**Ronald Reagan, the Movie and Other Episodes in Political Demonology** Michael Paul Rogin, 1987 The fear of the subversive has governed American politics from the racial conflicts of the early republic to the Hollywood anti Communism of Ronald Reagan Political monsters the Indian cannibal the black rapist the demon rum the bomb throwing anarchist the many tentacled Communist conspiracy the agents of international terrorism are familiar figures in the dream life that so often dominates American political consciousness What are the meanings and sources of these demons Why does the American political imagination conjure them up Michael Rogin answers these questions by examining the American countersubversive tradition Ronald Reagan, the movie and other episodes in political demonology Michael Paul Rogin, 1988 Screen Saviors Hernan Vera, Andrew Gordon, 2003 Screen Saviors studies how the self of whites is imagined in Hollywood movies by white directors featuring white protagonists interacting with people of another color This collaboration by a sociologist and a film critic using the new perspective of critical white studies offers a bold and sweeping critique of almost a century's worth of American film from Birth of Nation 1915 through Black Hawk Down 2001 Screen Saviors studies the way in which the social relations that we call race are fictionalized and pictured in the movies It argues that films are part of broader projects that lead us to ignore or deny the nature of the racial divide in which Americans live Even as the images of racial and ethnic minorities change across the twentieth century Hollywood keeps portraying the ideal white American self as good looking powerful brave cordial kind firm and generous a natural born leader worthy of the loyalty of those of another color The book invites readers to conduct their own analyses of films by showing how this can be done in over 50 Hollywood movies Among these are some films about the Civil War Birth of a Nation Gone with the Wind and Glory some about white messiahs who rescue people of another color Stargate To Kill a Mockingbird Mississippi Burning Three Kings and The Matrix the three versions of Mutiny on the Bounty 1935 1962 and 1984 and interracial romance Guess Who's Coming to Dinner Forty years of Hollywood fantasies of interracial harmony from The Defiant Ones and In the Heat of the Night through the Lethal Weapon series and Men in Black are examined This work in the sociology of knowledge and cultural studies relates the movies of Hollywood to the large political agendas on race relation in the United States Screen Saviors appeals to the general reader interested in the movies or in race and ethnicity as well as to students of com *Reimagining the Promised Land* Rodney Wallis, 2020-09-17 While Israel has seemingly been a minor presence in Hollywood cinema Reimagining the Promised Land argues that there is a long history of Hollywood deploying images of Israel as a means of articulating an idealized notion of American national identity This argument is developed through readings of The Ten Commandments Cecil B DeMille 1956 Ben Hur A Tale of the Christ William Wyler 1959 Exodus Otto Preminger 1960 Cast a Giant Shadow Melville Shavelson 1966 Black Sunday John Frankenheimer 1977 The Delta Force Menahem Golan 1986 and Munich Steven Spielberg 2005 The mobilization of Israel that pervades this eclectic group of films effectively demonstrates one of the more surreptitious ways in

which Hollywood has historically constructed and circulated dominant notions of American national identity Moreover in examining the most notable Hollywood representations of the Jewish state the book offers an informed historical overview of the cultural forces that have contributed to popular understandings within the United States of the state of Israel Israel s Arab neighbours and also the Arab Israeli conflict      **Race and America's Immigrant Press** Robert M. Zecker, 2011-06-30

Race was all over the immigrant newspaper week after week As early as the 1890s the papers of the largest Slovak fraternal societies covered lynchings in the South While somewhat sympathetic these articles nevertheless enabled immigrants to distance themselves from the blackness of victims and became part of a strategy of asserting newcomers tentative claims to whiteness Southern and eastern European immigrants began to think of themselves as white people They asserted their place in the U S and demanded the right to be regarded as Caucasians with all the privileges that accompanied this designation Circa 1900 eastern Europeans were slightly dismissed as Asiatic or African but there has been insufficient attention paid to the ways immigrants themselves began the process of race tutoring through their own institutions Immigrant newspapers offered a stunning array of lynching accounts poems and cartoons mocking blacks and paeans to America s imperial adventures in the Caribbean and Asia Immigrants themselves had a far greater role to play in their own racial identity formation than has so far been acknowledged      Reader's Guide to American History Peter J.

