Roots Of German Nationalism

Cristian Derosa

Roots Of German Nationalism:

Roots of German Nationalism Louis Leo Snyder,1978 From Bismarck to Hitler Dr. Louis L. Snyder,2017-02-07 It is a most unusual picture that meets our eyes varying in color from the black and white of ultra conservative traditional nationalism to the red of radicalism and the black and red of national socialism The Germany of 1862 1935 has known every array of nationalism from the Jacobin variety through humanitarian nationalism and passionate Hitlerite super nationalism It is our purpose to clarify this background to show on what foundation modern integral nationalism rests The task of selecting the most important elements from this distorted picture is an extremely difficult one but the attempt at least must be made

The Wars of German Unification 1864 - 1871 William Carr,Harry Hearder,2014-06-06 In his last book the late William Carr provides a masterly account of the origins and impact of the three major wars fought by Prussia in creating the Bismarckian Reich of 1871 He begins with a study of the development of nationalism and liberalism from the late eighteenth century to the 1860 s before turning to a detailed examination of the Schleswig Holstein Conflict of 1864 the Six Weeks War of 1866 and the Franco Prussia War of 1870 71 **A Short History of German Philosophy** Vittorio Hösle,2018-12-04 The story of German philosophy from the Middle Ages to today In an accessible narrative that explains complex ideas in clear language Vittorio Hösle traces the evolution of German philosophy and describes its central influence on other aspects of German culture including literature politics and science from the Middle Ages to today A Short History of German Philosophy addresses the philosophical changes brought about by Luther s Reformation and then presents a detailed account of German philosophy from Leibniz to Kant the rise of a new form of humanities and the German Idealists The following chapters investigate the collapse of the German synthesis in Schopenhauer Marx and Nietzsche Turning to the twentieth century the book explores the rise of analytical philosophy the foundation of the historical sciences Husserl s phenomenology and its radical alteration by Heidegger the Nazi philosophers Gehlen and Schmitt and the main West German philosophers after 1945 Arguing that there was a distinctive German philosophical tradition from the mid eighteenth century to the mid twentieth century the book closes by examining why that tradition largely ended in the recent past A philosophical history remarkable for its scope brevity and lucidity this is an invaluable book for students of philosophy and anyone interested in German intellectual and cultural history **Ethnic Minorities in 19th and 20th Century Germany** Panikos

Panayi,2014-06-11 This is the first book to trace the history of all ethnic minorities in Germany during the nineteenth and twentieth centuries It argues that all of the different types of states in Germany since 1800 have displayed some level of hostility towards ethnic minorities While this reached its peak under the Nazis the book suggests a continuity of intolerance towards ethnic minorities from 1800 that continued into the Federal Republic During this long period German states were home to three different types of ethnic minorities in the form of dispersed Jews and Gypsies localised minorities such as Serbs Poles and Danes and immigrants from the 1880s Taking a chronological approach that runs into the new Millennium

the author traces the history of all of these ethnic groups illustrating their relationship with the German government and with the rest of the German populace He demonstrates that Germany provides a perfect testing ground for examining how different forms of rule deal with minorities including monarchy liberal democracy fascism and communism **The Making of a Nation** Heidi Parry,1994 **The Russia's Black Sun: The Occult Roots of Eurasianism** Cristian

Derosa,2025-01-02 The world lives under the siege of two great beasts on the one hand globalism proponent of an apparently secular and worldly universal religion representing the demonic lie that disguises itself as pacifism human rights and tolerance to practice cultural genocide and domination tyrannical over life and death through the transhumanist monster of total control On the other side traditions emerge gathered under the umbrella of multipolarity led by Russian Eurasianism as a congregation of universal traditions against modern materialism This last current which is the object of this work hides in the form of an apparent opposition to globalist materialism a declaration of war on the West as a civilization considered by occultists of recent centuries as the civilization of the world Logos against which proposes chaos liberation a type of awakening and openness to knowledge as an alternative to the Enlightenment mentality of modernity For this reason it opposes modernity through both traditionalism and postmodernism Both currents globalist and traditionalist consider themselves bearers of light against darkness just like European revolutionaries in the past both in the form of Protestants and Freemasons seen by themselves as symbols of a metaphysical freedom that manifests itself in different ways While globalists propose political individual and hedonistic freedom Eurasians claim to be spiritual liberators of the lights of a new awakening of traditions **The Kingdom of Württemberg and the Making of Germany, 1815-1871** Bodie A.

