The Magic World E. Nesbit Nesbit, 2016-08-18 The Mixed Mine Accidental Magic The Princess and the Hedge pig Septimus Septimusson The White Cat Belinda and Bellamant Justnowland The Related Muff The Aunt and Amabel Kenneth and the Carp The Magician's Heart **Re-Reading Harry Potter** Suman Gupta, 2009-06-25 This book discusses the political and social presumptions ingrained in the texts of the Harry Potter series and examines the manner in which they have been received in different contexts and media The 2nd edition also contains extensive new material which comments on the later books and examines the impact of the phenomenon across the world **Muggles, Monsters and Magicians** Claudia Fenske, 2008 Originally published as the author's dissertation doctoral Philipps Universitat Marburg 2006

Re-Reading Harry Potter S. Gupta, 2003-05-30 This is the first extended text based analysis of the social and political implications of the Harry Potter phenomenon Arguments are primarily based on close readings of the first four Harry Potter books and the first two films in other words a text to world method is followed This study does not assume that the phenomenon concerns children alone or should be lightly dismissed as a matter of pure entertainment The amount of money media coverage and ideological unease involved indicates otherwise The first part provides a survey of responses both of general readers and critics to the Harry Potter books Some of the methodological decisions underlying this study itself are also explained here The second part examines the presentation of certain themes including gender race and desire in the Harry Potter books with a view to understanding how these may impinge on social and political concerns of our world

Depravity Online Steve R.R. Carpenter, 2018-03-15 Playing computer games is a way of life for Steve R R Carpenter a thirty six year old virgin who still lives in the basement of his parents house But he's had it with all the lame multiplayer online role playing fantasy games pumped out by gaming companies so he decides to create one of his own Needless to say it's an instant success and a moneymaker to fund his real dream To use one billion dollars to create another game that would redefine the genre and put all its competitors out of their misery It's also a way to have revenge on the greedy corporate assholes who are responsible for the state the fantasy MMORPG industry is in today which is a welcome side effect for our protagonist If you never played and stopped playing a fantasy MMORPG before then this book is most likely not for you If you did you might enjoy this fun and crazy revenge story although if you were really pressed for time an easy fix would be to just read a random forum rant instead If on the other hand you couldn't care less about this whole MMORPG shebang but have a friend or a relative who hasn't read a book in as long as you can remember because he is playing MMORPGs all the time well then this book is your best chance to make him read something again because if he won't read this then there is no chance he would read anything else strategy compendiums for online games are a thing of the past now right *Magic: A History* Chris Gosden, 2020-11-10 An Oxford professor of archaeology explores the unique history of magic the oldest and most neglected strand of human behavior and its resurgence today Three great strands of belief run through human history

Religion is the relationship with one god or many gods masters of our lives and destinies Science distances us from the world turning us into observers and collectors of knowledge And magic is direct human participation in the universe we have influence on the world around us and the world has influence on us Over the last few centuries magic has developed a bad reputation thanks to the unsavory tactics of shady practitioners and to a successful propaganda campaign on the part of religion and science which denigrated magic as backward irrational and primitive In Magic however the Oxford professor of archaeology Chris Gosden restores magic to its essential place in the history of the world revealing it to be an enduring element of human behavior that plays an important role for individuals and cultures From the curses and charms of ancient Greek Roman and Jewish magic to the shamanistic traditions of Eurasia indigenous America and Africa from the alchemy of the Renaissance to the condemnation of magic in the colonial period and the mysteries of modern quantum physics Gosden's startling fun and colorful history supplies a missing chapter of the story of our civilization Drawing on decades of research around the world touching on the first known horoscope a statue ordered into exile and the mystical power of tattoos Gosden shows what magic can offer us today and how we might use it to rethink our relationship with the world Magic is an original singular and sweeping work of scholarship and its revelations will leave a spell on the reader **The Lost Forest** Fernanda Santos,2022-09-07

It wasn't just a dream like they thought it was The world that once was called home for the magic creatures was now consumed by darkness and shadow Losing her strength gradually Queen Flora the magic queen of the Lost Forest saw that all her efforts against the Queen of darkness were all in vain it was then when she reached for the help of the chosen ones They were the last hope she had A hope that could bring an end to all the destruction and suffering they were facing Entrusted by her with her own life they were brought to a world of enchantment and magnificence of creatures and beasts where their limits would be tested till the end bringing them to know the power of their own strength The strength of the power of the love Join Francesca Bryan Bernardo Antonia and Markus in the journey against darkness

Here students are not only taught to wield their gifts They are called to bond with sacred fae and claim their place in the balance between realms Ashari Vale has always felt the pull of something more At Skybourne she finds it but not in the way anyone expected Her elemental magic refuses the familiar paths carving a course as wild and untamed as the falcon who answers her call Rare and fierce Solarae is not just a bond He is a key to forgotten powers that run deeper than the Academy's foundations Alongside her best friend Peyton and a growing circle of friends Ashari steps into a world shaped by ancient forces and fragile hopes where loyalty courage and the fire within may be the only things that can hold back what is coming
