**The Primeval Flood Catastrophe** Y. S. Chen, 2013-12-12 Previous research on Mesopotamian Flood traditions tended to focus on a few textual sources How the traditions originated and developed as a whole has not been seriously investigated By systematically examining a large body of relevant cuneiform sources of diverse genres from the Early Dynastic III period ca 2600 2350 B C to the end of the first millennium B C this book observes that it is during the Old Babylonian period ca 2000 1600 and classical attestations of the Flood traditions are found On linguistic conceptual and literary historical grounds the book argues that the Flood traditions emerged relatively late in Sumerian traditions It traces different evolutionary stages of the Flood traditions from the emergence of the Flood motif within the socio political and cultural contexts of the early Isin dynasty ca 2017 1896 B C to the diverse mythological representations of the motif in literary traditions to the historicisation of the motif in chronography and finally to the interactions between various strands of the Flood traditions and other Mesopotamian literary traditions such as Sumerian and Babylonian compositions about Gilgames By uncovering the processes through which the Flood traditions were constructed the book offers a valuable case study on the complex and dynamic relationship between myth making the development of literature the rise of historical consciousness and historiography and socio political circumstances in the ancient world The origins and development of the

Flood traditions examined in the book furthermore represent one of the best documented examples illustrating the continuities and changes in Mesopotamian intellectual linguistic literary socio political and religious history over the course of two and a half millennia     The Great Dedicatory Inscription of Ramesses II Anthony John Spalinger, 2009 Studying Ramesses IIa TM s Dedicatory Inscription in detail allows one to connect it with the development of the Solar Osirian theology postdating the Amarna Period of Egypt This study thus links the historical background of the pharaoh TM s visit to Abydos at the very beginning of his first regnal year with the religious aspects of early Dynasty XIX     **Holland and the Low countries** Samuel Leigh Sotheby, 1858     **Reliquiæ Hearnianæ: the remains of Thomas Hearne, extracts from his MS. diaries, collected with a few notes by P.
