The Lost Revolution Chris Harman, 2017-06-26 Compelling a classic study of the revolutionary process Neil Davidson author of *How Revolutionary Were the Bourgeois Revolutions As the First World War was about to end in defeat* German sailors began to mutiny giving voice to the widespread anger against the elites who had led the nation into war and the calamitous impact of that decision on everyday people The events that followed would eventually result in the parliamentary democracy known as the Weimar Republic and the socialists who had initially risen up would be attacked by German counterrevolutionary troops their uniforms marking the debut of a new symbol the swastika Because of the socialists defeat in Germany Russia fell into the isolation that gave Stalin his road to power Here Chris Harman unearths the history of the lost revolution in Germany and reveals its lessons for the future struggles for a better world Chris Harman s compelling analysis of the failed German Revolution covers the entire period from 1918 to the debacle of 1923 paying close attention to episodes such as the Bavarian Soviet Republic which are often neglected or minimized Harman clearly demonstrates that this example of lost revolution was the real turning point in German history when history failed to turn with dire consequences Neil Davidson author of *Discovering the Scottish Revolution* *The United States and the Vietnam War, 1954-1975* Louis Peake, 2007-11-13 The United States in the Vietnam War 1954 1975 is an invaluable reference guide to the costly and controversial war the U S waged in Vietnam over the course of five presidential administrations Focusing not only on the conflict in Southeast Asia but also on the tumult the war inspired on the domestic front Louis Peake provides an authoritative guide to the wide range of media available on the U S involvement in Vietnam From collections of art work and poetry about the soldiering experience to journalistic accounts of battles and military training films the entries consistently provide clear and concise descriptions allowing the reader to easily identify the value of any particular resource With revised and updated annotations and over 150 new entries this second edition of *The United States in the Vietnam War 1954 1975* is an invaluable reference tool for researchers and students of the Vietnam War Routledge Research Guides to American Military Studies provide concise annotated bibliographies to the major areas and events in American military history With the inclusion of brief critical annotations after each entry the student and researcher can easily assess the utility of each bibliographic source and evaluate the abundance of resources available with ease and efficiency Comprehensive concise and current Routledge Research Guides to American Military Studies are an essential research tool for any historian **U.S. Marine Corps Civil Affairs in I Corps, Republic of South Vietnam, April 1966 to April 1967** William D. Parker, 1970 *Vietnam, an Annotated Bibliography*, 1968 *The Lost History of Liberalism* Helena Rosenblatt, 2018-09-11 The changing face of the liberal creed from the ancient world to today *The Lost History of Liberalism* challenges our most basic assumptions about a political creed that has become a rallying cry and a term of derision in today s increasingly divided public square Taking readers from ancient Rome to today Helena Rosenblatt traces the evolution of the words liberal and liberalism revealing the

heated debates that have taken place over their meaning In this timely and provocative book Rosenblatt debunks the popular myth of liberalism as a uniquely Anglo American tradition centered on individual rights She shows that it was the French Revolution that gave birth to liberalism and Germans who transformed it Only in the mid twentieth century did the concept become widely known in the United States and then as now its meaning was hotly debated Liberals were originally moralists at heart They believed in the power of religion to reform society emphasized the sanctity of the family and never spoke of rights without speaking of duties It was only during the Cold War and America s growing world hegemony that liberalism was refashioned into an American ideology focused so strongly on individual freedoms Today we still can t seem to agree on liberalism s meaning In the United States a liberal is someone who advocates big government while in France big government is contrary to liberalism Political debates become befuddled because of semantic and conceptual confusion The Lost History of Liberalism sets the record straight on a core tenet of today s political conversation and lays the foundations for a more constructive discussion about the future of liberal democracy

The Struggle for a Multilingual Future

Christina P. Davis (Anthropologist),2020 In The Struggle for a Multilingual Future Christina Davis examines the tension between ethnic conflict and multilingual education policy in the linguistic and social practices of Sri Lankan minority youth Facing a legacy of post independence language and education policies that were among the complex causes of the Sri Lankan civil war 1983 2009 the government has recently sought to promote interethnic integration through trilingual language policies in Sinhala Tamil and English in state schools Integrating ethnographic and linguistic research in and around two schools during the last phase of the war Davis s research shows how despite the intention of the reforms practices on the ground reinforce language based models of ethnicity and sustain ethnic divisions and power inequalities By engaging with the actual experiences of Tamil and Muslim youth Davis demonstrates the difficulties of using language policy to ameliorate ethnic conflict if it does not also address how that conflict is produced and reproduced in everyday talk

Inside the IRA

Andrew Sanders,2011-04-25 Would the real IRA please stand up Why and how the IRA splintered The Real IRA the Continuity IRA the

