De lo extraordinario Nominalismo y Modernidad this book argues that a defining aspect of modernity is an ever increasing  
pursuit of and need for what Eduardo Sabrovsky calls the extraordinary a term that encompasses both the exception and the  
miraculous Sabrovsky shows the degree to which Robert Musil s novel The Man without Qualities functions as a paradoxical  
paradigm of the extraordinary and he extends the theoretical insights drawn from Musil s magisterial work through a series  
of inquiries into cardinal elements of modern literature material culture historiography physical science psychoanalysis and  
political theory Sabrovsky demonstrates how the extraordinary condition of modernity emerges from the debates conducted  
by the last representatives of medieval scholasticism in which nominalism defeated realism and he resituates the results of  
this triumph of nominalism in the writings of Friedrich Nietzsche Theodor Adorno Walter Benjamin and Georges Bataille  
among others      *Theaters of Intention* Luke Andrew Wilson,2000 Early modern Britain witnessed a transformation in legal  
reasoning about human volition and intentional action Examining the relation between law and theater in this period this  
book reads plays by Shakespeare Jonson Marlowe and others to demonstrate how legal understanding of willful human action  
pervades 16th and 17th century English drama      **The British National Bibliography** Arthur James Wells,2003
