Shuddering Dawn Religious Studies The Nuclear Age A:

A Shuddering Dawn Ira Chernus, Edward Tabor Linenthal, 1989-01-01 Exploring the symbolic meanings of the Bomb this book excavates the depth dimension of the nuclear age Rather than adding to the many ethical commentaries asking whether or not there should be nuclear weapons the authors ask why there are nuclear weapons and a continuing arms race They also address the kinds of symbolic changes that must occur in order to reverse the build up of nuclear weapons The authors approach these questions from the perspective of academic research not from particular faith commitments asking the reader to envision different human responses to this technology human stances that can be illuminated by the creative insight of religious studies

Nuclear Madness Ira Chernus, 1991-01-01 This book builds on Robert Jay Lifton's theory of psychic numbing and takes madness as a guiding metaphor It shows that public perceptions of the Bomb are a kaleidoscope of ever changing ideas and images Recent changes in public awareness only signal new symptoms of this public madness symptoms unwittingly fostered by the antinuclear movement Since the newest nuclear images follow the same psychological pattern as their predecessors they are likely to lead us deeper into nuclear madness Chernus offers new interpretations of four major theorists in the psychology of religion Paul Tillich R D Laing Mircea Eliade and James Hillman to trace the roots of nuclear madness back to the onset of modernity when the West gained technological mastery at the price of losing religious imagination and ontological security The author develops an interpretation of Lifton's own thought as an ontological and religious psychology Drawing on the work of Eliade and Hillman he goes on to suggest that madness reflects a repressed desire to transform life by opening up the floodgates of imagination A conscious cultivation of the play of imagination can lead the way through madness to sanity and peace But imagination can only respond to the nuclear threat if it is acted out in a new brand of peace activism that blends pragmatic politics with psychological and religious transformation

Living with the Bomb: American and Japanese Cultural Conflicts in the Nuclear Age Laura E. Hein, Mark Selden, 2015-02-18 The development and use of the atomic bombs at Hiroshima and Nagasaki number among the formative national experiences for both Japanese and Americans as well as for 20th century Japan US relations This volume explores the way in which the bomb has shaped the self image of both peoples

behind the creation of sacred space in America The essays in this volume visit places in America where economic political and social forces clash over the sacred and the profane from wilderness areas in the American West to the Mall in Washington D C and they investigate visions of America as sacred space at home and abroad Here are the beginnings of a new American religious history told as the story of the contested spaces it has inhabited The contributors are David Chidester Matthew Glass Edward T Linenthal Colleen McDannell Robert S Michaelsen Rowland A Sherrill and Bron Taylor

Clear and Definite Words Ronald G. Goetz,2010-01-01 Clear and Definite Words is a lucid exposure of the present confusion within theological discourse It charges and proves that avoiding or equivocating on the question of ontology is impossible It thus undermines the premise of much theological discourse today and lays the way for greater theological clarity and commitment This book goes head to head with great forcefulness and passion against anyone and anything that has served to impede the right of theology to speak with clear and definite words *Pilgrimage through a Burning World* Ken Butigan,2012-02-01 For two decades the Nevada Desert Experience has organized nonviolent action at the Nevada Test Site as part of the global movement to end nuclear testing Pilgrimage through a Burning World illuminates how the Franciscan based group has crafted a contemporary desert spirituality that integrates religious ritual and political action to grapple with the challenges of an institutionalized and internalized nuclear world Ken Butigan shows how the annual pilgrimage to the test site has contributed to the personal transformation of people on both sides of the fence at the test site and to the worldwide emergence of the Comprehensive Test Ban Treaty Orthodox Christianity and Gender Helena Kupari,Elina Vuola,2019-10-17 The Orthodox Christian tradition has all too often been sidelined in conversations around contemporary religion Despite being distinct from Protestantism and Catholicism in both theology and practice it remains an underused setting for academic inquiry into current lived religious practice This collection therefore seeks to redress this imbalance by investigating modern manifestations of Orthodox Christianity through an explicitly gender sensitive gaze By addressing attitudes to gender in this context it fills major gaps in the literature on both religion and gender Starting with the traditional teachings and discourses around gender in the Orthodox Church the book moves on to demonstrate the diversity of responses to those narratives that can be found among Orthodox populations in Europe and North America Using case studies from several countries with both large and small Orthodox populations contributors use an interdisciplinary approach to address how gender and religion interact in contexts such as iconography conversion social activism and ecumenical relations among others From Greece and Russia to Finland and the USA this volume sheds new light on the myriad ways in which gender is manifested performed and engaged within contemporary Orthodoxy Furthermore it also demonstrates that employing the analytical lens of gender enables new insights into Orthodox Christianity as a lived tradition It will therefore be of great interest to scholars of both Religious Studies and Gender Studies **Freeze!** Henry Richard Maar III,2022-01-15 In Freeze Henry Richard Maar III chronicles the rise of the transformative and transnational Nuclear

