## **Ronald Reagan A Remarkable Life:**

Ronald Reagan-A Remarkable Life J.H. Cardigan,2002      Ronald Reagan Jim H. Cardigan,1995 This book chronicles the life of Ronald Reagan from his humble beginnings to his success as a film star to his ascent to the presidency and his current retirement Photos      *Ronald Reagan* Michael Benson,2003-09-01 A biography of the fortieth president who served from 1981to1989      Cradles of Power Harold I. Gullan,2016-10-04 Why have there been so many books about first ladies and so few about the mothers and fathers of our presidents Many of us for better or worse are shaped by our early life Heads of state are no exception In this compact and compelling narrative of truly popular history Gullan offers insights into the early influences that helped shape our presidents shedding light into a much neglected corner of history How many presidential parents were also their son s best friends How many were an inspiration a source of support a model to emulate How many were just the opposite In Cradles of Power readers will learn the stories of first parents from Augustine and Mary Washington to Barack Obama Sr and Ann Dunham including The heroic Elizabeth Jackson who literally saved her son s life The beloved senior Theodore Roosevelt who seemingly founded and funded every worthwhile charity in New York The handsome and unpredictable Jack Reagan whose drunken blackout one winter night became a pivotal moment for the young Ronald The pious Mother McKinley who wanted her William to become a Methodist bishop The vibrant Rose Fitzgerald Kennedy whose personal tragedies never stopped her from showing unflagging support for her sons campaigns and the domineering Joseph P Kennedy who himself aspired to be our first Catholic president Gullan s reader friendly vignettes are sure to fascinate and entertain but they will also elucidate the formative forces and motivations in the lives of the most powerful men in the nation Skyhorse Publishing along with our Arcade Good Books Sports Publishing and Yucca imprints is proud to publish a broad range of biographies autobiographies and memoirs Our list includes biographies on well known historical figures like Benjamin Franklin Nelson Mandela and Alexander Graham Bell as well as villains from history such as Heinrich Himmler John Wayne Gacy and O J Simpson We have also published survivor stories of World War II memoirs about overcoming adversity first hand tales of adventure and much more While not every title we publish becomes a New York Times bestseller or a national bestseller we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home      Enemies of the State D. J. Mulloy,2020-02-29 The rise of the alt right alongside Donald Trump s candidacy may be seem unprecedented events in the history of the United States but D J Mulloy shows us that the radical right has been a long and active part of American politics during the twentieth century From the German American Bund to the modern militia movement D J Mulloy provides a guide for anyone interested in examining the roots of the radical right in the U S in all its many varied forms going back to the days of the Great Depression the New Deal and the extraordinary political achievements of Franklin D Roosevelt Enemies of the State offers an informative and highly readable introduction to some of the key developments and events of recent American history including the fear of the

Communist subversion of American society in the aftermath of the Second World War the rise of the civil rights movement and the white backlash this elicited the apparent decline of liberalism and the ascendancy of conservatism during the economic malaise of the 1970s Ronald Reagan's triumphant presidential victory in 1980 and the Great Recession of 2007-08 and subsequent election of President Obama      **An Abridged History of the United States Volume III** Bob Navarro,

