The Second Red Scare and the Unmaking of the New Deal Left Landon R.Y. Storrs,2013 The loyalty investigations triggered by the Red Scare of the 1940s and 1950s marginalised many talented women and men who had entered government service during the Great Depression seeking to promote social democracy as a means to economic reform Their influence over New Deal policymaking and their alliances with progressive labour and consumer movements elicited a powerful reaction from conservatives who accused them of being subversives Landon Storrs draws on newly declassified records of the federal employee loyalty program created in response to fears that Communists were infiltrating the U S government to reveal how disloyalty charges were used to silence these New Dealers and discredit their policies Because loyalty investigators rarely distinguished between Communists and other leftists many noncommunist leftists were forced to leave government or deny their political views Storrs finds that loyalty defendants were more numerous at higher ranks of the civil service than previously thought and that many were women or men with accomplished leftist wives Uncovering a forceful left feminist presence in the New Deal she shows how opponents on the Right exploited popular hostility to powerful women and their effeminate spouses The loyalty program not only destroyed many promising careers it prohibited discussion of social democratic policy ideas in government circles narrowing the scope of political discourse to this day Through a gripping narrative based on remarkable new sources Storrs demonstrates how the Second Red Scare undermined the reform potential of the New Deal and crippled the American welfare state Jacket *Cold War and McCarthy Era* Caroline S.

Federal Employment United States Civil Service Commission. Library,1964 **Priests of Our Democracy** Marjorie Heins,2013-12-22 Priests of Our Democracy tells of the teachers and professors who battled the anti communist witch hunt of the 1950s It traces the political fortunes of academic freedom beginning in the late 19th century both on campus and in the courts Combining political and legal history with wrenching personal stories the book details how the anti communist excesses of the 1950s inspired the Supreme Court to recognize the vital role of teachers and professors in American democracy The crushing of dissent in the 1950s impoverished political discourse in ways that are still being felt and First Amendment academic freedom a product of that period is in peril today In compelling terms this book shows why the issue should matter to everyone

Un-American Activities Gary May,1994-06-09 In 1948 William W Remington was one of the bright young men in the Truman administration He was tall and handsome a product of Dartmouth and Columbia From 1940

on he had risen through government ranks serving on wartime boards the President's Council of Economic Advisors and eventually as a major official in the Department of Commerce with a promising future ahead By 1954 however Remington was dead assassinated in his cell by a team of inmates in a high security Federal prison In *Un American Activities* historian Gary May tells the fascinating story of William Remington a story of intrigue injustice government corruption and anti Communist hysteria May labored for eight years in reconstructing Remington's case searching through FBI files government documents and waging an epic battle against then U S Attorney Rudy Guiliani to become the first historian to obtain access to grand jury records The result is a brilliant account of one man's tragic odyssey and a government run amok Remington's future collapsed in 1948 when he was charged with being a Communist and a Soviet spy The accuser was Elizabeth Bentley an admitted ex Communist herself and a former courier for Soviet spymasters Remington's life fell into a whirlpool as he fought government improprieties illegalities and the assumption he was guilty Cleared by government loyalty boards he was indicted by a grand jury whose foreman was secretly helping Elizabeth Bentley prepare her memoirs Remington suffered through two trials for perjury and the chief witness against him was his own embittered ex wife He was convicted and sentenced to the federal penitentiary at Lewisburg Pennsylvania where his reputation as a Communist preceded him But May's account also offers fascinating insight into the depth of Soviet penetration into wartime America As he follows Remington's life from the radical circles at Dartmouth and the Tennessee Valley Authority in the 1930s through his Washington career he finds that Remington may well have been guilty of the charges against him Gary May is one of the leading historians writing about postwar America His first book *China Scapegoat* won the Allan Nevins Prize and was hailed as as well as a novel as powerful as a good film by the *The Los Angeles Times* Here he brings his analytical and narrative skills to bear on one of the forgotten stories of the McCarthy era uncovering a gripping tale of espionage corruption and personal tragedy

Domestic Intelligence Richard E. Morgan, 2014-07-03 The 1970s revealed a number of infamous and sometimes illegal practices used by federal law enforcement agencies to monitor political dissent in the United States In the aftermath of Watergate the revelation of serious abuses created distrust of virtually all domestic intelligence operations and led to vigorous efforts at reform Richard E Morgan emphasizes the importance of guarding against an overreaction to the disclosures of the mid 1970s While acknowledging the need for many of the recent reforms that seek to establish accountability guarantee privacy and protect dissent he cautions against limitations on domestic intelligence gathering that could seriously hamper government's ability to prevent crime particularly terrorism Domestic Intelligence has several major objectives to trace the way in which

government agencies became involved with domestic intelligence gathering to review the controversies and abuses associated with these agencies especially the FBI the CIA and the NSA to discuss the constitutionality of domestic intelligence collection to review intelligence reforms adopted and to suggest additional reforms This volume is concerned with the tension between the need to protect privacy and political dissent and the need for the government to protect the community Morgan concludes that intelligence operations aimed at anticipating criminal activity are necessary in a complex highly vulnerable society and that these operations can be conducted responsibly with proper guidelines and oversight mechanisms *ABA Journal* ,1959-03 The ABA Journal serves the legal profession Qualified recipients are lawyers and judges law students law librarians and associate members of the American Bar Association **Report of the Commission on Government Security** United States.
