Mask Of Motherhood:

The Mask of Motherhood Susan Maushart, 2006 When a woman becomes a mother her relationships her professional identity and her sense of self will never be the same again The presence of children does not simply add to the lives of parents it transforms those lives completely The precise nature of this transformation remains one of the best kept secrets of contemporary adult life shrouded in a conspiracy of silence For expectant mothers whether that expectation is imminent or distant The Mask of Motherhood provides a backstage look at the realities of contemporary mothering from pregnancy and childbirth to the juggling act we all call working motherhood *The Mask of Motherhood* Susan Maushart, 1999-01

Motherhood and Postnatal Depression Carolyn Westall, Pranee Liamputtong, 2011-07-21 Globally postnatal depression PND is a growing public health problem PND affects 10 to 15% of women in Western society It caused by a combination of biological psychological and social factors Two models have attempted to define and explain PND the biomedical and the sociological models The traditional biomedical model views PND as a medical condition which implies there is individual pathology and abnormality Whilst the biomedical model has been the dominant model in treating PND it has been criticized by feminist sociologists and psychologists for its rigidity in defining and explaining PND In contrast the psychosocial model of health acknowledges the biological factors that impact on emotional well being but places more emphasis on the personal and social factors that impact on emotional well being but places more emphasis on the personal and social factors that contribute to depressive symptoms such as gender poverty social disadvantage and social class The central argument throughout this book is the importance of support before and after the birth for women s emotional well being This book will also include women s journeys through pregnancy childbirth motherhood postnatal depression and resolution To date literature has focused on women s lived experiences of PND rather than their personal journeys through pregnancy childbirth and early motherhood Additionally the adjustment to fatherhood has received less attention For example little is known about the impact of postnatal depression on the partner what support partners offer when women with the intention to fill the gap in knowledge of cultural and social issues relating to pregnancy childbirth and motherhood for woman who were diagnosed with and had resolved PND

Matricentric Feminism Andrea O'Reilly, 2016-10-01 The book argues that the category of mother is distinct from the category of woman and that many of the problems mothers face social economic political cultural psychological and so forth are specific to women s role and identity as mothers Indeed mothers are oppressed under patriarchy as women and as mothers Consequently mothers need a feminism of their own one that positions mothers concerns as the starting point for a theory and politic of empowerment O Reilly terms this new mode of feminism matricentric feminism and the book explores how it is represented and experienced in theory activism and practice The chapter on maternal theory examines the central

theoretical concepts of maternal scholarship while the chapter on activism considers the twenty first century motherhood movement Feminist mothering is likewise examined as the specific practice of matricentric feminism and this chapter discusses various theories and strategies on and for maternal empowerment Matricentric feminism is also examined in relation to the larger field of academic feminism here O'Reilly persuasively shows how matricentric feminism has been marginalized in academic feminism and considers the reasons for such exclusion and how such may be challenged and changed

Making Sense of

Motherhood Beth M. Stovell, 2016-02-02 Motherhood provides a crucial place for exploring human life and its meaning. Within motherhood lies a deep tension between the pain crisis and association with death in motherhood and the joy transformation and life in motherhood. Few metaphors in Scripture or in life stand so firmly between life and death, love and loss and joy and deep pain. After all, motherhood's meaning in part comes again and again at these crucial crossroads. Thus, motherhood has powerful implications for our biblical and theological understanding. Bringing together Jewish and ecumenical Christian scholars from North America, Oceania, and South America, this edited volume provides biblical and theological perspectives on understanding motherhood. The authors reflect upon a selection of biblical texts, systematic theologians, and Christian spiritual traditions to dialogue with the experience of maternity in its diverse manifestations. The purpose of the book is to provide essays that through these biblical and theological lenses engage the question of motherhood today, from the experience of pregnancy and birth to raising children to losing children and coping with grief. In this way, this volume helps to make sense of the complexity of motherhood.

