The Utopia of Film Christopher Pavsek, 2013-01-29 The German filmmaker Alexander Kluge has long promoted cinema's relationship with the goals of human emancipation Jean Luc Godard and Filipino director Kidlat Tahimik also believe in cinema's ability to bring about what Theodor W Adorno once called a redeemed world Situating the films of Godard Tahimik and Kluge within debates over social revolution utopian ideals and the unrealized potential of utopian thought and action Christopher Pavsek showcases the strengths weaknesses and undeniable impact of their utopian visions on film's political evolution He discusses Godard's Alphaville 1965 against Germany Year 90 Nine Zero 1991 and JLG JLG Self portrait in December 1994 and he conducts the first scholarly reading of Film Socialisme 2010 He considers Tahimik's virtually unknown masterpiece I Am Furious Yellow 1981 1991 along with Perfumed Nightmare 1977 and Turumba 1983 and he constructs a dialogue between Kluge's Brutality in Stone 1961 and Yesterday Girl 1965 and his later The Assault of the Present on the Rest of Time 1985 and Fruits of Trust 2009

Love and Other Technologies Dominic Pettman, 2006 Can love really be considered another form of technology Dominic Pettman says it can although not before carefully redefining technology as a cultural challenge to what we mean by the human in the information age Using the writings of such important thinkers as Giorgio Agamben Jean Luc Nancy and Bernard Stiegler as a springboard Pettman explores the tectonic movements of contemporary culture specifically in relation to the language of eros Highly ritualized expressions of desire love in other words always reveal an era's attitude toward what it means to exist as a self among others For Pettman the articulation of love is a technique of belonging a way of responding to the basic plurality of everyone's identity a process that becomes increasingly complex as the forms of mediated communication from cell phone and text messaging to the mass media multiply and mesh together Wresting the idea of love from the arthritic hands of Romanticism Pettman demonstrates the ways in which this dynamic assemblage the stirrings of the soul have always been a matter of tools devices prosthetics and media Love is after all something we make And love this book argues is not eternal but external

Expanding Transformation Theory Alexis Kokkos, 2020-04-07 Expanding Transformation Theory offers a deeper understanding of the philosophy principles and major components of Transformation Theory which was developed by Jack Mezirow It provides a thorough comprehension of the affinities of the theory with other emancipatory theoretical views and provides the readers with an expanded insight of the core theoretical framework that will support their research and educational practice The book juxtaposes Mezirow's perspective with those of ten major emancipatory educationalists Dewey Freire Gould Marsick Socrates Kegan Greene Argyris Illeris and Jarvis respectively who all share the idea of learning with the aim of changing problematic perceptions and behaviours Such issues as convergences and

divergences among the theoretical perspectives as well as the impact of the theoretical ideas that Mezirow incorporated in his work are addressed The work of Mezirow is further reviewed in order to pinpoint the dimensions which appear to have been confirmed and endure over time and in turn those that seem to need expansion or even revision This book will be of great interest to researchers academics students and adult educators who are interested in transformative learning theory and emancipatory education *Love and the Persistence of Illusion* David May,2005-09-02 *The Smart Love Parent* Martha Heineman Pieper,William Joseph Pieper,2005 Should you feed your baby whenever she wants or put her on a schedule Do you impose consequences on children who don t do their homework or clean up their room or do you help them with chores and homework Should you respond to the difficult adolescent with tender love or tough love Parents are faced every day with a multitude of decisions and they worry about making the right choices The Smart Love Parent offers a breakthrough method to parenting created and tested by the husband and wife team of Dr Martha Heineman Pieper and Dr William J Pieper The Piepers offer a new understanding of the entire sweep of child development allowing you to view the process of growing up through your child s eyes Their patient and caring approach avoids the extremes of permissiveness and of the old reward and punishment style of parenting that turns parents into disciplinarians By offering a relaxed and realistic timetable for your child s development they identify some previously unrecognized developmental milestones and show you how to help your child reach them through guiding not punishing If you understand your child s point of view you can better know how to love her and how to respond to her actions The Smart Love Parent helps parents cultivate a child s inner happiness which is the best means of ensuring your child will grow up well behaved responsible self confident and able to reach his or her fullest potential Book jacket *Otto Kernberg* Frank E. Summer of Love Christoph Grunenberg, Jonathan Harris, Jonathan P. Harris, 2005-01-01 Though more than a generation has passed since the revolutionary fervor of the Summer of Love of 1967 the 1960s in many ways seem with us still From recurring debates over the war in Vietnam to the perpetually appealing music of the Beatles and the Rolling Stone to the concern about youth drug use the legacy of the 1960s is ubiquitous in contemporary life The Summer of Love brings together an impressive group of historians artists and cultural critics to present a rich and varied interpretation of this seminal decade and its continuing influence on politics society and culture The Summer of Love which accompanies an exhibition at Tate Liverpool pays particular attention to the wildly creative psychedelic art of the era Perceptive essays on psychedelic comics graphic design and typography light shows and film successfully rescue psychedelic art from the fog of nostalgia and unjust critical neglect Distinguished contributors also explore the role of 1960s fashion and architecture and they consider anew the central influence of hallucinogenic drugs on the art of the era Running throughout the essays are the elements of epochal change from sexual liberation to student revolutions that still form the backdrop of our collective consciousness of the 1960s An incisive collection of writings on all aspects of 1960s art and culture tempered by time and critical distance The Summer of Love will be indispensable for those who wish they had been there or for those who were but can t remember it
