Meaning Of Infant Teachers Work:

The Meaning of Infant Teachers' Work Linda Evans, Angie Packwood, S.R. St. J. Neill, R.J. Campbell, 2005-09-26 Teachers of the youngest children at school were the first to bear the brunt of the policies to change the curriculum after the 1988 Education Act What did the changes mean to them How did they perceive their impact upon their work on standards in the curriculum on assessment and testing and on their relationships with pupils and colleagues How did they cope with stress long working hours intrusions into their home lives and with change imposed from outside The authors capture in detail the views of thirty infant teachers and compare their subjective perceptions dominated by a sense of massive change with the objective record of both continuities and changes in their work The Meaning of Infant Teachers' Work Linda Evans, 1994 Examines the effects of curriculum changes on teachers of the early years giving the views and perceptions of thirty infant teachers *Teachers Matter: Connecting Work, Lives And Effectiveness* Day, Christopher, Sammons, Pam, Stobart, Gordon, 2007-03-01 Based on a DfES funded study of 300 teachers in 100 primary and secondary schools in England the authors identify different patterns of influence and effect between groups of teachers which provide powerful evidence of the complexities of teachers work lives identity and commitment in relation to their sense of agency well being resilience and pupil attitudes and attainment This in turn provides a clear message for teachers teachers associations school leaders and policy makers internationally in understanding and supporting the need to build and sustain school and classroom effectiveness **Primary Teachers at Work** Jim Campbell, S. R. St. J. Neill, 2002-01-04 The first part of this book charts and analyses the working days of 326 primary school teachers It shows how they spent their working lives the nature of the curriculum they taught and analyses their work into five main categories Teaching Preparation Administration Professional Development and Other Activities The second part comments on the findings by relating them to issues of school management and curriculum manageability and looks at how the idea of conscientiousness among primary school teachers may have lead to their exploitation Teaching: Professionalisation, Development and Leadership David Johnson, Rupert Maclean, 2008-06-04 Harry Judge It is doubly fortunate that a foreword is not an introduction Since it is mercifully brief it should not be expected to mention respectfully each of the distinguished contributions which constitute the word before which it modestly stands as herald For the same reason it cannot be expected to constrain within one overarching framework contributions which are essentially varied in subject matter and method The brief of a foreword writer might indeed be compared to that of a musician commissioned to write an overture to an opera which he had not written To write such a piece for a volume devoted to Eric Hoyle is nevertheless a privilege as well as a pleasure Partly of course because this volume celebrates a long and distinguished career devoted to the application of intelligence and less assertively theory to the improvement of practice And partly because this abbreviated overture is privileged by being placed before a set of virtuoso performances throughout which consistent and coherent themes do insistently resonate Those themes are the very same that

distinguish Eric Hoyle's own work Testing Teachers Bob Jeffrey, Peter Woods, 2005-08-16 OFSTED inspections are often the most challenging searching uncompromising and stressful events teachers have to experience This text looks at what effects the inspections have on teachers and their work on their self and role *Education 3-13* Mark Brundrett, 2013 There is a growing interest internationally in research that helps us to understand the best ways to help young children engage with the curriculum in order that they may have the best possible life chances This text helps to address these issues and consists of seminal articles derived from the forty year history of the journal *Education 3-13* **Restructuring Schools, Reconstructing Teachers** Peter Woods, Bob Jeffrey, Geoff Troman, Mari Boyle, 2019-07-01 Drawing on wide ranging research this book originally published in 1997 explores how the policy changes of previous years were affecting primary teachers and their work at the time Within the context of worldwide restructuring the thoughts feelings and activities of teachers in their daily work are examined The core argument is that what used to be a complex but fulfilling job distinguished by professional dilemmas which are amenable to professional skill had become increasingly marked by tension and constraint which frustrates teacher creativity While some teachers found new opportunities in the new primary school many used strategical and micro political activity in order to cope while others fell victim to stress and burnout The authors argue that teachers own active involvement in policy change is required if their creative potential is to be realized The book will still be of interest to teachers in primary schools researchers and policy makers Primary Teachers' Stress Geoff Troman, Peter Woods, 2001 The findings inform policy recommendations aimed at preventing at source occupational stress in teaching and other caring professions as well as offering advice to individuals suffering from stress Jacket Teaching and Learning with Infants and Toddlers Mary Jane Maguire-Fong, 2020 Maguire Fong has updated her groundbreaking book designed to assist pre and inservice professionals working with infants and their families Each chapter draws from research and real life infant care settings to provide valuable insights into how to design an infant care program plan curriculum assess learning and work with families
