

Gender Mainstreaming in Early Childhood Education

Elli Scambor, Men's Counselling Centre Graz / Jens Krabel, Dissens e.V. Berlin

The following paper is a proposal for how a process of change towards gender equality in early childhood education can be implemented in five steps: Formulation of main objectives/ Gender Analysis /Formulation of subordinated targets /Implementation of measures / Evaluation. These Steps should not be perceived as completed process, rather as an open spiral, where evaluation is followed by analysis and the development of new objectives and/or subordinated targets.

I. Main Objectives

The strategy Gender Mainstreaming implies a clear gender equality main objective, but it has to be concretised for a certain field of interest. The project partners of Gender Loops have developed the following main objectives for gender equality in early childhood education:

- Enlarge gender identities of children, educators, parents, students and teachers.
- Improve the equal allocation of resources (executive positions, money, time, attention) among children, educators, parents, students and teachers
- Improve the gender competence (gender knowledge) and gender sensibility among children, educators, parents, students and teachers
- Increase the proportion of men participating in the training for educators and as educators, respectively.

II. Analysis

In a second step, the structure of institutionalised early childhood education should be analysed. Therefore the 3-R Method of gender analysis, developed by the Swedish scientist Gertrud Aström, will give evidence to gender specific disparities.