Irish National Liberation Army the Official IRA and the Provisional IRA have all assumed responsibility for the struggle for Irish freedom over the course of the late 20th century Yet as recently as 1969 there was only one Irish Republican Army trying to unify Ireland using physical force Andrew Sanders explains how and why the transition from one IRA to several IRAs occurred analysing all the dissident factions that have emerged since the outbreak of the Northern Ireland troubles He looks at why these groups emerged what their respective purposes are and why in an era of relative peace and stability in Northern Ireland they seek to prolong the violence that cost over 3500 lives Revolution, Counterrevolution and Assassination Through World War II Robert C. Cottrell, 2024-12-06 Since the French Revolution the quest for revolutionary transformation and the fear of such change became deeply ingrained in the global landscape through World War II Modern revolutions inspired counterrevolutions that strove to turn back time to an allegedly purer finer more moral period than the upheaval and anarchy linked to a revolutionary epoch Revolutions often occurred through violence and entailed a disruption of existing social economic and political orders Counterrevolutions were equally guilty and frequently more so of horrific bloodletting in the name of restoring law and order often by shredding legal and ethical norms Drawing from a vast array of sources both primary and secondary this first of a two volume set presents a highly detailed narrative of an unholy trinity revolution counterrevolution and assassination Combining intellectual political social and cultural history this book highlights international protagonists movements and ideas supporting the radical or reactionary upheaval of society and the means that have been used to do so **The Booklist and Subscription Books Bulletin**, 1966 **Bibliographic Series** University of Florida. Libraries, 1968 *Critical Discourse Analysis in Historiography* J. Flowerdew, 2011-12-01 The book shows how the study of the evolving discourse employed during a political process spanning more than a decade can provide insights for critical discourse analysis on the one hand and understanding of a real world political process on the other thereby demonstrating the potential role for critical discourse analysis in historiography **1918 Year of Victory** Ashley Ekins, 2010-04 The First World War was a turning point in history It marked the birth of the modern era and established the pattern for large scale violence devastation and genocide throughout the wars of the 20th century Old empires disintegrated and new nations emerged in the maelstrom of the war and its aftermath The peace settlements reshaped national boundaries leaving tensions and rivalries between nation states and people that resonate to the present day Historians continue to explore and challenge many assumptions and perceptions surrounding the conflict from its origins and causes to the responsibility for its conduct the reasons for Allied victory over the Central Powers and the consequences and long term outcomes of that victory This book is a collection of the latest research findings by scholars from a number of nations many of them renowned specialists in their field They gathered for an international conference 1918 YEAR OF VICTORY convened by the Australian War Memorial in Canberra in November 2008 to mark the 90th anniversary of the end of the war and to share their insights into issues surrounding the ending of the war its memory and continuing impact Lively authoritative and wide

ranging the chapters span the themes of war strategy and planning the problems of raising training and maintaining armies in the field developments in technology and weapons systems the role of command the evolution of tactics and the use of combined arms the development of war economies and the exploitation of human and material resources in war on the home front on land at sea and in the air CONTRIBUTORS Jay Winter Yale University USA Robin Prior University of Adelaide Australia Gary Sheffield University of Birmingham UK Robert Foley University of Liverpool UK Elizabeth Greenhalgh University of New South Wales Australia Meleah Ward University of Adelaide Australia Ashley Ekins Australian War Memorial Peter Pedersen Australian War Memorial Glyn Harper Massey University New Zealand Tim Cook Canadian War Museum Canada David Stevens Defence Sea Power Centre Australia James Goldrick Australian Defence College Peter Hart Imperial War Museum London UK Trevor Wilson University of Adelaide Australia Martin Crotty University of Queensland Australia Stephen Badsey University of Wolverhampton UK

Armor ,1966 Educational Screen and Audiovisual Guide ,1926 The Educational Screen ,1926 Contemporary China Review Bouden House,2022-08-15 This summer is an unusual one The Russian Ukrainian war shifted from a stalemate to a strategic counter offensive in Ukraine Against the backdrop of this huge geopolitical conflict Taiwan Strait relations also became tense again with the visit of U S House Speaker Nancy Pelosi to Taiwan The clamor for military unification with Taiwan by force in mainland China has been overwhelming Xi Jinping s call with Biden conveyed that this is not the time for a full blown crisis to break out When war breaks out in the Taiwan Strait will depend on the CCP s mindset However once the CCP regime falls into the hands of an emperor for life the outbreak of war will be unpredictable In this issue several articles analyze Xi Jinping s mentality psychology and personality which provide a glimpse of the dictatorial factor behind the Taiwan Strait crisis Another article analyzing the 50 year history of U S China relations can also help readers understand the direction of U S China relations and the background of the Taiwan Strait crisis With the globalized economy at a crossroads the CCP has taken a big step backward from a semi market economy to a state planned economy and is facing a huge economic crisis in the financial manufactory to real estate sectors To divert an economic social and political crisis CCP will avoid internal crises with war This issue presents a scholar monography that gives us a glimpse into the social psychology of the general public in mainland China today especially the underestimated dynamics of the little pinko groups that are driving China toward the mistakes of war Meanwhile the misunderstanding and misperception of the Chinese revolution not only camouflage the legitimacy of the CCP regime but also feed into a false institutional confidence for Xi Jinping who boasts to point out the direction of global development
