Love's Knowledge Martha C. Nussbaum, 1990 This volume brings together Nussbaum's published papers on the relationship between literature and philosophy especially moral philosophy The papers many of them previously inaccessible to non specialist readers deal with such fundamental issues as the relationship between style and content in the exploration of ethical issues the nature of ethical attention and ethical knowledge and their relationship to written forms and styles and the role of the emotions in deliberation and self knowledge Nussbaum investigates and defends a conception of ethical understanding which involves emotional as well as intellectual activity and which gives a certain type of priority to the perception of particular people and situations rather than to abstract rules She argues that this ethical conception cannot be completely and appropriately stated without turning to forms of writing usually considered literary rather than philosophical It is consequently necessary to broaden our conception of moral philosophy in order to include these forms Featuring two new essays and revised versions of several previously published essays this collection attempts to articulate the relationship within such a broader ethical inquiry between literary and more abstractly theoretical elements

Love's Vision Troy Jollimore, 2011-07-05 Love often seems uncontrollable and irrational but we just as frequently appear to have reasons for loving the people we do In Love's Vision Troy Jollimore offers a new way of understanding love that accommodates both of these facts arguing that love is guided by reason even as it resists and sometimes eludes rationality At the same time he reconsiders love's moral status acknowledging its moral dangers while arguing that it is at heart a moral phenomenon an emotion that demands empathy and calls us away from excessive self concern Love is revealed as neither wholly moral nor deeply immoral neither purely rational nor profoundly irrational Rather as Diotima says in Plato's Symposium love is something in between Jollimore makes his case by proposing a vision view of love according to which loving is a way of seeing that involves bestowing charitable attention on a loved one This view recognizes the truth in the cliché love is blind but holds that love's blindness does not undermine the idea that love is guided by reason Reasons play an important role in love even if they rest on facts that are not themselves rationally justifiable Filled with illuminating examples from literature Love's Vision is an original examination of a subject of vital philosophical and

human concern **The Love of God** Bob Loveys,2024-05-05 This book details my experiences as a Christian over the last 40 years It is my attempt to show people the reality of God and the way he interacts with me through my life It explains the many ways He guides me through life and explains the love and power that he exhibits in and through my life and what is available to every believer It aims to cross the barrier of indecision for the unbeliever To hopefully convince them that God is real and necessary to everyone s lives particularly during the dark days we are living in **The Prudence of Love** Eric J. Silverman,2009-12-02 The Prudence of Love How Possessing the Virtue of Love Benefits the Lover focuses upon the intersection of philosophical theological and psychological issues concerning love Eric Silverman advocates an account of the virtue of love derived from Thomas Aquinas s account of charity and makes three claims concerning love s effect on a person s happiness First he argues that there are at least five distinct ways that possessing the virtue of love contributes to the lover s happiness Surprisingly only one of these benefits is primarily relational while the other benefits are largely psychological Second Silverman argues that the combination of love s benefits typically increases the lover s overall level of happiness Finally he argues that possessing a loving disposition is a more reliable strategy for increasing one s overall happiness than possessing an unloving disposition Throughout The Prudence of Love Silverman demonstrates that love s benefits are identifiable according to all four major views of happiness **Marriage and Modernization** Don S. Browning,2003-03-20 The processes of modernization and globalization promise more wealth and health for many people But they are also a threat to the stability and quality of marriage and family life This new book at once sobering and constructive looks at the impact of these processes on marriage and asks what Christianity in cooperation with other religions can do to strengthen married life today Among the deleterious effects of modernization and globalization on marriage are a worldwide drift of men away from the responsibility of parenthood and the tendency of mothers too readily to take on the task of childrearing alone After looking at recent research on these and other problems Don Browning suggests that the cure for modern marital disruption entails reforming and reconstructing the institution of marriage while also nurturing relevant forms of social support Yet the effort to initiate a world marriage revival requires a complex cultural work and Browning explores the key contributions that the religions of the world must make for such an effort to be successful *The Phi Kappa Psi Song Book* Phi Kappa Psi,1893