Motherhood and Creativity in Contemporary Self-Life Writing Alice Braun, 2024-08-21 This book aims to study the representation of motherhood in self-life writing by English-speaking authors. It highlights the particular issues women writers are faced with when they try to combine their vocation as artists with their duties to their children. For those women who claim their right to be both mothers and writers, several cultural myths need to be taken down, chief among which is the representations that we have of what being an artist should be like, as well as the role a mother should have towards her children. This book looks at self-life writing by women from English-speaking countries to reveal the common themes and tropes which recur in texts written on the subject of motherhood by looking at them from both a literary and a cultural perspective. It also aims to demonstrate that a new generation of women writers is taking up the subject and forging a new literary tradition.

Motherhood and Feminism Amber E. Kinser, 2010-05-04 How does feminism relate to motherhood? How has it changed over time and what does the future of motherhood and feminism look like? These are just some of the questions Amber E. Kinser PhD tackles in *Motherhood and Feminism*. The latest in the Seal Studies series, *Motherhood and Feminism* is an important title examining the role of feminism within motherhood. The topic has garnered a lot of attention lately as society shifts to adapt to new definitions of these roles. Kinser has made a career of speaking, teaching, and writing about motherhood and feminism, weaving her own experience as a mother together with the knowledge and critique she has garnered through her studies. She offers insight on the core questions of motherhood: what it means to be a good mother, the role of mothers in the family and in society, and how motherhood has been redefined throughout time. Kinser examines how the changing world of motherhood fits into feminist activism and speculates on the future directions of these identities.

The 2nd Edition* Andrea O'Reilly, 2021-04-04 The 2nd edition includes a new preface that considers how matricentric feminism in positioning mothering as a verb affords a gender neutral understanding of motherwork and allows for an appreciation of how motherwork is deeply gendered and how this may be challenged and changed through empowered mothering The book argues that the category of mother is distinct from the category of woman and that many of the problems mothers face are specific to women's role and identity as mothers Indeed mothers are oppressed under patriarchy as women and as mothers Consequently mothers need a feminism of their own one that positions mothers concerns as the starting point for a theory and politic of empowerment O'Reilly terms this new mode of feminism matricentric feminism and the book explores how it is represented and experienced in theory activism and practice Intersections of Mothering Carole Zufferey, Fiona Buchanan, 2019-12-06 This book presents new interdisciplinary and intersectional research about women as mothers highlighting that alternative accounts of mothering can challenge normative societal assumptions and broaden understandings of women as mothers mothering and motherhoods Mothering occurs within unequal power relations associated with the disadvantages and privileges of an unjust and patriarchal society Social inequalities associated with gender race class age ability sexuality violence and nationalism intersect in the lives of women as mothers to shape their lived experiences and perspectives on mothering Showcasing the breadth and depth of feminist research on mothering this book gives attention to the diversity of ways in which mothering is constructed and responded to as well as how mothering is experienced Drawing on intersectional feminist thought the book challenges normative visions of good mothering and interrogates constructs of bad mothering It brings together insights from multidisciplinary scholars who use feminist approaches in their research on mothering to inform policy development and practice when working with women as mothers in diverse circumstances Intersections of Mothering highlights the complexities of mothering in a contemporary world show the benefits of considering mothering through an intersectional feminist lens make visible lived experiences of mothers and provides challenges to dominant imaginings of and service responses to women as mothers Intersections of Mothering will be essential reading for interdisciplinary scholars and students in criminology gender and women's studies motherhood studies social welfare social work social policy and public health policy in addition to practitioners and policy workers that respond to women as mothers *Mediated Maternity* Linda Seidel, 2013-05-09 *Mediated Maternity* Contemporary American Portrayals of Bad Mothers in Literature and Popular Culture by Linda Seidel explores the cultural construction of the bad mother in books movies and TV shows arguing that these portrayals typically have the effect of cementing dominant assumptions about motherhood in place or less often of disrupting those assumptions causing us to ask whether motherhood could be constructed differently Portrayals of bad mothers not only help to establish what the good mother is by depicting her opposite but also serve to illustrate what the culture fears about women in general and mothers in particular From the

ancient horror of female power symbolized by Medea or more recently by Casey Anthony to the current worry that drug addicted pregnant women are harming their fetuses we see a social desire to monitor the reproductive capabilities of women resulting in more formal and informal surveillance than in material or even moral support **From Here to Maternity**