Parish, 2013-06-17 There are so many books on so many aspects of the history of the United States offering such a wide variety of interpretations that students teachers scholars and librarians often need help and advice on how to find what they want The Reader s Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography Each of the 600 entries on topics in political social and economic history describes and evaluates some 6 to 12 books on the topic providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs The entries are devoted to events and individuals as well as broader themes and are written by a team of well over 200 contributors all scholars of American history      **Presidents, Diplomats, and Other Mortals** Robert H. Ferrell, 2007 From Abraham Lincoln s stance on international slavery to George W Bush s incursions on the world stage American presidents and other leaders have taken decisive actions to shape our country s foreign policy This new collection of essays provides analytical narratives of how and why policies were devised and implemented that would determine the place of the United States in the international arena from the 1860s to the present Showing what individuals do or choose not to do is central to understanding diplomacy in peace and war These writings by such prominent historians as Terry H Anderson and Eugene P Trani examine presidents and other diplomats at their best and worst in the practice of statecraft They take on issues ranging from America s economic expansion abroad to the relations of democracies with authoritarian leaders and rogue nations to advocacy of such concepts as internationalism unilateralism nation building and regime change In so doing they take readers on a virtual tour of American diplomatic history tracing the

ideas and actions of individuals in shaping our foreign policy whether George F Kennan as author of Soviet containment or Ronald Reagan as progenitor of Star Wars The essays range over a variety of scenarios to depict leaders coming to grips with real world situations They offer original views on such topics as American diplomacy toward Nicaragua origins of U S attitudes toward Russia and the Soviet Union FDR s idiosyncratic approach to statecraft and food diplomacy as practiced by LBJ and Richard Nixon And in considering post Cold War crises they address Bill Clinton s military interventions George W Bush s war against Iraq and the half century background to the current nuclear standoff with Iran Additional articles pay tribute to the outstanding career of Robert H Ferrell as a scholar and teacher Throughout the volume the authors seek to exemplify the scholarly standards of narrative diplomatic history espoused by Robert Ferrell especially the notion that historians should attempt to explain fully the circumstances opportunities and pressures that influence foreign policy decisions while remembering that historical actors cannot with certainty predict the outcomes of their actions Presidents Diplomats and Other Mortals is both a collection of compelling historical studies and an overarching case study of the role of individuals in foreign policy making and an insightful review of some of history s most important moments Taken together these essays provide a fitting tribute to Ferrell the trailblazing scholar in whose honor the book was written

Citizen Hollywood Timothy Stanley, 2014-05-13 To most Americans Hollywood activism consists of self obsessed movie stars promoting their pet causes whether defending marijuana legalization or Second Amendment rights There s some truth in that stereotype and in this book you ll find the close personal friends of Fidel Castro the wannabe cowboys and the ever ubiquitous Barbra Streisand But Citizen Hollywood makes a far more serious case that Hollywood s influence in Washington runs deeper and affects the country s government more than most of us imagine Celebrity activism exerts a subtle power over the American political process and that pressure is nothing new Through money networking and image making the movie industry has shaped the way that politics works for nearly a century It has helped to forge a culture that is obsessed with celebrity and spectacle In return politicians have become part of the fabric of Hollywood society and cater to the wishes of their new found friends and fund raisers Using original archival research and exclusive interviews with stars directors producers and politicians from both parties Timothy Stanley s Citizen Hollywood shows that the only way to understand the image obsessed volatile politics of modern America is to understand the hidden history of Hollywood s influence on Washington

**Fathering the Nation** Russ Castronovo, 2023-11-10 Russ Castronovo underscores the inherent contradictions between America s founding principles of freedom and the reality of slavery in a book that probes mid nineteenth century representations of the founding fathers He finds that rather than being coherent and consensual narratives of nationhood are inconsistent ambivalent and ironic He

examines competing expressions of national memory in a wide range of mid nineteenth century artifacts slave autobiography classic American fiction monumental architecture myths of the Revolution proslavery writing and landscape painting Castronovo theorizes a new American cultural studies which takes into consideration what Toni Morrison calls the Africanist presence that permeates American literature He presents a genealogy that recovers those members of the national family whose status challenges the body politic and its history The forgotten orphans in Melville's *Moby Dick* and Israel Potter the rebellious slaves in the work of Frederick Douglass and William Wells Brown the citizens afflicted with amnesia in Lincoln's speeches and the dispossessed sons in slave narratives all provide dissenting voices that provoke insurrectionary plots and counter memories Viewed here as a miscegenation of stories the narrative of America resists being told of an intelligible story of uncontested descent National identity rests not on rituals of consensus but on repressed legacies of parricide and rebellion This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1995

