge consistently in Garber's latest exploration of symptoms of culture The first is that to predict the next big thing in literary studies we should look back at ideas and practices set aside by a previous generation of critics In the past several decades we have seen the reemergence of for example textual editing biography character criticism aesthetics and philology as hot new areas for critical intervention The second theme expands on this observation making the case for cultural forgetting as the way the arts and humanities renew themselves both within fields and across them Although she is never represented in traditional paintings or poetry a missing Muse we can call her Amnesia turns out to be a key figure for the creation of theory and criticism in the arts
