Spanish Golden Age Isabel Torres, 2013 Love poetry in the Spanish Golden Age redefines the lyric poetry that is located at the centre of Imperial Spanish culture's own self image and self definition This work engages with a broader evaluation of early modern poetics that foregrounds the processes rather than the products of thinking The locus of the study is the Imperial home space where love poetry meets early modern empire at the inception of a very conflicted national consciousness and where the vernacular language Castilian emerges in the encounter as a strategic site of national and imperial identity The political is therefore a pervasive presence teased out where relevant in recognition of the poet's sensitivity to the ideologies within which writing comes into being But the primary commitment of the book is to lyric poetry and to poets individually and in their dynamic interconnectedness Moving beyond a re-evaluation of critical responses to four major poets of the period Garcilaso de la Vega Herrera Góngora and Quevedo this study disengages respectfully with the substantial body of biographical research that continues to impact upon our understanding of the genre and renegotiates the Foucauldian concept of the epistemic break often associated with the anti-mimetic impulses of the Baroque This more flexible model accommodates the multiperspectivism that interrogated Imperial ideology even in the earliest sixteenth century poetry and allows for the exploration of new horizons in interpretation Isabel Torres is Professor of Spanish Golden Age Literature and Head of Spanish and Portuguese Studies at Queen's University Belfast

**The Influence of Italian Culture on the Sevillian Golden Age of Painting** Rafael Japón, 2022-03-20 This book explores the cultural exchange between Italy and Spain in the seventeenth century examining Spanish collectors' predilection for Italian painting and its influence on Spanish painters Focused on collecting and using a novel methodology this volume studies how the painters of the Sevillian school including Francisco Pacheco Diego Velázquez Alonso Cano and Bartolomé Esteban Murillo perceived and were influenced by Italian painting Through many examples it is shown how the presence in Andalusia of various works and copies of works by artists such as Michelangelo Caravaggio and Guido Reni inspired famous compositions by these Spanish artists In addition the book delves into the historical political and social context of this period The book will be of interest to scholars working in art history Renaissance studies and Italian and Spanish history

**Didactic Poetry of Greece, Rome and Beyond** Lilah Grace Canevaro, Donncha O'Rourke, 2019-12-01 Here a team of established scholars offers new perspectives on poetic texts of wisdom learning and teaching related to the great line of Greek and Latin poems descended from Hesiod In previous scholarship a drive to classify Greek and Latin didactic poetry has engaged with the near total absence in ancient literary criticism of explicit discussion of didactic as a discrete genre The present volume approaches didactic poetry from different perspectives the diachronic mapping the development of didactic through changing social and political landscapes from Homer and Hesiod to Neo-Latin didactic and the comparative setting the Graeco-Roman tradition against a wider backdrop including ancient near-eastern and contemporary African traditions The issues raised include knowledge in its relation to power the cognitive strategies of the didactic text ethics and poetics the interplay of obscurity and clarity playfulness and

solemnity the authority of the teacher      **Golden Verses** ,2003-07-03 An anthology containing fresh and rhythmic translations of the great poets from the Augustan period Golden Verses covers a broad range of verse with introduction maps chronology glossary bibliography and notes Alessi s text is designed specifically for the college market providing students with access to the thought and context at the roots of our culture Designed to be read in conjunction with major works of the Augustan Age Ovid s Metamorphosis and Vergil s Aeneid      *Politics and Divinization in Augustan Poetry* Bobby Xinyue,2022-06-02 Politics and Divinization in Augustan Poetry offers a new interpretation of one of the most prominent themes in Latin poetry the divinization of Augustus and argues that this theme functioned as a language of political science for the early Augustan poets as they tried to come to terms with Rome s transformation from Republic to Principate Examining an extensive body of texts ranging from Virgil s Eclogues to Horace s final book of the Odes covering a period roughly from 43 BC to 13 BC this study highlights the multifaceted metaphorical force of divinizing language as well as the cultural complications of divinization Through a series of close readings this book challenges the view that poetic images of Augustus divinization merely reflect the poets attitude towards Augustus or their recognition of his power and puts forward a new understanding of this motif as an evolving discourse through which the first generation of Augustan poets articulated interrogated and negotiated Rome s shift towards authoritarianism      Lands and Peoples in Roman Poetry Richard F. Thomas,2020-08-30 Fixed in diction and form the tradition of ethnographical prose extends from fifth century Greece through all of Latin literature Issues such as situation climate and fertility have a direct effect on the social and ethical status of a land s inhabitants and it is this uniformity of purpose that motivates the strictly formulaic nature of ethnographical texts In this volume Professor Thomas examines the influence of that tradition on the poetry of Virgil Horace and Lucan At their hands it emerges as a vehicle for the expression of attitudes not only towards civilized Italian society but also to landscapes and environments which are largely their own poetic creations and which are to be viewed in contrast to the world of Rome The work concludes with an examination of Tacitus place both in the acknowledged prose tradition and in the more allusive poetic tradition which this study has detected      **The Romantic Idea of the Golden Age in Friedrich Schlegel's Philosophy of History** Asko Nivala,2017-02-03 The nineteenth century Romantic understanding of history is often confused with the longing for the past Golden Age In this book the Golden Age is seen from a new angle by discussing it in the context of the works of Friedrich Schlegel who saw it not as bygone but to be produced in the future      **The Reception of Vergil in Renaissance Rome** Jeffrey A. Glodzik,2023-01-16 In this work Jeffrey Glodzik argues that Vergil played a central role in the prevailing discourse of Renaissance Rome Roman humanists associated with the papacy employed the language of Vergil to express a vision for Rome and its divinely ordained destiny Using the transformation methodology allelopoiesis he shows that in their neo Latin works Roman humanists focused on a Christian interpretation of the fourth eclogue to highlight an incipient Golden Age ignored pessimistic readings of the Aeneid to emphasize the glories of a renewed imperium and

