Phipps, 2022-11-15 This book examines the relatively unknown English late Victorian educational pioneer Constance Louisa Maynard 1849 1935 whose innovative London based Westfield College produced the first female BAs in the mid 1880s An atypical and powerful woman Maynard is also notable for her unique knowledge of psychology and patriotic Evangelicalism both of which profoundly shaped her ambitions and passions In contrast to most history about an individual's life this book builds a fascinating life story based upon evidence and clues from minutia The focus is on nine enigmatic actions motivated by Maynard in her quests for educational leadership global conversion and same sex love Maynard's acts that she called mistakes caused deep enmities with administrators and college women Yet amid her trials and conflicts Maynard made key decisions about her public and private life Moreover her so called mistakes reveal astonishing new insights into a past mindset and the rapidly changing world in which Maynard lived

Reminders for the Enlightened Ones The greatest blessing in my life was the gift of being in the physical presence of Babaji in Herrekhan in 1980 One day he said that he would be leaving his body I asked him if he would still come to me if I asked He simply looked at me and smiled knowingly and said Of course Recently my work healing moved to a new level Some of the recent miracles have been so powerful as to leave me shaky I could only turn to God to keep myself stable and humble and so I asked for his advice Well he has answered my request And I imagine he will answer the prayers of many others through the writings of Ivonne Delaflor In them I recognize his voice his humor his teaching Thank you Babaji And thank you Ivonne for

Outdoor Learning: Past and Present

Rosaleen Joyce, 2012-02-16 The book breaks new ground by placing outdoor learning in a theoretical historical and social context of changing understandings of children childhood and the use of the outdoors The books approach is based on the premise that ideas phase in and out of use depending on social and political contexts This perspective will help people to think about how present day attitudes regarding outdoor learning came to be where they came from and to question their newness The author argues that outdoor learning needs to be looked at in a historical context so that you can understand the contribution of previous educational thinkers on today s views and practices The main historical thinkers considered include Comenius Pestalozzi Froebel and Margaret McMillan as well as the views of more modern contributors and the Forest Schools in the UK Joyce makes it possible to look more critically at today s approaches and influences on outdoor learning She considers how children are regarded today within these approaches and whether these constructs are in the children s best interests Key features of this book include A reflective approach to practice Effective training for practitioners in their use of the outdoors recognising the different approaches required from those used in the indoor classroom This book is essential reading for all early years practitioners
