What Our High Schools Could Be... Bob Davis,1990-01-01 This book relates the remarkably varied experiences of a man whose career reads like an index of progressive educational developments in late twentieth century Ontario Bob Davis has taught in a military academy in a treatment centre for disturbed children in an alternative community school in a university OISE and for 23 years in two Metro Toronto high schools He has co founded and edited This Magazine Is About Schools and Mudpie Growing Up in Ontario He led picket lines and co organized a successful six month occupation of a University of Toronto building Bob Davis maintains All means prove but a blunt instrument if they have not behind them a living spirit What Our High Schools Could Be shows how his career embodied that spirit An Our Schools Our Selves book Sufism and Zen in the West Saeko Yazaki,Michael Conway,2025-02-20 Historically and culturally Sufism and Zen may not seem to have anything in common However in the West their spiritual messages are often perceived as strikingly similar In this book scholars analyse the ways in which Sufism and Zen were introduced to and developed in the West The collection shows that the popularity of these religions arose not because of the substantive shared elements within the two traditions but because their promoters in the West employed similar strategies to respond to the interests of a modern Western audience The first book to make a close comparison of Sufism and Zen this study is an important contribution to understanding Western religious life and processes of easternisation It sheds new light on how Sufism and Zen came to represent a spirituality that is both countercultural and in touch with modern sensitivities **Understanding Interreligious Relations** David

Cheetham,Douglas Pratt,David Thomas,2013-11-21 The ways in which religious communities interact with one another is an increasing focus of scholarly research and teaching Issues of interreligious engagement inclusive of dialogue more specifically and relations more generally attract widespread interest and concern In a religiously pluralist world how different communities get along with each other is not just an academic question it is very much a focus of socio political and wider community attention The study of religions and religion in the 21st century world must necessarily take account of relations within and between religions whether this is approached from a theological historical political or any other disciplinary point of view Understanding Interreligious Relations is a reference work of relevance to students and scholars as well as of interest to a wider informed public It comprises two main parts The first provides expositions and critical discussions of the ways in which the other has been construed and addressed from within the major religious traditions The second presents analyses and discussions of key issues and topics in which interreligious relations are an integral constituent The editors have assembled an authoritative and scholarly work that discusses perspectives on the religious other and

interreligious relations that are typical of the major religious traditions together with substantial original chapters from a cross section of emerging and established scholars on main debates and issues in the wider field of interreligious relations