Ashton,2017-01-12 CHOICE Outstanding Academic Title 2017 This book examines the 1871 unification of Germany through the prism of one of its forgotten states the Kingdom of W rttemberg It moves beyond the traditional argument for the importance of the great powers of Austria and Prussia in controlling German destiny at this time Bodie A Ashton champions the significance of W rttemberg and as a result all 38 German states in the unification process noting that each had their own institutions and traditions that proved vital to the eventual shape of German unity The Kingdom of W rttemberg and the Making of Germany 1815 1871 demonstrates that the state s government was dynamic and in full control of its own policy making throughout most of the 19th century with Ashton showing a keen appreciation for the state s domestic development during the period The book traces W rttemberg s strong involvement in the national question and how successive governments and monarchs in the state s capital of Stuttgart manoeuvred the country so as to gain the greatest advantage It successfully argues that the shape of German unification was not inevitable and was in fact driven largely by the desires of the Mittelstaaten rather than the great powers the eventual Reichsgr ndung of January 1871 was merely the final step in a long series of negotiations diplomatic manoeuvres and subterfuge with W rttemberg playing a vital regional role Making use of a wealth of primary sources including telegrams newspaper articles diary entries letters and government documents this is

a vitally important study for all scholars and students of 19th century Germany *Hitler's Germany* Roderick Stackelberg,2002-01-22 *Hitler's Germany* provides a comprehensive narrative history of Nazi Germany and sets it in the wider context of nineteenth and twentieth century German history Roderick Stackelberg analyzes how it was possible that a national culture of such creativity and achievement could generate such barbarism and destructiveness This second edition has been updated throughout to incorporate recent historical research and engage with current debates in the field It includes an expanded introduction focusing on the hazards of writing about Nazi Germany an extended analysis of fascism totalitarianism imperialism and ideology a broadened contextualisation of antisemitism discussion of the Holocaust including the euthanasia program and the role of eugenics new chapters on Nazi social and economic policies and the structure of government as well as on the role of culture the arts education and religion additional maps tables and a chronology a fully updated bibliography Exploring the controversies surrounding Nazism and its afterlife in historiography and historical memory *Hitler's Germany* provides students with an interpretive framework for understanding this extraordinary episode in German and European history *The Oxford Handbook of Modern German History* Helmut Walser Smith,2011-09-29 This is the first comprehensive multi author survey of German history that features cutting edge syntheses of major topics by an international team of leading scholars Emphasizing demographic economic and political history this Handbook places German history in a denser transnational context than any other general history of Germany It underscores the centrality of war to the unfolding of German history and shows how it dramatically affected the development of German nationalism and the structure of German politics It also reaches out to scholars and students beyond the field of history with detailed and cutting edge chapters on religious history and on literary history as well as to contemporary observers with reflections on Germany and the European Union and on multi cultural Germany Covering the period from around 1760 to the present this Handbook represents a remarkable achievement of synthesis based on current scholarship It constitutes the starting point for anyone trying to understand the complexities of German history as well as the state of scholarly reflection on Germany's dramatic often destructive integration into the community of modern nations As it brings this story to the present it also places the current post unification Federal Republic of Germany into a multifaceted historical context It will be an indispensable resource for scholars students and anyone interested in modern Germany **Journey into Europe** Akbar Ahmed,2018-02-27 An unprecedented richly detailed and clear eyed exploration of Islam in European history and civilization Tensions over Islam were escalating in Europe even before 9 11 Since then repeated episodes of terrorism together with the refugee crisis have dramatically increased the divide between the majority population and Muslim communities pushing the debate well beyond concerns over language and female dress Meanwhile the parallel rise of right wing nationalist political parties throughout the continent often espousing anti Muslim rhetoric has shaken the foundation of the European Union to its very core Many Europeans see Islam as an alien even barbaric force that threatens to overwhelm them and their societies

Muslims by contrast struggle to find a place in Europe in the face of increasing intolerance In tandem anti-Semitism and other forms of discrimination cause many on the continent to feel unwelcome in their European homes Akbar Ahmed an internationally renowned Islamic scholar traveled across Europe over the course of four years with his team of researchers and interviewed Muslims and non-Muslims from all walks of life to investigate questions of Islam immigration and identity They spoke with some of Europe's most prominent figures including presidents and prime ministers archbishops chief rabbis grand muftis heads of right-wing parties and everyday Europeans from a variety of backgrounds Their findings reveal a story of the place of Islam in European history and civilization that is more interwoven and complex than the reader might imagine while exposing both the misunderstandings and the opportunities for Europe and its Muslim communities to improve their relationship Along with an analysis of what has gone wrong and why this urgent study the fourth in a quartet examining relations between the West and the Muslim world features recommendations for promoting integration and pluralism in the twenty-first century

German History Hans Kohn, 2019-06-28 Originally published in 1954 this book presents the view of nine liberal German historians in reconsideration of the dominant concepts of German political and cultural history in the immediate post-war years They review critically not only the rise and rule of National Socialism but also the strength of authoritarianism and militarism the weakness of democracy and liberal attitudes in 19th Century Germany The essays were published in German periodicals and pamphlets between 1945 and 1952 and collected in this volume and translated into English they represent a survey of one of the most important intellectual movements of reconsideration and of political and moral readjustment after World War II

