Masculinity In Crisis Myths Fantasies And Realities:

Masculinity in Crisis Roger Horrocks, Jo Campling, 1994 This book argues that masculine identity is in deep crisis in Western culture the old forms are disintegrating while men struggle to establish new relations with women and with each other This book offers a fresh look at gender particularly masculinity by using material from the author's work as a psychotherapist The book also considers the contributions made by feminism sociology and anthropology to the study of gender and suggests that it must be studied from an interdisciplinary standpoint Masculinity is seen to have economic political and psychological roots but the concrete development of gender must be traced in the relations of the male infant with his parents Here the young boy has to separate from his mother and his own proto feminine identity and identify with his father but in Western culture fathering is often deficient Male identity is shown to be fractured fragile and truncated Men are trained to be rational and violent and to shut out whole areas of existence and feeling Many stereotypes imprison men particularly machismo which is shown to be deeply masochistic and self destructive

Men in the Middle James Gilbert, 2005-07 While the 1950s have been popularly portrayed on television and in the movies and literature as a conformist and conservative age the decade is better understood as a revolutionary time for politics economy mass media and family life Magazines films newspapers and television of the day scrutinized every aspect of this changing society paying special attention to the lifestyles of the middle class men and their families who were moving to the suburbs newly springing up outside American cities Much of this attention focused on issues of masculinity both to enforce accepted ideas and to understand serious departures from the norm Neither a period of male crisis nor yet a time of free experimentation the decade was marked by contradiction and a wide spectrum of role models This was in short the age of Tennessee Williams as well as John Wayne In *Men in the Middle* James Gilbert uncovers a fascinating and extensive body of literature that confronts the problems and possibilities of expressing masculinity in the 1950s Drawing on the biographies of men who explored manhood either in their writings or in their public personas Gilbert examines the stories of several of the most important figures of the day revivalist Billy Graham playwright Tennessee Williams sociologist David Riesman sex researcher Alfred Kinsey Playboy literary editor Auguste Comte Spector and TV sitcom dad Ozzie Nelson and allows us to see beyond the inherited stereotypes of the time Each of these stories in Gilbert's hands adds crucial dimensions to our understanding of masculinity the 1950s No longer will this era be seen solely in terms of the conformist man in the gray flannel suit or the Marlboro Man

Masculinity in Crisis Roger Horrocks, 1994-01-01 Male identity is shown to be fractured fragile and truncated Men are trained to be rational and violent and to shut out whole areas of existence and feeling Many stereotypes imprison men particularly machismo which is shown to be deeply masochistic and self destructive

Reconstructing Adult Masculinities Emma E. Cook, 2016-03-22 Over the past two decades Japan's socioeconomic environment has undergone considerable changes prompted by both a long recession and the relaxation of particular labour laws in the 1990s and 2000s. Within this context, freeters (part-time workers aged between fifteen and thirty-four who are not housewives or students) emerged into the public arena as a social problem. This book, drawing on six years of ethnographic research, takes the lives of male freeters as a lens to examine contemporary ideas and experiences of adult masculinities. It queries how notions of adulthood and masculinity are interwoven and how these ideals are changing in the face of large-scale employment shifts. Highlighting the continuing importance of productivity and labour in understandings of masculinities, it argues that men experience and practice multiple masculinities which are often contradictory, sometimes limiting, and change as they age and in interaction with others and with social structures, institutions, and expectations. Providing a fascinating alternative to the stereotypical idea of the Japanese male as a salaryman, this book will be of huge interest to students and scholars of Japanese culture and society, social and cultural anthropology, gender and men's studies.

Changing Landscapes for Childhood and Youth in Europe Vassiliki Deliyianni, 2014-06-02 Contemporary social transformations characterised by multi-dimensional globalisation and technological change have lent new impetus to the emergence of internationally oriented and interdisciplinary childhood and youth studies. Analysis of sharpened polarisations of chances and risks within and between generations in specific life circumstances meets up with the re-conceptualisation of childhood and youth as social constructions within the life course. As such, insulated national discourses are no longer an adequate framework to address such issues. Economic and cultural globalisation processes exert dual and reciprocal influences, restructuring societies and identities from within and without. This collection offers a three-fold thematic focus on the social construction of the life course, privileging gendered and family transitions and transformations on the contours of not belonging in particular, bringing migration and poverty into the spotlight and on the potential of virtual worlds for creating and enabling new positive and negative forms of individual social and political action on the part of young people. This collection thus offers a particular snapshot of the current landscape of childhood and youth studies and it provides a set of exemplars from diverse national contexts. Each chapter can stand for itself, but the contributions are ordered thematically, not according to the corner of the world from which they derive. As the introductory chapter explores, the intention is via a loose vectoring of theme and context to encourage multiple opportunities for reflection on relations between the specificities and commonalities of children's and young people's lives today. This volume joins the growing library of scholarly resources for international and interdisciplinary childhood and youth studies; it brings together well-established and young scholars writing from an unusual range of national and cultural contexts. The collection will be of interest not simply for specialist researchers and those in related fields but equally as a teaching and learning resource for higher education professionals and students in social sciences and education.

New Masculinities in Contemporary German Literature Frauke Matthes, 2023-05-13 The complex nexus between masculinity and national identity has long troubled but also fascinated the German cultural imagination This has become apparent again since the fall of the Iron Curtain and the turn of the millennium when transnational developments have noticeably shaped Germany's self perception as a nation This book examines the social and political impact of transnationalism with reference to current discourses of masculinity in novels by five contemporary male German language authors Specifically it analyses how conceptions of the masculine interact with those of nationality ethnicity and otherness in the selected texts and assesses the new masculinities that result from those interactions Exploring how local discourses of masculinity become part of transnational contexts in contemporary writing the book moves a consideration of masculinities from a native into a transnational sphere

Crossing Cultural Boundaries Lili Hernández, 2020-07-13 To cross boundaries to go beyond borders an evocative idea but what are the implications and consequences of transgression How are boundaries challenged redefined and overcome within the intricacies of taboos bodies and identities Crossing Cultural Boundaries Taboos Bodies and Identities brings together a range of articles that address this theme using different frameworks of interpretation As in the case of taboo boundaries are often internalised and may function as regulators for a society Their existence becomes visible the moment they are violated The essays in this book explore voluntary and accidental encounters with boundaries not only from theoretical perspectives but also from the experience of those who are part of transitions on a regular basis in their everyday lives The notion of otherness is central to the articles in this book The definition and interpretation of cultural others become part and parcel of the process of negotiation of bodies and identities While the other is marked by outward bodily signs spaces taboos and cultural practices the self is empowered by resisting submission to dominant modes and descriptions Deconstructing boundaries becomes part of the project of redefining the self This book will appeal to academics and researchers in communications cultural studies sociology health sciences anthropology literature and applied linguistics
