Language loss, often termed 'language death', refers to the phenomenon when a language loses its last native speaker, thereby becoming extinct. However, this process often occurs gradually, with languages first becoming endangered before completely dying out.

Losing Our Language:

Losing Our Language Sandra Stotsky, 2002 This book argues that it is the incorporation of a multicultural agenda into basal readers the primary tool for teaching reading in elementary schools that has stunted American children's ability to read. The book shows how basal readers have been systematically dumbed down in an effort to raise minority students' self-esteem. It contends that while elementary readers of the past featured excerpts from classic stories such as Arabian Nights and Robinson Crusoe with a complex vocabulary and sentence structure able to challenge the imagination and build reading skills, today's basal readers present students with politically and ethnically correct stories whose language is virtually foreign and unable to engage students. According to the book, drawing words from Swahili, Spanglish, and other trendy dialects to teach students with a shrinking English vocabulary is a symptom of this intellectual and cultural disorder. The book showcases interviews with teachers, gives an in-depth analysis of reading texts over the past 30 years, and talks about how pressure groups have affected educational publishers. It points out that literacy, cultural, and verbal skills give all students, but particularly those from poor or minority backgrounds, personal independence and achievement and the ability to participate fully in civic life. Each of the 11 chapters includes notes. NKA

Living Our Language Anton Treuer, 2001 A language carries a people's memories, whether they are recounted as individual reminiscences, as communal history, or as humorous tales. In *Living Our Language*, Anton Treuer has collected stories from ten Anishinaabe Ojibwe elders living on the Leech Lake, White Earth, Mille Lacs, Red Lake, and St. Croix Reservations, presenting their words here in the original Ojibwe with English translations on the facing page. Treuer introduces each elder, offering a brief biography and noting important details concerning dialect or themes; then he allows the stories to speak for themselves. Taken together, these stories offer the gift of a living language and the history of a people. Page 4 of printed paper wrapper

Bringing Our Languages Home Leanne Hinton, 2013-03-01 Thirteen personal accounts of endangered language preservation plus a how-to guide for parents looking to do the same in their own home. Throughout the world, individuals in the intimacy of their homes innovate, improvise, and struggle daily to pass on endangered languages to their children. Elaina Albers of Northern California holds a tape recorder up to her womb so her baby can hear old songs in Karuk. The Baldwin family of Montana put labels all over their house, marked with the Miami words for common objects and activities to keep the vocabulary present and fresh. In Massachusetts, at the birth of their first daughter, Jesse Little Doe Baird and her husband convince the obstetrician and nurses to remain silent so that the first words their baby hears in this world are Wampanoag. Thirteen autobiographical accounts of language revitalization, ranging from Irish Gaelic to Mohawk, Kawaiisu to Maori, are brought together by Leanne Hinton, professor emerita of linguistics at UC Berkeley, who for decades has been leading efforts to preserve the rich linguistic heritage of the world. Those seeking to save their language will find unique instruction in these pages; everyone who admires the human spirit will find abundant inspiration. Languages featured: Anishinaabemowin, Hawaiian, Irish, Karuk, Kawaiisu, Kypriaka, Maori, Miami, Mohawk, Scottish

Billson and Kyra Mancini explore global issues the impact of rapid social change and Canadian resettlement policy on Inuit culture women s roles in society and gender relations in Baffin Island in the Eastern Arctic They also include an extensive section on how the newly created territory of Nunavut is impacting the lives of Inuit women and their families Working from a research approach grounded in feminist theory the authors involve their Inuit interviewees as full participants in the process This book stands alone in its attention to Inuit women s issues and lives and should be read by everyone interested in gender relations development modernization globalization and Inuit culture **Alaska Native Languages Preservation and Enhancement Act of 1991** United States. Restructuring Relations Rauna Kuokkanen,2019-03-01 Adopted in 2007 the UN Declaration on the Rights of Indigenous Peoples establishes self determination including free prior and informed consent as a foundational right and principle Self determination both individual and collective is among the most important and pressing issues for Indigenous women worldwide Yet Indigenous women s interests have been overlooked in the formulation of Indigenous self government and existing studies of Indigenous self government largely ignore issues of gender As such the current literature on Indigenous governance conceals patriarchal structures and power that create barriers for women to resources and participation in Indigenous societies Drawing on Indigenous and feminist political and legal theory as well as extensive participant interviews in Canada Greenland and Scandinavia this book argues that the current rights discourse and focus on Indigenous state relations is too limited in scope to convey the full meaning of self determination for Indigenous peoples The book conceptualizes self determination as a foundational value informed by the norm of integrity and suggests that Indigenous self determination cannot be achieved without restructuring all relations of domination nor can it be secured in the absence of gender justice As a foundational value self determination seeks to restructure all relations of domination not only hegemonic relations with the state Importantly it challenges the opposition between self determination and gender created and maintained by international law Indigenous political discourse and Indigenous institutions Restructuring relations of domination further entails examining the gender regimes present in existing Indigenous self government institutions interrogating the relationship between Indigenous self determination and gender violence and considering future visions of Indigenous self determination such as repatriation of Indigenous governance and an independent statehood

Restructuring Relations Rauna Johanna Kuokkanen,2019 Self determination foundational value Indigenous self government structures in Canada Greenland and S pmi Implementing indigenous self determination self administration repatriation or independence Gendering indigenous self government Self determination and violence against indigenous women Indigenous gender justice as restructuring relations **Wales** ,1913 **Blood Politics** Circe Dawn Sturm,2002-03-20 Circe Sturm takes a bold and original approach to one of the most highly charged and important issues in the United States today race and national identity Focusing on the Oklahoma Cherokee she examines how Cherokee identity

is socially and politically constructed and how that process is embedded in ideas of blood color and race Not quite a century ago blood degree varied among Cherokee citizens from full blood to 1/256 but today the range is far greater from full blood to 1/2048 This trend raises questions about the symbolic significance of blood and the degree to which blood connections can stretch and still carry a sense of legitimacy It also raises questions about how much racial blending can occur before Cherokees cease to be identified as a distinct people and what danger is posed to Cherokee sovereignty if the federal government continues to identify Cherokees and other Native Americans on a racial basis Combining contemporary ethnography and ethnohistory Sturm's sophisticated and insightful analysis probes the intersection of race and national identity the process of nation formation and the dangers in linking racial and national identities *Recovery and Preservation of Native American Languages* United States.
