Lucus Furrinae And The Syrian Sanctuary On The Janiculum:

The Lucus Furrinae and the Syrian Sanctuary on the Janiculum Nicholas Goodhue, 1975 *Ancient Angels* Rangar Cline, 2011-03-05 Ancient Angels brings together inscriptional literary and archaeological evidence for angels angeloi in Roman era religions The book examines Roman conceptions of angels angel veneration and how Christian authorities responded to this potentially heterodox aspect of Roman religion **A New Topographical Dictionary of Ancient Rome** Lawrence Richardson, 1992-10 A Choice magazine Outstanding Academic Title The first such dictionary since that of Platner and Ashby in 1929 A New Topographical Dictionary of Ancient Rome defines and describes the known buildings and monuments as well as the geographical and topographical features of ancient Rome It provides a concise history of each with measurements dates and citations of significant ancient and modern sources Syrian Influences in the Roman Empire to AD 300 John D. Grainger, 2017-09-01 The study of Syria as a Roman province has been neglected by comparison with equivalent geographical regions such as Italy Egypt Greece and even Gaul It was however one of the economic powerhouses of the empire from its annexation until after the empire's dissolution As such it clearly deserves some particular consideration but at the same time it was a major contributor to the military strength of the empire notably in the form of the recruitment of auxiliary regiments several dozens of which were formed from Syrians Many pagan gods such as Jupiter Dolichenus and Jupiter Heliopolitanus Dea Syra and also Judaism originated in Syria and reached the far bounds of the empire This book is a consideration based on original sources of the means by which Syrians whose country was only annexed to the empire in 64 BC saw their influence penetrate into all levels of society from private soldiers and ordinary citizens to priests and to imperial families *La triade d'Héliopolis-Baalbek, Volume 1* Youssef Hajjar, 2015-08-24

Imperialism and Appropriation in Rural Roman Syria Paul Newson, 2025-09-24 This book reassesses our understanding of rural landscapes in the Near East between the first and fourth centuries CE Previous histories of the Roman Near East have been influenced by an underlying set of assumptions based mainly on readings of Classical literature regarding the impact of Rome on this region To achieve these aims the book explores the nature of rural settlement in the Near East during the period through an in depth examination of the material evidence It also assesses current theories of Roman imperialism and acculturation and the extent to which the rural environment of the Near East was affected by such processes Most work in this area is on the Roman West and this book offers an eastern model using archaeological examples Recent archaeological data is introduced through a series of thematic chapters that address some of the most important factors that have shaped the rural environment including the ways in which the countryside was used and exploited the changes triggered by the arrival of Rome and the extent to which the ritual and funerary landscapes of the rural environment were transformed during this period Taken all together this volume evaluates the impact of Roman rule on the Greek East as experienced in the realm of the rural Offering a new framework by which comparisons with other areas of the eastern half of

the Roman Empire and the western provinces can be made this book is for students and researchers interested in the process of imperialism and the archaeology of the Near East and Roman Empire

The Gods of Ancient Rome Robert Turcan, 2013-10-28 First published in 2001 This is a vivid account of what their gods meant to the Romans from archaic times to late antiquity and an exploration of the rites and rituals connected to them After an extensive introduction into the nature of classical religion the book is divided into three main parts religions of the family and land religions of the city and religions of the empire The book ends with the rise and impact Christianity Using archaeological and epigraphic evidence and drawing extensively on a wide range of relevant literary material this book is ideally suited for undergraduate courses in the history of Rome and its religions Its urbane style and lightly worn scholarship will broaden its appeal to the large number of non academic readers with a serious interest in the classical world

Trade in the Ancient Mediterranean Taco Terpstra, 2019-04-09 How ancient Mediterranean trade thrived through state institutions From around 700 BCE until the first centuries CE the Mediterranean enjoyed steady economic growth through trade reaching a level not to be regained until the early modern era This process of growth coincided with a process of state formation culminating in the largest state the ancient Mediterranean would ever know the Roman Empire Subsequent economic decline coincided with state disintegration How are the two processes related In Trade in the Ancient Mediterranean Taco Terpstra investigates how the organizational structure of trade benefited from state institutions Although enforcement typically depended on private actors traders could utilize a public infrastructure which included not only courts and legal frameworks but also socially cohesive ideologies Terpstra details how business practices emerged that were based on private order yet took advantage of public institutions Focusing on the activity of both private and public economic actors from Greek city councilors and Ptolemaic officials to long distance traders and Roman magistrates and financiers Terpstra illuminates the complex relationship between economic development and state structures in the ancient Mediterranean

Pagans and Christians in Late Antique Rome Michele Renee Salzman, Marianne Sághy, Rita Lizzi Testa, 2016 This book sheds new light on the religious and consequently social changes taking place in late antique Rome The essays in this volume argue that the once dominant notion of pagan Christian religious conflict cannot fully explain the texts and artifacts as well as the social religious and political realities of late antique Rome Together the essays demonstrate that the fourth century city was a more fluid vibrant and complex place than was previously thought Competition between diverse groups in Roman society be it pagans with Christians Christians with Christians or pagans with pagans did create tensions and hostility but it also allowed for coexistence and reduced the likelihood of overt violent physical conflict Competition and coexistence along with conflict emerge as still central paradigms for those who seek to understand the transformations of Rome from the age of Constantine through the early fifth century