**A Kinder, Gentler America** Mary Caputi, 2005 In the Norman Rockwell paintings of the 1940s and 1950s wrote Newt Gingrich there was a clear sense of what it meant to be an American Gingrich's words underline what Mary Caputi sees as a desire of the neoconservative movement to set a foundation for modern America that ennobles the past Analyzing these competing uses of the past *A Kinder Gentler America* reveals how longing for the era of the greatest generation actually exposes a disillusionment with the present Caputi draws on the theoretical frameworks of Julia Kristeva and Walter Benjamin to look at how the decade has been portrayed in movies such as *Pleasantville* and *Far from Heaven* and delves further to investigate our disenchantment's lost origins in early modernity through a reading of the poetry of Baudelaire What emerges is a stark contrast between the depictions of a melancholic present and a cheerful shiny past In the right's invocation of the mythical 1950s and the left's criticism of the same Caputi recognizes a common unfulfilled desire and proposes that by understanding this loss both sides can begin to accept that American identity despite chaos and confusion lies in the here and now Mary Caputi is professor of political science at

California State University Long Beach and is author of *Voluptuous Yearnings A Feminist Theory of the Obscene* Private Lives/Public Consequences William Henry Chafe, 2009-06-30 A political leader's decisions can determine the fate of a nation but what determines how and why that leader makes certain choices William H Chafe a distinguished historian of twentieth century America examines eight of the most significant political leaders of the modern era in order to explore the relationship between their personal patterns of behavior and their political decision making process The result is a fascinating look at how personal lives and political fortunes have intersected to shape America over the past fifty years One might expect our leaders to be healthy wealthy genteel and happy In fact most of these individuals from Franklin Delano Roosevelt to Martin Luther King Jr from John F Kennedy to Bill Clinton came from dysfunctional families including three children of alcoholics half grew up in poor or only marginally secure homes most experienced discord in their marriages and at least two displayed signs of mental instability What links this extraordinarily diverse group is an intense ambition to succeed and the drive to overcome adversity Indeed adversity offered a vehicle to develop the personal attributes that would define their careers and shape the way they exercised power Chafe probes the influences that forged these men's lives and profiles the distinctive personalities that molded their exercise of power in times of danger and strife The history of the United States from the Depression into the new century cannot be understood without exploring the dynamic and critical relationship between personal history and political leadership that these eight life stories so poignantly reveal Michael Paul Rogin Alyson Cole, George Shulman, 2019-02-18 Michael Paul Rogin's scholarship profoundly altered the scope content and disposition of political theory He reconstituted the field by opening it to an array of texts performances and methods previously considered beyond the purview of the discipline His work addressed the relationship between dimensions of politics typically split apart institutional power and cultural forms material interests and symbolic meanings class projects and identity politics the public and the private Rogin's scholarship enlarges our sense of the borders and genres defining political theory as a field and enriches our capacity to think critically and creatively about the political The editors have focused on three categories of substantive innovation Demonology and Countersubversion Rogin used the concepts countersubversive tradition and political demonology to theorize how constitutive exclusions and charged images of otherness generated imagined national community He exposed not only the dynamics of suppressing and delegitimizing political opposition but also how politics itself is devalued and displaced The *Psychic Life of Liberal Society* Rogin addressed the essential contradiction in liberalism as both an ideology and a regime how a polity professing equality liberty and pluralist toleration engages in genocide slavery and imperial war Political Mediation Institutions and Culture Rogin demonstrated how cultural forms pervasive myths literary and cinematic works mediate political life and how political institutions mediate cultural energies and aspirations
