Loukis Laras:

The Making of Modern Greece Professor David Ricks, Professor Roderick Beaton, 2013-06-28 Every Greek and every friend of the country knows the date 1821 when the banner of revolution was raised against the empire of the Ottoman Turks and the story of Modern Greece is usually said to begin Less well known but of even greater importance was the international recognition given to Greece as an independent state with full sovereign rights as early as 1830 This places Greece in the vanguard among the new nation states of Europe whose emergence would gather momentum through to the early twentieth century a process whose repercussions continue to this day Starting out from that perspective which has been all but ignored until now this book brings together the work of scholars from a variety of disciplines to explore the contribution of characteristically nineteenth century European modes of thought to the making of Greece as a modern nation Closely linked to nationalism is romanticism which exercised a formative role through imaginative literature as is demonstrated in several chapters on poetry and fiction Under the broad heading uses of the past other chapters consider ways in which the legacies first of ancient Greece then later of Byzantium came to be mobilized in the construction of a durable national identity at once Greek and modern The Making of Modern Greece aims to situate the Greek experience as never before within the broad context of current theoretical and historical thinking about nations and nationalism in the modern world The book spans the period from 1797 when Rigas Velestinlis published a constitution for an imaginary Hellenic Republic at the cost of his life to the establishment of the modern Olympic Games in Athens in 1896 an occasion which sealed with international approval the hard won self image of Modern Greece as it had become established over the previous century *The American Greek Review*, 1923 Loukis Laras Dēmētrios Vikelas, 1904 **The Making of Modern Greece** David Ricks, 2016-03-03 Every Greek and every friend of the country knows the date 1821 when the banner of revolution was raised against the empire of the Ottoman Turks and the story of Modern Greece is usually said to begin Less well known but of even greater importance was the international recognition given to Greece as an independent state with full sovereign rights as early as 1830 This places Greece in the vanguard among the new nation states of Europe whose emergence would gather momentum through to the early twentieth century a process whose repercussions continue to this day Starting out from that perspective which has been all but ignored until now this book brings together the work of scholars from a variety of disciplines to explore the contribution of characteristically nineteenth century European modes of thought to the making of Greece as a modern nation Closely linked to nationalism is romanticism which exercised a formative role through imaginative literature as is demonstrated in several chapters on poetry and fiction Under the broad heading uses of the past other chapters consider ways in which the legacies first of ancient Greece then later of Byzantium came to be mobilized in the construction of a durable national identity at once Greek and modern The Making of Modern Greece aims to situate the Greek experience as never before within the broad context of current theoretical and historical thinking about nations and nationalism in the

modern world The book spans the period from 1797 when Rigas Velestinlis published a constitution for an imaginary Hellenic Republic at the cost of his life to the establishment of the modern Olympic Games in Athens in 1896 an occasion which sealed with international approval the hard won self image of Modern Greece as it had become established over the previous century Mediterranean reconsidered Mauro Peressini,Ratiba Hadj-Moussa,2005-01-01 This collection of essays re evaluates existing representations of the Mediterranean providing a fresh new and often critical perspective on the cultural social and political processes that shape this region Subjects such as food traditions music alterity and identity from Southern Europe to North Africa and the Middle East are examined Published in English Formal and Informal Education during the Rise of Greek Nationalism Theodore G. Zervas,2016-12-08 This book examines informal modes of learning in Greece from in the late nineteenth and early twentieth centuries set against the backdrop of Greek nationalist interests and agendas For much of this period one of the Greek state s major goals was to bind the nation around a common history and culture linked to a collective and homogenous community This study addresses the critical relationship between the average Greek child and their home community and school life during the earliest stages of their education The stories games songs and theater that children learned in Greece for much of the late nineteenth and early twentieth centuries went beyond shaping their moral character or providing entertainment but were instrumental in forging a Greek national consciousness

Gendered Stereotypes and Female Entrepreneurship in Southern Europe, 1700-1900 Polly Thanailaki,2021-04-26 This book addresses issues that remain under researched by feminist historians They pertain to female economic contribution in specific geographical areas and countries such as Greece Italy a number of regions of France Greek speaking regions in the Ottoman ruled Macedonia and two countries in the Balkans Romania and Bulgaria Additionally it compares and contrasts female economic agency in the above regions which is a field that hitherto lacks thorough study Polly Thanailaki explores female contribution to the finances of their family and to the economy of their country and how they interlaced in a transnational historical setting further exploring social norms and trading practices in these regions The methodology is based on the study of original printed sources such as archives newspapers and journals of the period along with secondary sources of literature The book addresses the nexus of gender economy and society covering a broad spectrum of gender studies economic history and social history in time and in geographic space

Greeks think about Turks Dimitrios Theodossopoulos, 2013-09-13 Drawing upon anthropological studies that document culturally specific ways of perceiving ethnic Others in Greece and Cyprus this book explores the cultural boundaries of the categories Greek and Turk and compares views on what it means to be one of these ethnic groups or both The contributors examine the opinions of diverse social groups such as ordinary middle class citizens intellectuals army officers children villagers refugees from Asia Minor and Greek and Turkish Cypriots They also investigate the local attitudes to international politics and highlight the contextual as opposed to immutable and essentialist meaning of evaluations about nations such as Greece Turkey and Cyprus and their citizens When Greeks think about Turks carefully unpacks the cultural meaning of popular metaphors stereotypes and versions of history as these are articulated in the context of discussions about the Turks in Greece It sets the template for understanding how local perceptions of resemblance and difference provide a conceptual framework for defining and negotiating ethnic identity at the local national and international level It sheds valuable light on the politics of identity making and the constitution of nationalism in Greece and Cyprus This book was previously published as a special issue of *South European Society and Politics* Sir Tom Mrs. Oliphant (Margaret), 1893 The British Council and Anglo-Greek Literary Interactions, 1945-1955 Peter Mackridge, David Ricks, 2018-04-17 In the immediate aftermath of the Second World War and with British political influence over Greece soon to be ceded to the United States there was a considerable degree of cultural interaction between Greek and British literati Sponsored or assisted by the British Council this interaction was notable for its diversity and quality alike Indeed the British Council in Greece made a more significant contribution to local culture in that period than at any other time and perhaps in any other country Many of the participants among them Patrick Leigh Fermor Steven Runciman and Louis MacNeice are well known while others deserve to be better known than they are today But what has been less fully discussed and what the volume sets out to do is to explore the two way relations between Greek and British literary production in which the British Council played a particularly important role until the outbreak of armed conflict in Cyprus in 1955 which rendered further contacts of this kind difficult Close attention is paid to the variety of ways marked by personal affinities and allegiances but also by political tensions in which the British Council functioned as an agent of interaction in a climate where a complex blend of traditional Anglophilia or Philhellenism found itself encountering a new post war and Cold War environment What is distinctive about the volume beyond the inclusion of much recent archival research is its attention to the British Council as part of the story of Greek letters and not just as a place in which various British men and women of letters worked The British Council found itself sometimes more through improvisation and personal affinities than through careful planning at the heart of some key developments notably in terms of important periodical publications which had a lasting influence on Greek letters Though in the cultural forum that influence was arguably to be less pervasive than that of France with its more ambitious cultural outreach or than that of the USA in later decades the role of the British Council in Greece in this crucial period of Greek and indeed European post war

history continues to make a rich case study in cultural politics This volume thus fills a gap in the rich bibliography on Anglo Greek relations and contributes to a wider scholarly and public discussion about cultural politics
