American/Medieval Goes North Gillian R. Overing, Ulrike Wiethaus, 2019-10-07 One of the great virtues of *American Medieval Goes North* is its wide range of contributors with fascinatingly diverse relationships to the main terms of analysis There are academic scholars poets filmmakers tribal elders teachers at various levels there are Indigenous people people from settler colonial cultures expats immigrants Their analytic and imaginative encounters with the North catch at the intensely symbolic and political charge of that locus At a time when Medieval Studies cannot afford to ignore the period's popular uptake cannot continue with business as usual in the face of white supremacists brazen appropriations of the Middle Ages this volume points to new possibilities for grappling with the uneasy relationships between the American and the medieval Prof Carolyn Dinshaw New York University

The Sharing Economy Sophie Berrebi, 2023-03-02 Three Women meets Crudo a frank and fresh literary debut about the dawn of dating apps in Amsterdam Sexual infidelity is unavoidable for whatever reasons in long monogamous relationships so why not give the other sexual freedom as a gesture of love of communication maybe Amsterdam in 2014 is an historic city situated at the heart of the future One of the biggest hubs for internet traffic in the world it has become a favourite testing ground for the new internet platforms that form the vanguard of what has been coined the sharing economy Gabrielle Bloom is a woman in her mid 40s working as an exhibition curator She is happily married to Anton and loves her son Victor They have a circle of sophisticated friends and enjoy the life of two successful and respectable professionals living in one of the world's most beautiful and culturally rich cities There is though one crucial difference between their relationship and those of their friends Gabrielle and Anton enjoy an open marriage When Gabrielle is introduced during a visit to a feminist art collective to a new dating app that has recently launched in the city fresh horizons open up With an almost unlimited number of potential partners suddenly available to her she quickly develops a taste for the thrill of a brief sexual encounter Moving from one

assignment to the next things at first seem exhilarating and uncomplicated But the human heart has not evolved at the same rate as the silicon chip and when attachments start to form things rapidly become less simple Set during one intense and transformative year and suffused with art sex and philosophy The Sharing Economy is at once a uniquely radical reappraisal of the way we view relationships and a tender and moving depiction of the many ways in which the human heart is capable of love
