Lowry's City A Painter His Locale:

Lowry's City Judith Sandling, Michael Leber, 2000 Photographer Len Grant has visited each location and photographed its current appearance revealing both the sites that remain redolent of Lowry's painting and those that have changed beyond recognition **BOOK JACKET** *City of Capital and Labour* Tom Saunders, 2025-08-15 This compelling book explores the evolution of industrial Manchester offering a fresh perspective on its built environment through the lens of architecture archaeology and social history Richly illustrated and designed for both academic and general audiences it sheds new light on Manchester's transformation during the Industrial Revolution highlighting how the city's physical form shaped and was shaped by its socio economic and cultural dynamics By analysing architectural styles building types land use and spatial relationships the study identifies distinct phases of development from the early eighteenth to early twentieth century It delves into how Manchester's material landscape mediated industrialisation and social tensions reflecting the emergence of both bourgeois and proletarian communities The book argues that the city's evolving physical structure was deeply intertwined with the capitalist logic of class relations where architecture and urban spaces became arenas for competing social identities Through mapping the enduring physical traces of these changes and using a Marxist lens to examine shifting power structures in cities the book underscores Manchester's role as a microcosm of industrial and urban transformation It invites readers to rediscover the city's industrial heritage emphasising the importance of its historic buildings in understanding the socio economic forces that shaped modern urban life before they are irrevocably altered by contemporary redevelopment *British Art and the Environment* Charlotte Gould, Sophie Mesplède, 2021-07-21 This book explores the nature of Britain based artists engagement with the transformations of their environment since the early days of the Industrial Revolution At a time of pressing ecological concerns the international group of contributors provide a series of case studies that reconsider the nature culture divide and aim at identifying the contours of a national narrative that stretches from enclosed lands to rising seas By adopting a longer historical view this book hopes to enrich current debates concerning art's engagement with recording and questioning the impact of human activity on the environment The book will be of interest to scholars working in art history contemporary art environmental humanities and British studies **Thinking Northern**, 2007-01-01 Thinking Northern offers new approaches to the processes of identity formation which are taking place in the diverse fields of cultural economic and social activity in contemporary Britain The essays collected in this volume discuss the changing physiognomy of Northern England and provide a mosaic of recent thought and new critical thinking about the textures of regional identity in Britain Looking at the historical origin of Northern identities and at current attitudes to them the book explores the way received mental images about the North are re deployed and re contained in the ever changing socio cultural set up of society in Northern England The contributors address representation of Northernness in such diverse fields as the music scene multicultural spaces the heritage industries new architecture the arts literature and

film **Global Dilemmas** Malcolm Hardman, 2017-10-06 No more than there can be time without space can there be history without locality This book takes a road less traveled into a locality that provides fresh insights into our global dilemmas Bolton le Moors was a global center of cotton coal and engineering whose factory engines were the beating heart of the Victorian world Commanding the widest range of trades of any town in the Empire it specialized in papermaking from pawn tickets to banknotes via newspapers and syndicated fiction Responsive to locality yet world aware its many independent writers shared a creative forum with authors like Wordsworth Tennyson Ruskin Gaskell Charlotte Brontë Tolstoy Whitman Thomas Hardy T S Eliot Virginia Woolf Other locals include mathematician Thomas Kirkman father of design theory Thomas Moran painter of the American New West Charles Holden the Empire's leading Modern architect Bolton's printed culture was founded on traditions that made it a bulwark of parliamentary puritanism in the days of Reformation and Civil War These traditions increasingly confronted global dilemmas that the town's own inventiveness and entrepreneurship had helped create yet its high moorlands also provided a breathing space to generate imaginative spiritual political and practical remedies Global Dilemmas completes the account of Bolton writing initiated in *A Kingdom in Two Parishes* and continued in *Classic Soil* an arc of discourse from Thomas Lever 1521-77 whose social experiments provided the model for the Protestant colonization of the New World to his kinsman W H Lever Lord Leverhulme sincere Christian world capitalist progressive social thinker and pursuing the logic of profit exploiter of Conrad's African heart of darkness , *The complete city trip guide for Salford (England)* , The Red Hat Guide to Manchester City Centre K.C. Dowling, 2018-09-14 What you will see during this walk will be some of the city's incredible statues and some of the magnificent buildings of Manchester We will learn about some of the famous or infamous incidents that took place and we will hear about some of the sons daughters and residents of and visitors to this city For the less earnest and more casual amongst us this short journey can be thought of as a moderate stroll around one of today's world significant cities hopefully in the famous Manchester sunshine with perhaps a few interesting distractions and stories along the way Urban Constellations Zoë Thompson, 2016-02-11 This book investigates the iconic architectural cultural spaces of the contemporary cityscape as engines of regeneration Promising much to their fading locales these spaces locate culture in the space where production once ruled in order to revitalise post industrial urban provinces With close attention to four sites across the UK Urban Constellations engages with the work of Walter Benjamin and Jean Baudrillard to read these spaces and in so doing offer a critical intervention into the theory and experience of contemporary cityscapes Developing the notion of surface ethnography as a methodological approach to examining the form of cultural experience produced by urban cultural spaces the author sheds light on the manner in which they transform cultural spectatorship express wider political and ecological concerns and offer differing views to the native and the tourist in the construction of local history The book also examines the decline of the idea that iconic projects can drive regeneration in the failures and delays that can beset such undertakings Offering a rich examination of the legacy of

urban change in its most recent formulation that of cultural regeneration this book reveals the fragile potential of the spaces produced by contemporary dream houses and as such will be of interest to scholars of cultural studies sociology and social theory urban studies cultural geography and architecture

Cultural Policy is Local Victoria Durrer,Abigail Gilmore,Leila Jancovich,David Stevenson,2023-08-26 This Open Access edited collection calls for a greater understanding of the local within the ways the arts culture and creative practices are governed promoted regulated resourced and valued Cultural policy studies tends to privilege the national and international as the primary site at which cultural policy is enacted and focuses on the local as a case study of practice rather than a site of policy in its own right While this may make global policy transfer manageable for national policy agencies it ignores the contingent relationships diverse geographies and distinct identities of localities This volume addresses this gap and is structured around three themes disciplining the local which examines key concepts from different academic fields of study managing the local which identifies policy approaches that engage with the idea of the local in different ways and practising the local which offers case studies of how local cultural policies are being enacted in places of differing scale and geography
