Footprints In Sand Brook Clearwater, AI, 2025-03-03 Footprints In Sand explores the fascinating world of ichnology revealing how footprints and trackways offer unique insights into Earth s history ancient ecosystems and human migration Trace fossils often overlooked provide a dynamic archive showcasing animal behavior and ecological interactions unlike static skeletal remains For example the book examines how analyzing dinosaur trackways helps us understand their locomotion and herding behavior The book investigates reconstructing ancient ecosystems and understanding early hominin evolution By analyzing significant footprint

sites such as Laetoli we can unravel mysteries of bipedalism and migratory routes The book also discusses how footprints contribute to our understanding of paleoclimate and geological changes as footprint preservation links to specific environmental conditions The book begins with an introduction to ichnology s basic principles then progresses through case studies blending geology paleontology archaeology and anthropology It emphasizes the value of footprints in understanding the past and informing future decisions inviting readers on a journey through time Animism, Magic, and the Divine King Giza Rsheim,2005-12-01 If the ancient kingdom of Sumer was the due of the serpent or bull hero who defeated the old serpent or bull and had access to the Divine Mother we can understand why her love appears to be a dangerous boon in later ages For year by year the chosen of Ishtar has to encounter a foe of his own blood and one of the two bulls is dispatched to the country without return from The Divine King Thoroughly fascinating and totally engrossing this 1930 work is an exploration of myth and magic in ancient cultures and how they tapped into the most elemental of human experiences sex death tribalism and war to lay the foundations of modern religion contemporary politics and even the tradition of scientific inquiry Armchair anthropologists readers of comparative mythology and anyone interested in the fundamental basis of the human subconscious will find this book extraordinarily enlightening Hungarian anthropologist GZA RHEIM 1891 1953 was the first professor of anthropology at the University of Budapest a position he held from 1919 to 1938 when he fled to the United States to escape the unrest of Europe just prior to World War II He is also the author of *The Riddle of the Sphinx* 1934 *The Origin and Function of Culture* 1943 *The Eternal Ones of the Dream* 1945 and *The Gates of the Dream* 1952 *Carbon Footprints as Cultural-Ecological Metaphors* Anita Girvan,2017-10-10 Through an examination of carbon footprint metaphors this books demonstrates the ways in which climate change and other ecological issues are culturally and materially constituted through metaphor The carbon footprint metaphor has achieved a ubiquitous presence in Anglo North American public contexts since the turn of the millennium yet this metaphor remains under examined as a crucial mediator of political responses to the urgent crisis of climate change Existing books and articles on the carbon footprint typically treat this metaphor as a quantifying metric with little attention to the shifting mediations and practices of the carbon footprint as a metaphor This gap echoes a wider gap in understanding metaphors as key figures in mediating more than human relations at a time when such relations profoundly matter As a timely intervention this book addresses this gap by using insights from environmental humanities and political ecology to discuss carbon footprint metaphors in popular and public texts This book will be of great interest to researchers and students of environmental humanities political ecology environmental communication and metaphor studies *Computer Aided Verification* Sharon Shoham,Yakir Vizel,2022-08-05 This open access two volume set LNCS 13371 and 13372 constitutes the refereed proceedings of the 34rd International Conference on Computer Aided Verification CAV 2022 which was held in Haifa Israel in August 2022 The 40 full papers presented together with 9 tool papers and 2 case studies were carefully reviewed and selected from 209 submissions The papers were organized