Weapons Freeze Campaign Amid an escalating Cold War that pitted the nuclear arsenal of the United States against that of the Soviet Union the grassroots peace movement emerged sweeping the nation and uniting people around the world The solution for the arms race that the Campaign proposed a bilateral freeze on the building testing and deployment of nuclear weapons on the part of two superpowers of the US and the USSR That simple but powerful proposition stirred popular sentiment and provoked protest in the streets and on screen from New York City to London to Berlin Movie stars and scholars bishops and reverends governors and congress members and ultimately US President Reagan and General Secretary Gorbachev took a stand for or against the Freeze proposal With the Reagan administration so openly discussing the prospect of winnable and survivable nuclear warfare like never before the Freeze movement forcefully translated decades of private fears into public action Drawing upon extensive archival research in recently declassified materials Maar illuminates how the Freeze campaign demonstrated the power and importance of grassroots peace activism in all levels of society The Freeze movement played an instrumental role in shaping public opinion and American politics helping establish the conditions that would bring the Cold War to an end *The Atomic West* Bruce William Hevly, John M Findlay, 1998 The Manhattan Project transformed the entire country in myriad ways but it did not affect each region in the same way Atomic West tells the story of how the U S government acting on an enduring perception of the American West as an empty place located a disproportionate number of nuclear facilities in the western states especially the ones most likely to spread pollution Maps

Ideas of Social Order in the Ancient World Vilho Harle, 1998-03-25 Harle focuses on the perennial issue of social order by providing a comparative analysis of ideas on social order in the classical Chinese political philosophy the Indian epic and political literature Zoroastrianism Judaism the classical Greek and Roman political thought and early Christianity His analysis is based on the religious political and literary texts that represent their respective civilizations as both their major achievements and sources of shared values Harle maintains that two major approaches to establishing and maintaining social order exist in all levels and types of social relations moral principles and political power According to the principle oriented approaches social order will prevail if and when people follow strict moral principles According to the contending power oriented approach orderly relations can only be based on the application of power by the ruler over the ruled The principle oriented approaches introduce a comprehensive civil society of individuals the power oriented approaches give major roles to the city state its government and relationships between them The question of morality can be recognized also within the power oriented approaches which either submit politics to morality or maintain that politics must be taken as nothing else than politics This book is a contribution to peace and international studies as well as political theory and international relations

Guru English Srinivas Aravamudan, 2011-06-27 Guru English is a bold reconceptualization of the scope and meaning of cosmopolitanism examining the language of South Asian religiosity as it has flourished both inside and outside of its original context for the past two hundred years The book surveys a specific set of religious vocabularies from South Asia that Aravamudan argues launches a different kind of cosmopolitanism into global use Using Guru English as a tagline for the globalizing idiom that has grown up around these religions Aravamudan traces the diffusion and transformation of South Asian religious discourses as they shuttled between East and West through English language use The book demonstrates that cosmopolitanism is not just a secular Western discourse that results from a disenchantment with religion but something that can also be refashioned from South Asian religion when these materials are put into dialogue with contemporary social move ments and literary texts Aravamudan looks at religious forms of neoclassicism nationalism Romanticism postmodernism and nuclear millenarianism bringing together figures such as Swami Vivekananda Sri Aurobindo Mahatma Gandhi and Deepak Chopra with Rudyard Kipling James Joyce Robert Oppenheimer and Salman Rushdie Guru English analyzes writers and gurus literary texts and religious movements and the political uses of