**Faith of Our Mothers** Harold I. Gullan, 2001 A collection of essays in which the author examines what is known about the mothers of the forty-three American presidents from Mary Washington to Barbara Bush and discusses their nearly unanimous common qualities of faith both in their sons and in God      **Significant Actions by the Presidents: 1774-2017** Bob Navarro, 2019-03-20 From 1774 to the present presidential actions have altered the history of America Many of these acts are significant as they have determined the path on which the United States is on      *The Raising of a President* Doug Wead, 2005 B T Local 01 23 2010 26 00      *Ronald Reagan* James H. Broussard, 2014-08-27 Few politicians in recent American history are as well known as Ronald Reagan the 40th U S president An iconic leader Reagan shifted the direction of American politics toward a newly vigorous conservatism Though he began his career as a New Deal liberal by the end of the 1950s Reagan had embraced conservative views His presidency saw the longest peacetime prosperity in American history as well as the fall of the Berlin Wall and the end of the Cold War but also skyrocketing deficits and the Iran Contra scandal In the twenty-first century Reagan's legacy is both pervasive and contested with supporters and detractors often divided along partisan lines Yet Reagan's own actions did not always fit into partisan boxes In a clear-eyed and insightful narrative James H Broussard cuts through the mythology of both sides to produce a nuanced portrait of Reagan in his historical context Supported by primary sources and a robust companion website this concise biography is an ideal introduction to this fascinating president and the issues that shaped America in the late 20th century Routledge Historical Americans is a series of short vibrant biographies that illuminate the lives of Americans who have had an impact on the world Each book includes a short overview of the person's life and puts that person into historical context through essential primary documents written both by the subjects and about them A series website supports the books containing extra images and documents links to further research and where possible multi-media sources on the subjects Perfect for including in any course on American History the books in the Routledge Historical Americans series show the impact everyday people can have on the course of history      Memorial Services in the Congress of the United States and Tributes in Eulogy of Ronald Reagan, Late a President of the United States, 2005 Contains texts of memorial tributes to the late President Ronald Reagan that were delivered in the Congress and the Senate Also includes information about President Reagan's funeral and memorial services held in Washington and California Focuses on the life character and public service of President Reagan      *Reagan and the World* Bradley Lynn Coleman, Kyle Longley, 2017-06-23 Throughout his presidency Ronald Reagan sought peace through strength during an era of historic change In the decades since pundits and scholars have argued over the president's legacy

some consider Reagan a charismatic and consummate leader who renewed American strength and defeated communism To others he was an ambitious and dangerous warmonger whose presidency was plagued with mismanagement misconduct and foreign policy failures The recent declassification of Reagan administration records and the availability of new Soviet documents has created an opportunity for more nuanced complex and compelling analyses of this pivotal period in international affairs In *Reagan and the World* leading scholars and national security professionals offer fresh interpretations of the fortieth president's influence on American foreign policy This collection addresses Reagan's management of the US national security establishment as well as the influence of Secretary of Defense Caspar Weinberger and others in the administration and Congress The contributors present in depth explorations of US Soviet relations and American policy toward Asia Latin America Europe and the Middle East This balanced and sophisticated examination reveals the complexity of Reagan's foreign policy clarifies the importance of other international actors of the period and provides new perspectives on the final decade of the Cold War

*The Faith of Ronald Reagan* Mary Beth Brown, 2011-01-18 With warmth and insight Brown delves into the spiritual journey of America's 40th president and offers profound stories of God's providence in Ronald Reagan's life from first making it as an actor to winning the presidency from surviving an assassination attempt to eventually changing the face of world politics

**The American Presidents** Tracy Irons-Georges, 2000 The 42 essays are arranged chronologically by administration An Alphabetical List at the beginning of each volume helps readers find a particular entry Essays range from 6 to 40 pages and each includes a sidebar on the vice president and one on the First

**Who Owns Democracy?** Charles Derber, Yale R. Magrass, 2024-08-07 This book uniquely reverses today s MAGA conspiratorial concept of the deep state to reveal how a very real deeper state is evident throughout history back to the founding of American democracy Class and caste based elites and their political allies have held dominant power in the US Large corporations Wall Street and other sectors of the capitalist class outsource day to day governance to the mainstream political parties which can compete vigorously and create a credible veneer of civil liberties and electoral democracy disguising and legitimating the deep state But it is a shallow democracy since the deep state sets boundaries on policies and choices to serve itself It also denies a universal franchise and obstructs the voting rights of people of color the poor and other communities threatening to the deep state Moreover the deep state constrains civic governance in the workplace and community denying virtually all working people democratic control over their economic and social life Shallow democracy has a long history Two embryonic deep states a Northern capitalist deep state and a Southern slave based deep state came together in a tense and unstable union to create and govern the US While the Confederate deep state which we call proto American fascism was defeated in the Civil War it left a deep imprint on the culture and politics of millions of Americans and has resurged again in Trumpism The shallow democracy of the capitalist deep state has survived previous challenges but it lacks the deep roots that guarantees its survival The authors point to prospects for meaningful change arising from the extreme economic chasm dividing the nation economically and racially and from existential crises of the survival of democracy and of a sustainable planet They discuss strategy that might finally move the nation beyond MAGA toward deep democracy