encapsulated Vergil's words to celebrate papal Rome's unquestionable destiny. Ultimately Glodzik demonstrates that the interpretation and application of Vergil were not uniform throughout Europe. Vergil was instead shaped to fit the concerns of papal Rome. *Apocalypse and Golden Age* Christopher Star, 2021-12-07

How did the ancient Greeks and Romans envision the end of the world? What is the long term future of the human race? Will the world always remain as it is or will it undergo a catastrophic change? What role do the gods, human morality, and the forces of nature play in bringing about the end of the world? In *Apocalypse and Golden Age*, Christopher Star reveals the answers that Greek and Roman authors gave to these questions. The first large scale investigation of the various scenarios for the end of the world in classical texts, this book demonstrates that key thinkers often viewed their world as shaped by catastrophe. Star focuses on how this theme was explored over the centuries in the works of poets such as Hesiod, Vergil, Ovid, and Lucan, and by philosophers including the Presocratics, Plato, Epicurus, Lucretius, Cicero, and Seneca. With possibilities ranging from periodic terrestrial catastrophes to the total dissolution of the world, these scenarios address the ultimate limits that define human life and institutions and place humanity in the long perspective of cosmic and natural history. These texts also explore various options for the rebirth of society after world catastrophe, such as a return of the Golden Age or the redevelopment of culture and political institutions. Greek and Roman visions of the end, Star argues, are not calls to renounce this world and prepare for a future kingdom. Rather, they are set within larger investigations that examine and seek to improve personal and political life in the present. Contextualizing classical thought about the apocalypse with biblical studies, Star shows that the seeds of our contemporary anxieties about globalization, politics, and technology were sown during the Roman period. Even the prevalent link between an earthly leader and the beginning of the end times can be traced back to Greek and Roman rulers: the emperor Nero in particular. *Apocalypse and Golden Age* enriches our understanding of apocalyptic thought. Gender and Sexuality in Juvenal's Rome Chiara Sulprizio, 2020-02-27

The poet Juvenal is one of the most important ancient Roman authors, and his sixteen satires have left a strong mark on western literature. Despite his great influence, little is known about the poet's life beyond unreliable details gleaned from his poetry. Yet Juvenal's satires contain a wealth of information about the mentality of imperial era Romans. This volume offers a fresh and student-friendly translation of two of Juvenal's most provocative poems, Satire 2 and Satire 6. With their common focus on gender and sexuality, these two works are of particular interest to today's readers. Both Satire 2 and Satire 6 target effeminate men and wayward women as objects of ridicule, and they ruthlessly mock their behavior in an effort to expose deep-seated problems in Roman society. The longer of the two works, Juvenal's sixth satire, addresses a basic question: Why get married? In a tone of spite and ferocity, and with details that are disturbingly graphic, Satire 2 is a shorter but equally pointed tirade against effeminacy and passive homosexuality. Taken together, the poems compel readers to critique the discourse of gender stereotypes and misogyny. For students and scholars of gender and sexuality, these poems are crucial texts. Chiara Sulprizio's lively translation, perfectly suited for classroom use, captures the

vivid spirit of Juvenal's poems and her extensive notes enhance the volume's appeal by explicating the poems from a gendered perspective. An in-depth introduction by Sarah H. Blake places the satires within their broader literary, historical, and cultural context.
