These contrasting studies of twenty prominent socialists major thinkers and important activists or agitators illuminate particular problems in the historical evolution of socialism The book s final chapter offers a substantial analysis of developments in the post war period and an exploration of the crises facing contemporary world socialism in all its guises Altered States Sune Haugbolle, Mark LeVine, 2022-08-22 Building on Timothy Mitchell's seminal 1991 exploration of the Limits of the State this book brings together contributions on the state in the Arab world from the past and present in an edited volume Altered States views the state less as a matter of people and institutions and more as sets of practices regimes of truth and capabilities of power and the effects they have on those under their control Through analysing case studies including Tunisia Syria Lebanon Egypt Palestine UAE Rojova and the Islamic State the concept of the state is applied and questioned This book examines the roots of policies that led to the uprisings focusing on how the authoritarian bargain which helped define Arab politics broke down

I. Lenin, 2008-09-20 Part of Pluto s 21st birthday series capitalist totalitarianism Get Political which brings essential political writing in a range of fields to a new audience This is an entirely new collection of Lenin's writing For the first time it brings together crucial shorter works to show that Lenin held a life long commitment to freedom and democracy Le Blanc has written a comprehensive introduction which gives an accessible overview of Lenin's life and work and explains his relevance to political thought today Lenin has been much maligned in the mainstream accused of viewing man as modeling clay and of social engineering of the most radical kind However in contrast to today s world leaders who happily turn to violence to achieve their objectives Lenin believed it impossible to reach his goals by any other path than that of political democracy This collection will be of immense value to students encountering Lenin for the first time and those looking for a new interpretation of one of the 20th century s most inspiring figures The Living Flame Paul Le Blanc, 2020-02-04 A collection of essays illuminating the historic Polish philosopher economist and activist s tremendous contributions to revolutionary struggle Rosa Luxemburg brilliant early twentieth century German revolutionary comes alive in a rich set of essays on her life ideas and lasting influence The essays deal not only with her remarkable contributions to political social and economic theory but also touch on her vibrant personality and intimate friendships This collection the fruit of more than four decades of involvement with Luxemburg's work simultaneously showcases her penetratingly intellectual political and deeply humanistic qualities An indispensable contribution to our understanding of Rosa Luxemburg

who emerges as formidable theorist principled activist and above all a fully realized human being The Living Flame affirms Luxemburg's lasting contribution and underscores the relevance of her legacy for our own very different age Helen Scott author The Storm of History Shakespeare's Tempest and Capitalism A profound and multidimensional investigation of a giant thinker and revolutionary These essays show meticulous historical and theoretical attentiveness and at the same time are hugely timely a significant contribution to Rosa Luxemburg studies and Marxist theory and history Dana Mills author Rosa Luxemburg Critical Lives Uncommonly nuanced probing and also deeply principled explorations Le Blanc s mode of engagement nicely compliments that of Rosa Luxemburg and shows us her thoughts as a living and breathing work in progress not merely echoes from an increasingly distant past In addition Le Blanc models how Marxists and Leftists in general might want to relate to one another when we debate complex issues and at times disagree Axel Fair Schulz associate professor at SUNY Potsdam **The Revolution of 1917** Vladimir Il'ich Lenin,1929 Women's Liberation and the **Dialectics of Revolution** Raya Dunayevskaya,1996 This collection of 35 years of Dunayevskaya's writings based on active participation interviews and meetings develops the dialectics of revolution which emerges from masses in motion including not only women and men but the forces of labour youth the black dimension and women s liberation **Revolution** Murray Bookchin, 2005-06-08 This major four volume project is a comprehensive account of the great revolutions that swept over Europe and America during the past three centuries Throughout the emphasis is on the popular movements that propelled the great revolutions to radical peaks the little known leaders who spoke for the people and the liberatory social forse to which the revolutions gave rise The four volumes of The Third Revolution form a dramatic ensemble that encompasses the hopes and social conflicts of past eras as well as prospects for the coming century This final volume focuses on the revolutions that took place in Germany and Spain in the early 1900s **Left Americana** Paul Le Blanc, 2017-03-27 From the Marxist tinged anarchism of the Haymarket martyrs to the Occupy Wall Street movement these essays give a vibrant sense of the central role of the Left in social movements and struggles of the past and present and highlights some of the amazing individuals whose unstoppable energies generated remarkable transformations Left Americana considers both the limitations and successes of Christian socialists Communists Maoists Trotskyists and the New Left activists of the sixties and seventies in creating profound social and political change Paul Le Blanc is a professor of History at La Roche College and author of Choice Award winning book A Freedom Budget for All Americans Karl Marx's Life, Ideas, and Influences Shaibal Gupta, Marcello Musto, Babak Amini, 2019-09-28 Since the latest crisis of capitalism broke out in 2008 Marx has been back in fashion and sometimes it seems that his ideas have never been as topical or as commanding of respect and interest as they are today This edited collection arises from one of the largest international conferences dedicated to the bicentenary of Marx s birth The volume contains 16 chapters authored by globally renowned scholars and is divided into two parts I On the Critique of Politics II On the Critique of Political Economy These contributions from multiple academic disciplines offer

