Saint John West Its Neighbors:

Saint John West and Its Neighbours David Goss, Fred Miller, 1995-08-01 This fascinating collection of photographs brings to life the dramatic and colourful history of Saint John West and its neighbours Over two hundred images show how this area developed during the last century as the fishing shipping and rail centre of Saint John how it saw its business and residential districts gutted how it struggled to rebuild itself and grow again only to suffer a disastrous fire revive a second time and then slide slowly into decline during the latter decades of this century Together David Goss and Fred Miller guide us through the city's vibrant past the events industries places and people which have defined Saint John West over the decades Photographs show the arrival of the railway the flood of new immigrants the development of the harbour and the growth of the shipping industry We see how significantly working conditions have changed over the decades for fishermen foundry workers and other local people We see how much the local landscape has changed with pictures of buildings both familiar and long gone and bustling streets such as King Street Protection Street and Union Street complete with drugstores chowder houses saloons and other local landmarks no longer with us The images capture catastrophes such as the Waterfront Fire of 1931 and celebrations such as parades and festivals Most of all they preserve and honour the lives of the ordinary people of Saint John West streetcar drivers firemen harbour workers fishermen store owners tipplers schoolchildren and foundry workers amongst many others We see how buildings technology fashions and lifestyles have changed while a sense of community and a zest for life among local residents has remained constant over the decades

Saint John West and Its Neighbors David Goss, Fred Miller, 1995 **Route 87, Guadalupe Freeway Improvements, San Jose**, 1975 *Avignon and Its Papacy, 1309-1417* Joëlle Rollo-Koster, 2015-08-20 With the arrival of Clement V in 1309 seven popes ruled the Western Church from Avignon until 1378 Joëlle Rollo Koster traces the compelling story of the transplanted papacy in Avignon the city the popes transformed into their capital Through an engaging blend of political and social history she argues that we should think more positively about the Avignon papacy with its effective governance intellectual creativity and dynamism It is a remarkable tale of an institution growing and defending its prerogatives of people both high and low who produced and served its needs and of the city they built together As the author reconsiders the Avignon papacy 1309 1378 and the Great Western Schism 1378 1417 within the social setting of late medieval Avignon she also recovers the city's urban texture the stamp of its streets the noise of its crowds and celebrations and its people's joys and pains Each chapter focuses on the popes their rules the crises they faced and their administration but also on the history of the city considering the recent historiography to link the life of the administration with that of the city and its people The story of Avignon and its inhabitants is crucial for our understanding of the institutional history of the papacy in the later Middle Ages The author argues that the Avignon papacy and the Schism encouraged fundamental institutional changes in the governance of early modern Europe effective centralization linked to fiscal policy efficient bureaucratic governance court society *société de cour* and conciliarism This

fascinating history of a misunderstood era will bring to life what it was like to live in the fourteenth century capital of Christianity

Perhaps the most important architect ever to have worked in America Peter Harrison s renown suffers from the destruction of most of his papers when he died in 1775 He was born in Yorkshire England in 1716 and trained to be an architect as a teenager He also became a ship captain and soon sailed to ports in America where he began designing some of the most iconic buildings of the continent In a clandestine operation he procured the plans for the French Canadian fortress of Louisbourg enabling Massachusetts Governor William Shirley to capture it in 1745 This setback forced the French to halt their operation to capture all of British America and to give up British territory they had captured in India As a result he was rewarded with commissions to design important buildings in Britain and in nearly all British colonies around the world and he became the first person ever to have designed buildings on six continents He designed mostly in a neo Palladian style and invented a way of building wooden structures so as to look like carved stone wooden rustication He also designed some of America s most valuable furniture including inventing the coveted block front and introducing the bombe motif In America he lived in Newport Rhode Island and in New Haven Connecticut where he died at the beginning of the War of Independence