The Oxford History of Modern German Theology, Volume 1: 1781-1848

Grant Kaplan, Kevin M. Vander Schel, 2023 Oxford History of Modern German Theology Vol I 1781-1848 offers a multi-author overview of the development of modern German theology from 1781 to 1848 Across 36 chapters Kaplan and Vander Schel underline important movements in German theology during this period and highlight unresolved questions which have shaped subsequent discussion

Fascism Brian E. Fogarty, 2009 When the Nazis took power in 1933 most Germans did not foresee the oncoming storm Many were wildly enthusiastic some were alarmed most were worried but trusted that things would work out In short they felt much as Americans have felt from time to time Brian E. Fogarty's *Fascism: Why Not Here?* draws parallels between German culture of the early twentieth century and American culture today While Fogarty postulates that it would take a confluence of events and circumstances to propel Americans into the arms of fascism he concludes that it is not entirely unlikely Today less than a decade after his original warning some of those events are beginning to unfold As Americans become more divided as formerly nonpartisan institutions are politicized and as Congress becomes increasingly paralyzed we are forced to ask how do we respond to a political outsider's rally cries to make America great again In examining the similarities and differences between Nazi Germany and America today Fogarty finds many reasons for hope that Americans will not fall victim to such chauvinistic appeal but he also finds plenty to worry about He points out that

contemporary Americans and Germans of the 1920s and 1930s share many similar values ideals fears and beliefs Fogarty s strong words of caution will resonate with anyone concerned about America s political future and the freedoms we too often take for granted

Homelands Nadav G. Shelef,2020-07-15 Why are some territorial partitions accepted as the appropriate borders of a nation s homeland whereas in other places conflict continues despite or even because of division of territory In Homelands Nadav G Shelef develops a theory of what homelands are that acknowledges both their importance in domestic and international politics and their change over time These changes he argues driven by domestic political competition and help explain the variation in whether partitions resolve conflict Homelands also provides systematic comparable data about the homeland status of lost territory over time that allow it to bridge the persistent gap between constructivist theories of nationalism and positivist empirical analyses of international relations

A History of Fascism, 1914-1945 Stanley G. Payne,1996-01-01 A History of Fascism is an invaluable sourcebook offering a rare combination of detailed information and thoughtful analysis It is a masterpiece of comparative history for the comparisons enhance our understanding of each part of the whole The term fascist used so freely these days as a pejorative epithet that has nearly lost its meaning is precisely defined carefully applied and skillfully explained The analysis effectively restores the dimension of evil Susan Zuccotti *The Nation* A magisterial wholly accessible engaging study Payne defines fascism as a form of ultranationalism espousing a myth of national rebirth and marked by extreme elitism mobilization of the masses exaltation of hierarchy and subordination oppression of women and an embrace of violence and war as virtues Publishers Weekly

The Ideological Roots of German National Socialism Eric H. Vieler,1999 The research reveals linkages among three dominant strains of racist thought mythological intellectual its roots in ancient saga proclaimed the Nordic as the ideal race and urged its regeneration biological based on Darwinian theory became the scientific basis for the claim of German superiority and was the dominant influence on Hitler nationalist conservative called for a strong state to be governed by a single individual

Origins of Legislative Sovereignty and the Legislative State: Modern origins, developments, and perspectives against the background of "Machiavellism": bk 1. Pre-modern "Machiavellism" ; bk. 2. Modern major "isms" (17th-18th centuries) ; bk. 3. Modern major "isms" (19th-20th centuries) A. London Fell,1999

Theatre History Studies 2016, Vol. 35 Sara Freeman,2016-12-06

Rosemarie K Bank and Michal Kobialka eds *Theatre Performance Historiography Time Space Matter* Reviewed by Danny Devlin

1989 and the West Eleni Braat,Pepijn Corduwener,2019-07-15 Back in 1989 many anticipated that the end of the Cold War would usher in the end of history characterized by the victory of democracy and capitalism At the thirtieth anniversary of this momentous event this book challenges this assumption It studies the most recent era of contemporary European history in order to analyse the impact consequences and legacy of the end of the Cold War for Western Europe Bringing together leading scholars on the topic the volume answers the question of how the end of the Cold War has affected Western Europe and reveals how it accelerated and reinforced processes that shaped the fragile geo political and economic

order of the continent today In four thematic sections the book analyses the changing position of Germany in Europe studies the transformation of neoliberal capitalism answers the question how Western Europe faced the geopolitical challenges after the Berlin Wall came down and investigates the crisis of representative democracy As such the book provides a comprehensive and novel historical perspective on Europe since the late 1980s