diverse perspectives on why Marx is still so relevant for our times and make this book a source of great appeal for both expert scholars of Marx as well as students and general readers who are approaching his theories for the first time The **Cuban Revolution and Its Leadership** Doug Lorimer, 2000 **Crises of the Sentence** Jan Mieszkowski, 2019-04-02 There are few forms in which so much authority has been invested with so little reflection as the sentence Though a fundamental unit of discourse it has rarely been an explicit object of inquiry often taking a back seat to concepts such as the word trope line or stanza To understand what is at stake in thinking or not thinking about the sentence Jan Mieszkowski looks at the difficulties confronting nineteenth and twentieth century authors when they try to explain what a sentence is and what it can do From Romantic debates about the power of the stand alone sentence to the realist obsession with precision and revision to modernist experiments with ungovernable forms Mieszkowski explores the hidden allegiances behind our ever changing stylistic ideals By showing how an investment in superior writing has always been an ethical and a political as well as an aesthetic commitment Crises of the Sentence offers a new perspective on our love hate relationship with this fundamental The Theory of Revolution in the Young Marx Michael Lowy, 2020-11-09 This book proposes a compositional category Marxist analysis of young Marx s intellectual evolution from left neo Hegelianism to his new philosophy of praxis It distinguishes itself from most other books on the early Marx by its object the theory of proletarian revolutionary self emancipation and its method to understand the movement of Marx s political and philosophical ideas in relation to the most radical currents in the labour movement of his time beginning with Chartism and the uprising of the Silesian weavers in 1844 The central theoretical argument of the author is that Marx s philosophy of praxis first formulated in the Thesis on Feuerbach is at the same time the founding stone of a new world view and the methodological basis for the theory of revolutionary self emancipation For the paperback version of this title please go to http www cbsd com detail aspx Inventory 17323

Literature of Revolution Norman Geras, 2017-09-19 This influential collection explores the pivotal texts and topics in the Marxist tradition Ranging over questions of social theory political theory moral philosophy and literary criticism it looks at the thought of Marx and Trotsky Luxemburg Lenin and Althusser They include Geras s influential and widely cited treatment of fetishism in Capital his comprehensive review of recent debates on Marxism and justice discussions on political organisation revolutionary mass action and party pluralism and a novel analysis of the literary power of Trotsky s writing In close dialogue with common themes and arguments in the literature of revolutionary Marxism Geras brings some of his persistent preoccupations to the fore with the normative foundations and some of the epistemological assumptions of this tradition with issues of socialist democracy working class self education and emancipation Blood of Revolution Erik Durschmied, 2013-04-20 In this fascinating book the author of The Hinge Factor and The Weather Factor surveys revolutions across the centuries vividly portraying the people and events that brought wrenching often enduring and always bloody change to countries and societies almost overnight Durschmied begins with the French Revolution and goes on to examine

the revolutions of Mexico in 1910 Russia in 1917 and Japan in 1945 as well as the failed putsch against Hitler in 1944 His account of the Cuban Revolution is peppered with personal anecdotes for he was the first foreign correspondent to meet Castro when the future leader was still in the Sierra Maestra He concludes with the Iranian Revolution that ousted the Shah in 1979 another that he personally covered and in a new preface extends his analysis to the Arab Spring Each revolution Durschmied contends has its own dynamic and memorable cast of characters but all too often the end result is the same mayhem betrayal glory and death Unlike the American Revolution which is the counterexample few revolutions are spared the harsh reality that most devour their own children Durschmied is a supremely gifted reporter who has transformed the media he works in Newsweek A light and lively narrative that serves as a useful introduction for the general reader Library Journal
