Lebow,2013-06-12 *Unfinished Utopia* is a social and cultural history of Nowa Huta dubbed Poland s first socialist city by Communist propaganda of the 1950s Work began on the new town located on the banks of the Vistula River just a few miles from the historic city of Krak w in 1949 By contrast to its older neighbor Nowa Huta was intended to model a new kind of socialist modernity and to be peopled with new men themselves both the builders and the beneficiaries of this project of socialist construction Nowa Huta was the largest and politically most significant of the socialist cities built in East

Central Europe after World War II home to the massive Lenin Steelworks it epitomized the Stalinist program of forced industrialization that opened the cities to rural migrants and sought fundamentally to transform the structures of Polish society Focusing on Nowa Huta's construction and steel workers youth brigade volunteers housewives activists and architects Katherine Lebow explores their various encounters with the ideology and practice of Stalinist mobilization by seeking out their voices in memoirs oral history interviews and archival records juxtaposing these against both the official and unofficial transcripts of Stalinism Far from the gray and regimented landscape we imagine Stalinism to have been the fledgling city was a colorful and anarchic place where the formerly disenfranchised peasants youth women hastened to assert their leading role in building socialism but rarely in ways that authorities had anticipated Catalog of Foreign Books & Microfilms in the Possession of the Library of the Faculty of Economics, the University of Tokyo Tōkyō Daigaku. Keizai Gakubu, 1962

Why Marx Was Wrong Lawrence Eubank, 2011-11-02 The subject of this book is the negative assault on democratic capitalism embodied in Capital A Critique of Political Economy Marx's great work devoted to delineating the crimes and inequities of capitalist societies and market economies The book is a systematic step by step analysis of Marx's logic It is a deconstruction of the arguments and deductions by which he reaches his main conclusion that capitalism is corrupt in its essential nature and that capitalists gain wealth not by any legitimate means but by appropriating unpaid labor or surplus value from the working masses Despite the disappearance of the Soviet bloc and the waning of Communist zealotry that is still a widely believed doctrine Marx's accusation against capitalism and the course of argumentation by which he arrives at it together form the subject of the present volume

Diary 1954 Leopold Tyrmand, 2014-03-31 Leopold Tyrmand a Polish Jew who survived World War II by working in Germany under a false identity would go on to live and write under Poland's Communist regime for twenty years before emigrating to the West where he continued to express his deeply felt anti Communist views Diary 1954 written after the independent weekly paper that employed him was closed for refusing to mourn Stalin's death is an account of daily life in Communist Poland Like Czesław Miłosz Václav Havel and other dissidents who described the absurdities of Soviet backed regimes Tyrmand exposes the lies big and small that the regimes employed to stay in power Witty and insightful Tyrmand's diary is the chronicle of a man who uses seemingly minor modes of resistance as a provocative journalist a Warsaw intellectual the spiritual father of Polish hipsters and a promoter of jazz in Poland to maintain his freedom of thought

Unequivocal Americanism Macel D. Ezell, 1977 Imagining the West in Eastern Europe and the Soviet Union Gyorgy Peteri, 2010-11-28 This volume presents work from an international group of writers who explore conceptualizations of what defined East and West in Eastern Europe imperial Russia and the Soviet Union The contributors analyze the effects of transnational interactions on ideology politics and cultural production They reveal that the roots of an East West cultural divide were present many years prior to the rise of socialism and the Cold War The chapters offer insights into the complex stages of adoption and rejection of Western ideals in areas such as architecture travel writings

film music health care consumer products political propaganda and human rights They describe a process of mental mapping whereby individuals captured and possessed Western identity through cultural encounters and developed their own interpretations from these experiences Despite these imaginaries political and intellectual elites devised responses of resistance defiance and counterattack to defy Western impositions Socialists believed that their cultural forms and collectivist strategies offered morally and materially better lives for the masses and the true path to a modern society Their sentiments toward the West however fluctuated between superiority and inferiority But in material terms Western products industry and technology became the ever present yardstick by which progress was measured The contributors conclude that the commodification of the necessities of modern life and the rise of consumerism in the twentieth century made it impossible for communist states to meet the demands of their citizens The West eventually won the battle of supply and demand and thus the battle for cultural influence □□□□□□□□ ,1974 *Wealth & Poverty* Robert G.
